NEW BABY WEIGHS 23 POUNDS

Stork Plays Strange Tricks on Philadelphia Couple

Philadelphia, April 21.—The stork has played a freak trick in the household of Michael Kline, who lives at Seventy-fourth street and Glenmore avenue. Five years ago the Klimes were presented with a little girl who weighed only one and a half pounds at birth. This week the stork again visited the Kline family. This time it left a bouncing baby boy, who, when placed upon the scales, tipped the beam at a few ounces over 23 pounds. The new baby weighs nearly as much as some 5-year-old children.

Margaret Kline, the tiny girl, holds the record as the lightest of Paschaville. She took a prize at the Daboy Business Men's carnival, two years ago. Despite her size, she has thrived and is a robust child.

The Klimes now say they have the smallest girl and the fattest boy in Philadelphia.

Albion Association Meets

The Albion Athletic Association held its weekly business meeting at their rooms on Market street last night to discuss future development. Plans for the bazaar and spring festival which will be held April 29 and 30 were completed. The business, after being successfully transacted, was followed by an exhibition in calisthenics which was superseded by an excellent rendition of string music by Messrs. Maisano and Pyles.

U.S. POLAND RELIEF WORK SUFFERS IN LACK OF GRAIN

Berlin, Via London, April 21.—Ernest Bicknell, of the Rockefeller Foundation, and Elliott Wadsworth, of Boston, in charge of American relief work in Poland, are now working on the problem of securing sufficient grain for their task. They expect shortly to visit other European countries in search for grain. A supply of maize is available, but it is doubtful whether the people in the stricken districts could be taught to eat it.

The German and Austrian governments have pledged \$500,000 monthly for the relief work, of which Austria will give one-third. Mr. Bicknell says this is the minimum with which the work can be started. Germany and Austria have pledged themselves to requisition neither foodstuffs nor money in Poland.

Mr. Wadsworth and J. C. Gibson, of the Belgian Relief Commission, will go to Poland to study the situation and organize the relief work. Americans will be placed in charge of separate districts, with committees to aid them. A large force will be required. The Rockefeller Foundation will pay the expenses of the organization and for the maintenance of the staff. The rest of the money must be covered by donations from other sources, mainly from the United States. The amount required, even with the contributions of Germany and Austria, will be large. The commencement of the relief measures only awaits the securing of a supply of grain.

GUARANTEES SOCIALISTS DEMAND AFTER WAR IS OVER

Berlin, Via London, April 21.—The "Vorwaerts" announces that at a conference of German and Austrian Socialists held in Vienna it was agreed that the following guarantees must be secured after the war:

Internal arbitration courts must be developed into obligatory tribunals for settling all differences between nations. All treaties and agreements of states must be subjected to the Democratic parliamentary control of representative assemblies.

International treaties for limitation of armaments must be agreed upon with a view to disarmament.

The rights of every nation to determine its own destiny must be recognized.

The fact that Socialists of belligerent states are defending their country in war must not be made a barrier to maintaining the international relationships of all Socialist parties or to activity in their international arrangements.

BUYING OF SEIZED SHIPS ENCOURAGED BY FRANCE

Paris, April 21.—The French government yesterday promulgated a decree designed to encourage the development of the French merchant marine by enabling steamship companies to acquire vessels seized by Great Britain and sold by prize courts.

For this purpose the French government guarantees to the British government 75 per cent. of the purchase price of vessels thus sold.

WANTS A STATE BUILDING ERECTED IN PHILADELPHIA

Senator Farley Has Plans to Have One Put Up on Boulevard to House Various Branch Offices of the Government That Are Now in That City

Senator Farley, of Philadelphia, would have a new State building in Philadelphia, and to this end proposes to have a commission appointed to consider plans for a structure in that city that will furnish accommodations for the various branches of State departments now located there. Senator Farley has issued the following statement:

"It is my intention to present a joint resolution for the appointment by the Governor of a commission to consider plans for the erection of a State administration building in Philadelphia. The commission will serve without pay, and there will be no provision for extension of its term. If the resolution is approved, that the Governor will appoint citizens of high standing, who will assure the public that a building of moderate cost, and one that will be free from the slightest taint of graft, will be constructed. My personal preference is that the building be located on the Parkway, and I have no doubt that the commission will give consideration to a site along the Boulevard.

"At the present time the various branches of the State government are scattered about the city, and they could well be placed under one building, owned by the State. The Board of Education has concluded that it would pay to erect an administration building, instead of spending huge sums on rentals, and the State should likewise. The Supreme and Superior Courts are now housed in the City Hall, and no one can tell when Councils may seek to evict them, in the same way as the Board of Education was called upon to find new quarters for some of its departments.

"The State Highway Department, the Bureau of Labor and Industry, the State Insurance Department, the Department of Health, the State Board of Moving Picture Censors, the Live Stock Board and various other parts of the State government are compelled to
