## 'WATCHERS' BILL IS REPORTED OUT

Gives Suffragists and  
Antis Right to Keep  
Close Tabs on the  
Voting in November

## STILL SPARRING ON CHILD LABOR

Leaders Last Night Considered It Unlikely That Original Measure, As Favored By Governor, Will Be Amended in Senate Committee

The Senate last night reported out favorably from the Elections committee the bill allowing the friends and opponents of woman suffrage to have watchers at the polls next November. These watchers may be men or women, just as they are selected by their respective suffrage or anti-suffrage organizations to keep tabs on the voting when the suffrage amendment will be up for adoption or rejection.

It was expected that at last night's session something would be done in an effort to put the child labor bill back in the committee on Judiciary Special, but if there ever was any such intention the idea was abandoned.

The Senate "recessed" until 9 o'clock last night waiting the arrival of Senator Crow, of Fayette, the leader of the Republican majority on the Senate side, the expectation being that he would give out a hint as to what should be done with the child labor bill, but Senator Crow, arrived, had a conference with Governor Brumbaugh and later announced he did not know what was going to be done.

Senators Vare and McNichol, who are making the fight on the floor of the Senate for Governor Brumbaugh in the child labor matter, announced they have pledged for child labor the votes of thirty-four Senators, and that there may be more. Senator Snyder, of Schuylkill, chairman of the Judiciary Special committee, who reported the bill out on Monday night, says that there should be some amending of the bill in committee, but he is not so confident that it will be done.

**Little Change For Amendment**  
The probabilities are that the majority for the bill will concede the sending of the measure back to committee just to let its opponents save their face, but will not agree to any amendments and will have the power to send the bill back to the Senate again just as it came from the House. The real fight, if there is to be any, will be on the floor of the Senate.

The Cox bill, backed by Governor Brumbaugh, calls for a nine-hour day for child labor and a 51-hour week, with the age limit for newsboys at fourteen years, and for messenger boys at night at 21 years, while the opponents of this are striving for a ten-hour day and a 54-hour week, with the age limit for newsboys at 10 years and for messenger boys at night at 18 years.

**HIRSUTE APPENDAGES TO GO**

Microbes Lurk in Whiskers; 'Cut 'Em,' Steel Plant Order

Sharon, Pa., April 28.—Several steel concerns are urging the censure of whiskers as a preventive measure for the spread of microbes. Mustaches, dropping in drinking cups, are held to be the medium for transmission of disease germs.

Many workmen object to the ruling and some have threatened to quit if they must shave off their mustaches, in which they take pardonable pride. Some foreigners say they would rather part with their material possessions than have their features mutilated.

**3 MONTHS IN JAIL NOT ENOUGH**

Man Must Support His Wife & Spend Life in Prison

Saratoga, Pa., April 28.—William Dykes, 24, of Dummoore, was told by Judge E. C. Newcomb yesterday that if he does not make up his mind by Monday to pay \$12 a month to the support of his wife, Isabel, he will be sent to jail for contempt, to remain there until he does comply with the court's order, if it means life.

Dykes was advised to go to jail for three months to escape the responsibility of supporting his wife. Judge Newcomb told the husband "to get out of your head any advice your lawyer has given you," and made a rule decreeing Dykes in contempt.

## Thin Folks Get Fat On Three Meals A Day

Specialist Explains Why Food Does Not Always Produce Flesh And How Thin People Can Increase Weight

Most people who are thin and under normal weight, eat heartily but get no increase in flesh, while plump, chunky folks of equal weight eat less than the thin. The underweight ones finally decide Nature intended them to be thin, that the amount or nature of their food has nothing to do with flesh-making and that nothing can make them fat. But

A stout, strong robust body can come along from food alone. For there is a great deal of fat and if you are thin and underweight it is merely a certain indication that only a small portion of the flesh-making nourishment in your meals is reaching the blood and tissue. The assimilative functions of your stomach and intestines are not working properly and the larger proportion of the food value is leaving your body as waste.

To correct such a condition, a stout, strong robust body can come along from food alone. The assimilative functions of your stomach and intestines are not working properly and the larger proportion of the food value is leaving your body as waste.

It is with great reluctance that I take a position at variance with my chief, the Governor, in relation to proposed industrial legislation. In common, however, with many others, I must refuse to credit him with omniscience; I must refuse to subscribe to an absolutism which decrees that a personal program in legislation shall not have an 'i' dotted or a 't' crossed by the members of that branch of the government to whom the Constitution allows the sole exclusive privilege of legislation.
