CLEAN-UP WEEK STARTS NEXT MONDAY MORNING
Dr. Raunick Announces Schedule Showing How the City is to be Subdivided for the Collection of Garbage Day by Day
Next Monday will mark the opening of Harrisburg's semi-annual clean-up week. During the week every property owner and tenant, at the suggestion of Mayor Royal and the City health authorities, will be expected to trans-

form unsanitary cellars and back yards into clean, healthful and non-fly-breeding places.
The use of lime is urged by the health authorities and Dr. John M. J. Raunick, the City Health Officer, said today that only with the co-operation of the housewife can this clean-up week measure up to or run ahead of other successful clean-ups.
The Pennsylvania Reduction Company, contractors for collecting garbage and ashes in twelve of the thirteen city wards, will have an extra force of men on the job all week. The schedule for garbage collections is as follows:
Monday—Hill district south of Market.
Tuesday—Hill district north of Market.
Wednesday—Lower city limit to

North street.
Thursday—North to Verbeke street.
Friday—Verbeke to Kelker street.
Saturday—Kelker to upper city line.

New Medical Buildings Dedicated
By Associated Press.
St. Louis, Mo., April 29.—The new buildings of the medical school of Washington University were dedicated with an elaborate program here to-day. The three large buildings, which contain laboratories, dispensaries, lecture rooms and libraries, cost \$1,200,000 and, with the new Barnes hospital, the St. Louis Children's hospital and St. John's hospital, form one of the largest groups of buildings in the world devoted to medical and surgical purposes.
Why You Sneeze
There is more than one cause for sneezing, and persons may differ in their susceptibility to them. A bright

light will cause some persons to sneeze, the pollen of certain plants will affect others, and most people are likely to sneeze in the presence of dust. Such sneezing is due to superficial irritation. The sneeze caused by the effect of cold is different. It is an attempt of nature to cure you. She makes you sneeze for the same reason that she makes you shiver—to generate heat for warming the blood and preventing you from taking more cold—to help relieve the cold you have.
The sneezing from cold is not an act of the nose alone, this being merely the part of the body where it explodes. It is an act of the entire body, during which every muscle gives a jump. The body is affected by a spasmodic effort to warm the entire system and throw off the cold.—Boston Herald.
