Governor Signs Measure Increasing the Number of Factory Inspectors by 50

29 OTHER JOBS ARE ADDED

Salaries of Three Officials Increased—Veto Ax Falls on Seven Proposed Acts Including One Fathered by Senator Crow

Governor Brumbaugh last night announced that he had approved ten Senate and three House bills and had vetoed four House and three Senate bills. Of the Senate bills approved one increases the number of deputy factory inspectors from 50 to 100, and another increases the number of State Game protectors from 30 to 60. The vetoes are based on constitutional reasons.

It is the Gerberich bill that adds 50 factory inspectors to the force of the Department of Labor and Industry, as recommended by the Economy and Efficiency Commission. It also creates 29 other places in the department and increases salaries of three officials of the department.

The additional places created are as follows: For the administration end of the department, one auditor, \$2,000; filing clerk, \$1,500; three stenographers, \$900 each; skilled stenographer, \$1,200. For the Bureau of Inspection, one skilled stenographer, \$2,000; one stenographer, \$1,200; 50 inspectors, \$1,500 each; two supervising inspectors, \$2,500 each; four inspectors, who shall be skilled stenographers, \$1,300 each. For the Division of Hygiene and Engineering, two engineers at \$1,500 each; clerk, \$1,500; stenographer, \$900. Bureau of Statistics and Information, four clerks at \$1,400 each; editor at \$1,600; expert tabulator, \$1,400; two machine operators, \$1,200 each; stenographer, \$1,500. Bureau of Mediation, secretary, \$2,000. Industrial Board, secretary, \$4,000.

The increases of salary are: Chief medical inspector, \$3,000 to \$5,000; chief of Bureau of Statistics, \$3,000 to \$5,000, and chief clerk, \$2,000 to \$3,500.

Other Measures Approved Appropriating \$8,071.63 to Polk Institution for cottages, bakery, etc., increasing number of State game protectors from 30 to 60. Appropriating \$11,000 to State Institution for Criminal Insane for deficiencies. Amending Foreign Corporation Registration act of 1911. Amending School Code by permitting School Boards to make contracts with seminaries and academies for instruction and to receive and administer assets of such institutions for educational purposes.

Amending School Code to provide for employees' pensions. Providing for registration of ownership of real estate in second-class cities.

Seven Bills Vetoed The seven bills vetoed by the Governor were as follows: Buckman Senate bill, regulating catching of bullfrogs and tadpoles, of which the Governor says it contains a provision relative to terrapin which is not mentioned in the title, and that it is of "constitutional uncertainty."

Crow Senate bill, regulating assessment of lands where divided by township lines, which, the Governor says, "would cause much confusion and secure but little benefit," and that it has a defective title.

Kline Senate bill, increasing salary of first assistant Clerk of Orphans' Court of Allegheny county, on which the Governor objects to the classification of the county, which is an basis of population, saying: "This county classification is of doubtful constitutionality, and while it is claimed the increase is paid from fees, it is paid finally by the taxpayers. The only question aside from the validity of the bill is the compensation properly attached to the service rendered. It does not seem to me prudent at this time to increase salaries, where no real hardship follows."

Crow Senate bill, increasing authority of literary, scientific, educational, religious, charitable, benevolent or beneficial societies to hold property, the Governor saying: "This bill increases the holding of real and personal property from an annual income of \$30,000 to \$300,000. The propriety of such a large increase in the possible tax-exempted properties of the Commonwealth is questionable. It is not clear to what extent unincorporated bodies having the most attenuated interests in common could secure such a commanding exemption from the Commonwealth, nor does it seem wise to me that any trustee residing in any county of this Commonwealth by such a body could apply to the Court for a charter in such form as to make clear and definite the purposes for which it is intended."

Roney House bill, regulating salaries of clerks in office of Recorder of Deeds in Philadelphia. The Governor says: "The existing act provides that Councils in first-class cities shall fix salaries paid out of the city treasury, and that they should be allowed to do it."

Public Printing Bill Falls Wobensin House bill, requiring all public printing to be done within the State, of which the Governor says: "There is no sufficient reason for such territorial limits. Many other public services might with equal propriety be so limited. Moreover, it is in contravention of Section 12 of Article III of the Constitution, and in violation of the act of July 26, 1897, as defined by the Courts in Commonwealth vs. Casey, 231 Pa. 170."

Dunn House bill, requiring second-class to establish a municipal pension fund. The Governor says of this: "This bill requires cities of the second class to establish a municipal pension fund. The bill entered the Legislature as a bill applying to cities of the first class, and emerged as applying to cities of the second class. Section 1 of Article III of the Constitution expressly prohibits this. It is a grave question whether the Commonwealth should mandate any municipal unit as to the method of expending its own money. The Councils of a city, representing the taxpayers, are the best qualified to pass upon such matters."

which must be met with immediate and energetic effort; "And whereas the House of Representatives on April 22, 1915, has by resolution called specific attention to the importance of prompt action in suppressing forest fires; "Now, therefore, I, Martin G. Brumbaugh, Governor of said Commonwealth, do earnestly urge that heroic action be taken by the officers of the State charged with the specific duty of locating and combating forest fires, and especially by the game protectors and the fish wardens, who are made ex-officio fire wardens by the provisions of an act approved by me on April 21, 1915.

"I would also call upon all public spirited citizens of the Commonwealth to co-operate with such officers and render all possible assistance to them in the carrying out of vigorous and effective measures to the end that the conflagrations may speedily be extinguished."

Death From Operation Chambersburg, April 24.—Albert

TRAIN OVER MILE LONG

Wonderful Traveling Home of Barnum and Bailey Circus.

When the Barnum and Bailey Greatest Show on Earth is packed away for the night and speeding over the rails to its next point of exhibition, it lives on a rolling home over a mile in length. This wonderful train is divided in five sections. It is a congress of nations on wheels, a Noah's Ark of animals and a world's fair of a thousand charms.

When the show lies spread out for a day's business it covers fourteen acres of ground. Over it waves a sea of canvas spotted with ten thousand flags and banners. No other show can compare with it in size, wealth or variety. The spirit of P. T. Barnum, the greatest showman who ever lived, still animates its faultless policy. The wonderful system of James A. Bailey, that has made the handling of the gigantic proposition possible, is still in evidence, urging it on from year to year to better and grander achievements.

Yes, there will be a parade—the best parade America has ever seen. This circus has spent many of its fifty-five years in touring Asia and Europe. This has kept it in constant touch with the lands from whence come all wonders. Material for this year's street spectacle were gathered in this way. Agents have searched savage lands, artists and designers have worked for months in the foreign workshops of the show, experts have ransacked the art galleries of France and Italy, and the looms of China and Japan have been busy since early last fall making the silks and satins to clothe the people of the pageant. It has taken two years to turn

out the equipment, and the management has spent \$1,000,000 on it.

All strange types of the human family are found in the three-mile procession, together with their characteristic costumes, weapons, war vehicles, their music and their idols. Rich and fantastic carriages of state, gorgeous tableau floats, fairy chariots bearing the myths of childlore, richly draped howdahs, engines of warfare, pagan images, Italian statuary, horse fairs, fairy carnivals, brass bands, barbarian orchestras, tomtom players, weird pipers, silver chimes, cathedral organs, siren pipes, chanters, derishes, castanet ballets, kirmis scenes, fete day pictures, mardi gras, peageantry and a thousand other spectacular sights unfold themselves before the eyes of spectators for an hour or more.

The show carries its own dynamo plant, where power is generated for the various shops and for 5,000 incandescent lamps, faring arcs and a battery of spotlights. There is also a circus postoffice, where mail is received daily from every country in the world. The circus grounds are a city in themselves, with doctors, lawyers, barbers, detectives and artists and artisans of every description. In the canvas hotel 4,000 meals are cooked and eaten every day in the week. A corps of several chefs, cooks, waiters and kitchen helpers is carried, and 1,000 people can sit at the tables at one time.

The Barnum and Bailey Greatest Show on Earth will exhibit at Harrisburg on Thursday, May 6.—Adv.

GOVERNOR CALLS ON CITIZENS TO FIGHT FOREST FIRES

Acting on the suggestion of the House of Representatives and the Wild Life Association of Pennsylvania that he should issue a proclamation calling attention to the forest fires prevalent throughout the State and requesting all citizens in the vicinity of the flames to assist in fighting them, Governor Brumbaugh yesterday issued the following:

"Whereas, It has been reported to me that great fires are sweeping over vast areas of the mountain lands of this State, destroying growing forests to such an extent as to menace the present and future timber and water supply, and to the great damage of all wild life generally; "And whereas the organized fire fighting force of the State is inadequate to cope with the emergency,

Excitement Caused Death

Anna Livingstone Expired After Being Taken Away From Birthplace

Gettysburg, April 24.—The excitement and exhaustion incident to the removal of Miss Anna Livingstone, 68 years old, from the old homestead, below East Berlin, to the new home of her nephew, Irvin Hull, on the Charles Altland farm, is believed to have caused her death, which occurred Thursday morning at 10 o'clock.

Miss Livingstone had been living at the home from which she had been removed since childhood. Owing to her sickness when her nephew and family moved she remained with Elmer Bentzel, who tenanted the farm after the removal of the Hull family.

Safe Deposit Boxes —Safer Than a Safe \$1 and upwards per year Union Trust Co. of Penna. Union Trust Building

Harold Flory died yesterday morning at the Chambersburg hospital where an operation had been performed upon him recently for appendicitis. The illness from which the young man's appendix trouble originated began about a year ago. When gathering water cress which he was accustomed to sell among friends and put the entire proceeds into his bank "Christmas Fund" he went into the water in a perspiring condition. This shock permeated his system and he never regained his full health.

Sell Farm Willing to Home Carlisle, April 24.—At a public sale held Thursday by authority of the court, Caleb S. Brinton and J. Harvey Lane, trustees, sold the farm in Upper Frankford township, formerly owned by John M. Burkhardt, to John H. Throne, tenant on the farm for \$22.60 per acre. The farm contains 204 acres and 60 perches and was willed by the former owner to the Tressler Orphans' Home at Loyalsville.

Recently on the claim that a greater revenue could be given the school if the place were sold and the money invested, the court was appealed to for an order of sale. The proceeds will be used to supplement the income of the Perry county institution.

Five Graduates Get Diplomas Waynesboro, April 24.—A large number of people attended the ninth annual commencement exercises of the Quincy township high school, in the United Brethren church of Quincy, Thursday evening.

The exercises were very interesting and demonstrated the very capable work done by Principal R. G. Mowrey and his assistant, J. C. Hess. There were very beautiful floral decorations, the music by J. Edward

Shumann's orchestra of Waynesboro was exceptionally good, and the address by E. B. Teitrick, deputy state superintendent of public instruction was most inspiring. The members of the class are: Walter Miller, Chauncey Blubaugh, George Newcomer, Misses Grace Snyder and Charlotte Lohman.

Unite for Local Option Fight Chambersburg, Pa., April 24.—The 12 church brotherhoods of this city met in the First United Brethren church and decided to federate, with the paramount idea of helping Governor Brumbaugh and those fighting with him for local option. The federation will have a membership of 1,500 men.

Smallpox at Maryland Gretna Green Hagerstown, Md., April 24.—An outbreak of smallpox was reported yesterday in Washington county by the county health officer, Daniel Watkins. Harry Stillwell, near Sharpsburg, and Frank Murphy, Hagerstown, were quarantined.

Girl, 14, Weds Boys of 17 Gettysburg, Pa., April 24.—A marriage license was issued to Edgar L. Arter and Miss Carrie N. Lephold, of Union township. The bridegroom is 17 years old and the bride is 14. The girl is the youngest ever to have received a license in the Adams county courts.

The Man to Avoid "What sort of a billiard game do you play?" "Well," he replied suspiciously. "I can usually hold my own with any ordinary player, except the man who hasn't had a cue in his hands for three years."—Detroit Free Press.

When Chest Thumping Began For fifteen years Dr. Jean Nicolas de Corvisart practiced chest tapping in diagnosing disease, getting little but abuse from his fellow practitioners. Along came Napoleon and made Dr. Corvisart his physician. Dr. Corvisart somewhat surprised Napoleon when he thumped his chest by way of examination. Napoleon, with his characteristic shrewdness, recognized the advantage of a scientific test over guesswork and engaged Corvisart to be his regular adviser. The method of chest tapping now came into immediate vogue.—Kansas City Star.

YOUNG PASTOR INSTALLED

Rev. J. C. Ely, Jr., Given Formal Charge of Millintown Presbyterian Church Millintown, April 24.—Thursday evening, April 22, the congregation of the Westminster Presbyterian church participated in the installation services of their new pastor, the Rev. John C. Ely, Jr. Promptly at 7.30 o'clock the Rev. M. M. Hyde, of Academia, opened the services. The Rev. C. E. Hillis, former pastor of the church but now of Trenton, N. J., read the scripture fol-

lowed by special music by the choir. The Rev. R. A. Warnishush, of the Port Royal Presbyterian church, offered a prayer for the new pastor, the congregation and the church. The Rev. John C. Ely, Sr., father of the pastor, located at Lakland, Md., delivered the sermon.

The Rev. Mr. Hyde then performed the installation services and the pastor responded, while the congregation indicated their assent by the uplifted hand. The Rev. R. M. Ramsey, of Newport Presbyterian church, gave the charge to the pastor. He directed the pastor to be a preacher of the Gospel truth and not just a preacher of the Lord.

The church was crowded and all the local ministers were present. After the services an impromptu reception was held for the minister and his wife and visiting clergymen.

Smokeless Breakfast Bacon Try cooking your breakfast bacon on a pie tin in the oven. This does away with all smoke and burn grease smell in the kitchen, and the bacon is uniformly crisp. It may be cooked two layers deep if you will turn it once while cooking. One layer needs no turning. The fat from this is white and can be used for all baking. With half the amount of butter it is good even for cakes.—Washington Herald.

Hunger and Thirst While many men of science have contended that the sensation of hunger has its seat in the stomach and that of thirst in the throat, the Italian Valenti holds the view that the seat of both sensations is situated in the gullet. He found that a cocaine injection in the esophagus (the channel from the mouth to the stomach) resulted in immediate suppression of the sensations of both hunger and thirst.

Savages have long known that the chewing of coca leaves renders the gullet insensitive and destroys any desire for food or drink.—New York Tribune.
