P. R. R. & SHRAPNEL ORDERS HELP BIG STEEL CONCERNS

Canadian Car & Foundry Company Gets \$80,000,000 Contract From Russia—Penns.'s Move for Equipment Wakes Up Other Railroads

New York, April 23.—"The Iron Age" says the Pennsylvania Railroad's announcement that it is about to buy or build 16,500 cars and 194 locomotives and the tentative placing in this country of further large sections of the Canadian Car & Foundry Company's \$80,000,000 shrapnel contract have been the main contributions of the week to the news of better business.

There are signs that other railroads are getting more alive to the low prices car and locomotive companies would make just now, and the steel trade looks for further developments in this direction.

Of the \$80,000,000 Canadian contract for Russia, it is now known that over \$20,000,000 has been made in this country and that \$20,000,000 more is nearly closed.

Actual exports of iron and steel grow slowly, February showing a total of 145,000 tons for products reported by weight, against 140,000 tons in January.

Ocean transport is a serious factor in business with Europe. Sweden wants American pig iron, but Swedish shavings is asked.

The Lake Superior iron-ore market has been opened for 1915 by sales of Mesaba non-Bessemer and of old-range Bessemer ores in the past few days, the total thus far being less than 1,000,000 tons.

The volume of new buying in finished lines continues to be less than in March. Shipments by some steel companies are less, also; by others substantially the same.

The foreign rail trade has shown a good deal of life, but British rail mills have had no hand in it.

The Pittsburgh and Valley districts the sheet bar market has quieted down lately after the active buying by sheet mills which had been idle in the deadlock over wages.

The Chicago surface lines have placed 20,000 tons of girder rails with the Lorain Steel Company.

THOUSANDS OF DOLLARS SPENT ON STOMACH

At last he happened to discover Mayr's Wonderful Remedy. He found relief quickly. Mr. Curry wrote:

"I have spent thousands of dollars for doctors and medicine and hardly got temporary relief, and before I took your medicine I was about discouraged. But after taking your medicine I got great relief. My mental and physical suffering had been so bad that I had to resort to morphine, and even with that I did not get much relief.

Your remedy helped me wonderfully. I have a good appetite, sleep well, and have gained weight. Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart.

WORKED UNTIL HE WAS 100

Thought Some One Else Might Need Job—Temperance His Recipe

St. Paul, April 23.—After working ninety years and having reached the age of 100, Edwin E. Fisher will step down and out to give his place to a younger man. Fisher has been employed as a pattern maker in a foundry on the West Side, and worked until five weeks ago, when the grip seized him and he had to lay off work.

"How do you account for your longevity?" he was asked. "Temperance," he said. "There are more dangers from overeating than overdrinking. I have never done either. I eat what I want. I used to smoke for many years. When I thought that smoking was harming me I quit, but then I chewed worse than ever. When the company that made my favorite brand was absorbed by the trust the dealer who supplied me said, 'That's your last plug, and I took him at his word. I couldn't get my favorite and so I let it go altogether. Whiskey? A night cap does me no good. No 'cycloperer,' though; that's bad. No drinking during the day, but a drop on retiring is a good thing."

"Yes, I am quitting work, although still able to hold my job. In the nature of things I can't live much longer. I don't fear death and it would do me no good if I did. So I am just going to die along for the few years that are remaining."
