

Heed Nature's Danger Signals

Nature gives warning in an unmistakable way every time an organ is disordered or some part of your system is weak and ailing and out of harmony.

If you heed her warning and immediately right the condition, you will suffer only the temporary discomfort. Disregard the warning, and the small ill may develop into a big and serious one.

Sick headache, sallow skin, dull eyes, disturbed sleep, languor, and skin eruptions are sure signs that there is some disturbing element that should be removed.

"Come down, papa is under the automobile." Charles Fritz, the farmer, accompanied the child and found Fisher's lifeless form pinned under the wreckage. The car had run over a steep embankment.

Fisher is survived by a widow and five children. He had been to Latrobe and was returning home when the accident occurred. It is thought that something went wrong with the steering gear.

DUBIOUS CHARITIES ARE SAID TO BE SUFFERING

Chamber of Commerce Issues Statement Regarding Its Scheme Requiring Issuance of Certificate of Investigation to Local Enterprises

The Chamber of Commerce issued yesterday a statement of which the following is part:

"The agreement that members of the Harrisburg Chamber of Commerce have signed pledging themselves not to contribute cash, merchandise or services to any charity or other proposition or buy programs or other special advertising until a 'Certificate of Investigation' has been issued by the committee in charge of such matters, is attracting wide spread attention.

"Quite a number of unwarranted appeals for financial support and worthless advertising schemes have languished in Harrisburg since the Chamber of Commerce put its plan in effect. The members report a marked decrease in appeals to them for support from dubious charities and advertising mediums.

"The Boston Chamber of Commerce whose work in such matters has attracted national attention, regards the Harrisburg Chamber's plan as better than its own. Numerous Pennsylvania commercial organizations have written to Harrisburg for sample forms and an explanation of the plan in order to put it in effect there. The charity organization department of the Russell Sage Foundation, New York, which acts as a national clearing house for charity regulation, has written for information about the Harrisburg plan.

"Two original aids to suppressing unlicensed advertising, soliciting and special advertising schemes have been devised by the Harrisburg Chamber of Commerce. One is promptly to bulletin each member whenever necessary about the work of the regulation department. This puts the members on their guard. It also reminds them not to patronize the out of town salesmen and many instances have been recorded of an out of town salesman being shown the door as a result of the Harrisburg Chamber of Commerce work.

"The second aid is an agreement entered into by the secretaries in eighteen principal Pennsylvania cities to advise each other promptly when a questionable scheme that might either be or become a transient evil was being worked in any of the cities. The result is that the business organizations are learning from each other of the gentry that try to 'work' each good town in the State in turn.

"The saving in money effected by the censorship by the Chamber enables members to afford to give liberally to a cause that has justified the issuance to it of a 'Certificate of Investigation.'"

Suspicion of Passerby Lead to Discovery of Poison Victim

Philadelphia, April 21.—Several persons passing a house at 306 Fairmount avenue yesterday were attracted by a man who sat at the third story window staring fixedly across the street. Investigation revealed Jacob Sox, 23 years old, a roomer, sitting in a chair dead.

The police of the Seventh district took him to the Roosevelt hospital where physicians said death was due to poison. The police are investigating a suicide theory.

REDUCE TOBACCO ACREAGE

York County Growers Say 1914 Price Was Too Low

York, Pa., April 21.—There will be a marked decrease in the acreage of tobacco to be planted in this county this year because of the low prices paid for last year's yield and the fact that a number of the growers have not disposed of their leaf. In the Druck and Hellam valleys, where the acreage was reduced during the past few years to 400 acres, many of the farmers are planting corn and potatoes instead.

Leaf dealers only paid 6 and 7 cents a pound for the county yield, and it is said that it does not justify the raising of the weed for that amount. Rye on some farms is 16 inches out of the ground and beginning to shoot into heads.

FINDS HE HAS TWO WIVES

Divorce Is Set Aside After Milton Man Married Second Time

Milton, Pa., April 21.—By a decision of the Superior Court, Jacob Neagley, who remarried shortly after he got a divorce from his first wife, is now in the peculiar position of having two wives.

In the meantime Neagley married a Danville young woman.

The Superior Court, her counsel announced yesterday, had reversed the lower court in granting a divorce.

An Easy Way to Get Fat and Be Strong

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through its regenerative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of your body. You can readily picture the result when this amazing transformation has taken on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. Geo. A. Gorgas and other leading druggists of Harrisburg and vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

Caution—While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken by those who do not wish to gain ten pounds or more.—Adv.
