BRAND GIRL WITH ACID For Catarrhal Deafness a Ignored "Black Hand" That De manded \$1,000 and Watch Connellsville, Pa., April 22 .- Mar Here in America there is much suf-forming from catarrh and head noises. American people would do well to con-sider the method employed by the Eng-lish to combat this insidious disease. Everyone knows how dampness af-feets those suffering from catarrh. In England they treat catarrhal deafness and head noises as a constitutional dis-case and use an internal remedy for it that is really very efficacious. Suffers who could scarcely hear a watch tick tell how they had their hear-ing restored by this English treatment to such an extent that the tick of a watch was plainly audible seven and eight inches away from either ear. Therefore, if you know someone who is so head noises, cut out this formula and hand it to them and you will have been the means of saving some poor suf-freese perhaps from total deafness. The prescription can be easily prepared at home for about 75c and is made as fol-tows. tha Shultz, a 15-year-old high school
