U. OF. P. RELAY CARNIVAL STARTS THIS AFTERNOON

Rain This Morning Promised to Slow Up Track—Many Noted Sprinters Entered in the Race for the American Championship

Philadelphia, April 23.—Rain fell to-day and promised to slow up the track for the first day's events of the University of Pennsylvania's carnival of relay races and field sports on Franklin Field late this afternoon.

With a fast track it was expected that exceptionally fast time would be made in the sprint medley relay race for the American championship. Harvard Yale, Lehigh, Chicago, Pennsylvania, Michigan and Pennsylvania State were the entries in this event. The men in the race included some of the fastest men up to the half mile running in America to-day. They included Meredith, the Olympic champion, in the half mile relay; Lippincott, Pennsylvania; Bingham, Harvard, and Dismond, Chicago, who have done 49 seconds for the quarter mile.

There will also be in this race Patterson and Lockwood, Pennsylvania; Smith, of Michigan; Barancik and Knight, of Chicago, and Teschner, of Harvard, all of whom have done better than 22 seconds for the 220 yards and they will run that distance in the event.

DON'T WASH YOUR HAIR WITH SOAP

When you wash your hair, don't use soap. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just common mulsified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats soaps or anything else all to pieces. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, lustrous, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

You can get mulsified coconut oil (it must be mulsified, plain coconut oil will not do) at any pharmacy, and a few ounces will supply every one in the family for months.

This is the first year that the Pennsylvania relay sports have been spread over two days, it being the object of the athletic authorities at the university to have the meet conform in a measure with the Olympic games.

In the sprint medley two men run 220 yards each, the third man runs 440 yards and the fourth man 880

PAVING OF DERRY STREET WILL START NEXT WEEK

Preliminaries Are About Completed—Another Month Will See Wind Up of Paxton Creek Improvement—Work on New Sewers Being Rushed

Actual paving work on the mile section of Derry street extending eastwardly from Twenty-third street probably will be begun next week, so Highway Commissioner Lynch announced to-day. The Central Construction and Supply Company has yet a few feet of granite curbing to set and when this is done the Harrisburg Railways Company will start relaying its tracks. Then the concrete base will be spread.

W. H. Opperman, contractor, is rushing the work on the sewers in Market Square and Second street and should complete the job within the next two or three days. Sewers also are being constructed in Derry, Carlisle, Wilkesboro, Reel and Fifth streets. The contractor expects to have the up-town sewers finished before circus day, May 6.

Less than a month's construction work remains on the Paxton creek job. When this is finished the contractors will go ahead with the seeding and sodding of the banks. The improvement should be completed by July 1, according to the estimate of Board of Public Works' engineers.

BIG WHEAT CROP FOR KANSAS

Year's Yield Will Nearly Equal Record Harvest of 1914

Topeka, Kan., April 23.—Another bumper Kansas wheat crop in 1915 was predicted by J. C. Mohler, secretary of the State Board of Agriculture, in a report made public yesterday. The condition of the 1915 crop he estimated at 32.8 per cent, on a total acreage of 8,586,300. A year ago the crop estimate was 26.5 per cent on an 8,580,000 acreage.

A wheat crop second only to the 181,000,000 bushels yield of 1914 year is indicated, Mr. Mohler asserted. It is pointed out that, based on a 100 per cent crop of 20 bushels to the acre, Kansas, under existing conditions, should this year produce 159,700,000 bushels.

THE TURKS ARE PUT TO ROUT IN MESOPOTAMIA

London, April 23.—The following communication was issued last night:

"The latest telegrams from the Persian Gulf show that the defeat of the Turks at Shaib was even more complete than had been hoped. Not only have they abandoned their motorcars and gun and ammunition wagons, but independent reports show that their retirement has been a rout, molested by turncoat Arab tribesmen. There are persistent rumors of the suicide of Suliman Askeri, the Turkish commander-in-chief.

"It is estimated that the enemy's casualties from April 12 to 15 reached 6,000. The Turks in this direction are now all north of Khamseh, which is more than 90 miles from Basra."
