Opposition in the House

There is opposition to the bill in the House and this was made manifest early this morning when the message was received from Governor Brumbaugh that he had signed the resolution of the House and Senate recalling the measure for the purpose of amendment. Mr. Walton offered his amendments proposing cutting out cities operating under special charters, which meant Lancaster. Mr. Spangler, of York, then proposed an amendment

meant Laneaster. Mr. Spangler, of York, then proposed an amendment which would make the bill apply only to cities which have full paid fire departments. Erie is the only third classicity where there is full paid fire department.

This provision had already been stricken from the original bill because it was held not to be constitutional and this effort again to make the bill unconstitutional was defeated. Mr. Walton expects some opposition when the constitutional was defeated. Mr. Walton expects some opposition when the bill comes up for action, but he believes that his agreement with legislative leaders will carry the bill through. Other members of the House from third class cities who are eager to see the bill pass, share Mr. Walton's optimistic view as to the chances of its passage.

Officers of that company declined to-day to announce their plans for the future, saying they now are awaiting the action of the State Legislature on a number of pending bills which have to do with the operation of jitneys.

Several jitney owners declared to-day that their expenses are very heavy.

"We are constantly repairing the car and I fear if I were not able to make the repairs myself instead of having the machine shopped, I would be compelled to quit the business," said one of the operators.

Accidents have befallen a number of cars and the expenses incurred thereby have made the owners of some of the buses think it advisable to quit the game.
