Recent arrivals at the Panama-Pa-cific International Exposition from the State of Pennsylvania are:

mer, club work will continue, each of the three departments having work of importance on hand.

The municipal department will shortly commence its fly swatting campaign and Ben Strouse of the "Globe" will duplicate the prizes given by the Civic Club, so that this contest will be even more worth while to the contestants than usual. Mrs. Robert Hatfield Irons is in charge of this work and details will be announced shortly.

Miss Martha W. Buehler with Mrs. Edwin S. Herman as assistant, will be extremely busy all summer making inspections of nearly eight hundred flower gardens of one kind or another.

The educational department will have an oversight of the fresh air school which will be maintained through the summer in the Susquehanna school building for the benefit of tubercular pupils. The department is able to undertake this work through the kindness of the board of education which grants the use of the building; provides the janitor and daily luncheons; the Park Commissioner and his committee have agreed to pay the instructor and the anti-tuberculosis society is providing the carfare for the children, since many come from remote parts of, the city. This summer promises to be one of the busiest of seasons for the Civic Club. State of Pennsylvania are:
