Continued From First Page. of the crowd increased. There were cries of "Long live the king," and "Long live the house of Savoy."

Royal Family on Balcony. Finally the king and the queen and the royal family came out upon the balcony. His majesty was in the uniform of a general. The crown prince, dressed as a sailor boy, waved his cap to the multitude.

Loud Cheers For America. After the demonstration before the Quirinal a great crowd with an American flag carried at the head went to the residence of United States Ambassador Page.

Great excitement was caused in the capital to-night by the report that Signor Bolletti, Italian ambassador, had been assaulted while driving in the street. It was learned later however, that the incident was not so serious as it was thought to be.

MAY RESORT TO OLD LAW TO CUT ARBITRATORS' FEES

Members of the Board of Public Works neither would confirm nor deny the report that they have asked the arbitrators for a statement of "days actually engaged" and "a detailed report" on the award. They prefer, they said, to make their announcement directly to the City Commissioners.

Suspends Conferences With Britain. Washington, May 22.—The informal and unofficial conferences between the commercial adviser of the British embassy and the State Department trade advisors, to expedite handling of American cargoes, were suspended to-day by the State Department because of the apparent misapprehension in London of how far they bind the United States government.

Turks Repulsed by Russians. Petrograd, May 22. Via London, 11:30 A. M.—There has been issued from the headquarters staff of the Russian army in the Caucasus the following report: "Attempts of the Turks to assume the offensive along the coast of the Black Sea have been repulsed. In the Oliz region there has been rifle firing between outposts and our troops have occupied Sarivan and Baskaleh. The Turks fled toward Bytlis and the south."

SUBLIME SIMPLICITY. The Epitaph Over Sir Henry Lawrence, the Lucknow Hero. There is a simple tomb in Lucknow, in India, that cost no more than many a plain farmer's grave-stone in our rural burying places.

It is the tomb of the heroic Sir Henry Lawrence, who died so glorious a death in the great mutiny of 1857. No commander in all India had planned more wisely for the defense of the men and women under his care, but the siege had only begun when he was mortally wounded. He called his successor and his associates to him, and at last, having omitted no detail of counsel or information that might enable them to carry out his farseeing plans, he roused himself to dictate his own immortal epistle.

Who Tried to Do His Duty. May the Lord Have Mercy on His Soul. And so to-day these lines, sublime in their simplicity, mark his last resting place, and you feel that not even the great Akbar in Secundra or Napoleon in Paris has a worthier monument.—Youth's Companion.

Modeled After an Ancient Tomb. The temple of the Scottish Rite in Washington is a handsome white marble structure about 150 feet square and rises to a height of 150 feet above the street level. At either side of the main entrance is an immense marble sphinx. A row of tall Ionic columns surrounds the second story. The architects followed closely the design of the ancient tomb of King Mausolus, which stood in Halicarnassus and was one of the seven wonders of the world. It was built by the wife of the king and was decorated with hundreds of wonderful statues. This old tomb became so famous that many buildings were modeled after it, but this is the only structure in America in which the design has been used.

Her Only Course. Lady Anne Lindsay, the author of the old poem, "Auld Robin Gray," was not only a delightful conversationalist, but she was a great story teller. This gift made her not only a welcome guest abroad, but a valuable member of the home circle, for it is related in "A Group of Scottish Women" that at a dinner party which she was giving to some friends an old manservant caused some amusement by saying in a perfectly audible undertone: "My lady, you must tell another story. The second course won't be ready for five minutes."

ALFRED R. HOUCK DIES AT HIS HOME

Continued From First Page. on Monday afternoon with services at his Lebanon home. The interment will be private. Mr. Houck was one of the most widely known politicians in the State. In early life he was a mechanical engineer with the American Iron and Steel Company, in Lebanon, and afterward at Scranton, but left that occupation to take a clerkship under former Revenue Collector H. L. Hershey, of this city. Mr. Houck had become active in politics when the late Marlin E. Olmsted, of this city, ran the first time for Congress. Mr. Houck carrying Lebanon county for Olmsted over E. M. Woomey, of Lebanon.

Later Mr. Houck was appointed postmaster of Lebanon by President McKinley. He served three terms in that office. In October, 1913, he was appointed chief of the Pennsylvania Bureau of Statistics and Information by John Price Jackson, the head of the Department of Labor and Industry. The Legislature, that has just adjourned, raised the salary of the office to \$5,000.

Mr. Houck was an indefatigable worker, and instituted many new plans for the working of his bureau that have produced beneficial results. He was the son of Dr. Henry Houck, who is now serving his third term as Secretary of Internal Affairs. He was regarded as the leading Republican politician of Lebanon county. Mr. Houck is survived by his wife and three daughters.

The office of the Bureau of Statistics was closed this morning immediately upon receipt of the news of Mr. Houck's death, and William H. Horner, one of Mr. Houck's assistants, went to Lebanon to assist in preparations for the funeral. Mr. Houck's death was a shock to everybody on Capitol Hill where he was very popular.

SUPREME COURT HERE MONDAY

Sessions Will Be Held in Capitol and Continue All Week. The Supreme Court for the Middle Pennsylvania district will begin its sessions at the capitol on Monday morning and continue here during the week. There are twenty-one cases on the list, four of which are state tax cases which will be argued by Attorney General Brown and his deputies.

The case of Commonwealth versus Deardorf, an appeal from Dauphin county, has been continued along with the appeals of the John T. Dyer Quarry Company, the Penn Mutual Life Insurance Company, in four cases, and the Alden Coal Company, all state tax cases.

The first case on the list is that of the appeal of Carlisle versus the People's Bridge Company, of Harrisburg. Dauphin county court cases on the list include: Cox et al. versus Pennsylvania Railroad Company; Pennsylvania Utilities Company versus Lehigh Navigation Electric Company; Commonwealth versus the Westinghouse Air Brake Company; Commonwealth versus the Wilkes-Barre & Hazleton Railroad Company; Rivder versus York Haven Water and Power Company; Commonwealth versus Williamsport Railroad Company and the appeal of Harry L. Whiteside from Dauphin county in the matter of the estates of George A. and Margaretta P. Whiteside.

The last Legislature passed an act taking Clinton county from one judicial district and attaching it to Potter county. Recently Judge Heck refused to entertain an action in Potter county brought by a man in Clinton county on the ground that the law affixing Clinton to Potter was unconstitutional. Attorney General Brown will ask for a mandamus to compel Judge Heck to act, and on this the constitutionality of the law will be tested.

Lloyd George May Be Retained. London, May 22.—Work is progressing slowly on the formation of the new national cabinet but decisions have been virtually reached as to who shall hold a few more portfolios. It is regarded as almost certain that David Lloyd George will remain as chancellor of the exchequer instead of going to the war office as has been suggested, to take charge of the production of munitions.

LOCAL RUNNERS WIN EARLY HEATS

Continued From First Page. when he sent the shot a distance of 47 feet, 4 1/2 inches. The old record was held by McCutcheon, who, on May 13, 1911, made the cast for a distance of 45 feet 6 1/2 inches. Second honors in the shot-put event to-day went to Emmanuel, Technical; third, W. Crump, Steelton; fourth, McKay, Technical; fifth, Wilkenblech, Milton.

After Tech's Laurels. The rain of the last two days did not seriously damage the cinder track on Island Park for this afternoon's championship meet for Pennsylvania schools under auspices of the Harrisburg Track Athletic Committee. On the contrary it packed the cinder and this was expected to aid in establishing new records for this annual gathering of school athletes.

The downpour at several times last night was very heavy but early this morning Park Commissioner Taylor went to the island and found conditions favorable for the meet. He then decided that unless another heavy shower should interfere the meet would be held as scheduled. The seats in the stands were all cleared of water and what sun shone this morning dried them nicely so that at noon the comfort of the spectators seemed assured.

This is the ninth annual scholastic meet to be held under the auspices of the Harrisburg committee. In point of the number of schools entered it surpassed all the meets for several years back. Two hundred athletes from the following fifteen high schools were entered: Elizabethtown, Harrisburg, Central, Harrisburg Tech, Lykens, Millersburg, Milton, Reading, Steelton, Waynesboro, Columbia, Williamsport, Lancaster, Chester, York and Lebanon.

Lancaster, Williamsport and Reading entered full teams and came here hoping to take laurels away from the Harrisburg Technical High School which has made the best record on the track so far this season of any school entered.

Cinder Track in Good Shape. The shield which has been competed for for seven years will be formally awarded to the Reading High School at the end of to-day's meet, that school having won the championship more times than any other school in that period.

The winner of last year's meet was Technical High, of Harrisburg, which holds the shield until to-day, under the rules. The prize this year is a new shield to be competed for annually for seven years. In addition the championship team will get a silver cup and the runner-up a bronze cup.

Individual athletes taking first, second and third places in the different events will receive gold, silver and bronze medals, respectively. In the scoring, first place counts five points; second place, four; third place, three; fourth place, two points, and fifth, one.

W. Orville Hickok, III, former intercollegiate champion weight thrower for Yale, was on the program to refer. The pole vault was scheduled to start at 1:45 o'clock and was expected to last all afternoon. The first track event, preliminaries in the one hundred yard dash, was scheduled for 2 o'clock.

MANY USES FOR GUNS. They Have Even Been the Means at Times of Saving Lives. Guns would not go even if warfare were abolished. For example, the signal gun of a ship is used to announce her arrival on a coast. It would be difficult to collect water of a mere dampness of sand, gun barrels are often sunk into the ground. By this means moisture is collected in the bore and many lives have been preserved by a timely draw at the muzzle.

A slaver, captured with a crew of slaves in the tropics, was once put in charge of a prize crew. During the voyage water ran out and slaves, slavers and prize crew were all dying of thirst. Then a sergeant hit on a brilliant idea. Taking all the available gun barrels, he plugged up the breach ends of a few of them, filled their bores with sea water and set them end up among the coals of the galley fire. Then as the steam rose he ran it through the other gun barrels till it cooled. The cooling steam collected in the shape of excellent fresh water and by this means scores of lives were saved.—Pearson's Weekly.

Trial by Jury. The "New York Law Journal" says on the subject of trial by jury: "While we do not think that trial by jury ought to be abolished or that there is any increasing sentiment in that direction, we do believe that the system should be modified by dispensing with the requirement for unanimous verdicts. This would obviate the element of individual eccentricity as an impediment to the administration of justice. Mental idiosyncrasy on the part of judges is constantly exhibited and scarcely excites comment. An eminent and very able judge will dissent from the ruling of his associates when it is extremely difficult to understand how so gifted a mind could have gone off on that particular tangent. By permitting affirmances or reversals, notwithstanding dissent, the personal equation is eliminated."

In Biology. Teacher—"John, how can you tell the dogwood tree?" John—"By its bark." And his answer was correct, even if it did cause a laugh.

Another bright answer captured in biology: Teacher—"What animal supplies us with ham?" John—"The butcher."—Chicago Herald.

Easy Money. "I give my wife half my salary every week to spend on the housekeeping and herself." "And what do you do with the other half?" "Oh, my wife borrows that."—Houston Post.

A man must be excessively stupid as well as uncharitable who believes that he is no virtue but on his own side.—Adison.

LATE WAR NEWS SUMMARY

Continued From First Page. far reaching importance is under way. The Russians are credited with having made progress on both flanks of the Austro-German forces but apparently have not been able to menace their communications. The main struggle is being carried on along the San, from Pernoal northward for a distance of about sixty miles. Although the Austrians and Germans apparently are making slower progress than heretofore, Petrograd dispatches admit they still retain the advantage. An official report from Petrograd states that attempts of Turkish forces to advance along the Black Sea coast have failed. It is said the Russians compelled them to flee, and captured two towns.

The British sailing vessel Glenholm was sunk by a German submarine off the Irish coast yesterday. The crew was permitted to leave the ship before it was destroyed and escaped.

King Victor Emmanuel signed to-day a decree conferring upon the Italian government extraordinary powers during the period of the war. Austrian troops are being concentrated in large numbers along the upper course of the Adige river, which flows from the Tyrol Alps into Lombardy.

The French and German official statements to-day tell of only unimportant engagements. Battles were fought last night near Neuve Chapelle and Lorete and each side claims to have made progress.

An official British report from the Dardanelles says the allies have won further ground on the southern end of Gallipoli peninsula.

ALLIES GAIN MORE GROUND ON GALLIOLI PENINSULA

London, May 22, 1:50 P. M.—Official announcement was made here to-day that the French and the British forces operating against the Turks on Gallipoli peninsula had gained further ground on the southern end of the peninsula. The statement reads: "The following has been received from the Mediterranean forces: "On May 19, in the southern area of Gallipoli peninsula, the French forces, in conjunction with the British, made a considerable advance, and have consolidated the new position. "Our aeroplanes dropped bombs against Turkish reinforcements landing at Ak-Bashi Liman and caused considerable losses. "On the night of the 18th-19th the Turkish forces made determined attacks against the Australian and New Zealand corps, which were all repulsed with heavy losses. Our losses did not exceed 500."

TURKISH CRUISER GOEBEN TOWED INTO PORT DAMAGED. Paris, May 22.—Telegraphing from Bucharest, the correspondent of the Havas Agency says: "Ten Turkish officers of field rank have been brought back to Istanbul from the Dardanelles to be court-martialed for refusing to obey their German commanders. "The Turkish cruiser Goeben, badly damaged, has been towed into the Golden Horn by the cruiser Breslau. "The authorities at Constantinople Wednesday night arrested a number of Christian and foreigner and even some Mussulmans. They were charged with plotting against the Young Turks. "General discontent in Constantinople is increasing, but the existing reign of terror makes outward manifestations impossible. "Reports that Italy is about to declare war on Turkey and assist in the attack on the Dardanelles has brought about deep gloom in Constantinople."

RUMOR PLOT WAS HATCHED TO KIDNAP PRINCE VON BUELOW. Paris, May 22.—Prince Von Buelow, German Ambassador at Rome, will not leave the Italian capital until compelled to do so, according to the Rome correspondent of the "Petit Journal." A circumstantial story also is told by the correspondent of a report current in Rome that when popular agitation against former Premier Giolitti was at its height a plot was formulated to kidnap Prince Von Buelow from his residence, the Villa Malta, but that the plan was abandoned when Signor Giolitti left Rome.

The "Petit Journal's" correspondent is authority for the statement that Prince Von Buelow has installed his aged mother-in-law, Donna Laura Minghetti, in the Villa Malta in the hope that the property will not be confiscated so long as it is occupied by an Italian woman. He is said to have offered her the use of the villa for the time he leaves Rome until his return.

EUROPEAN WAR COSTING ALL INVOLVED \$2,000,000 AN HOUR. Paris, May 22.—Captain Edmond Thery, widely known as an economist, estimates that the total military expenditures for the first year of the war will be \$10,000,000,000 for the seven allies and \$7,400,000,000 for Germany, Austria and Turkey. This makes an average of \$1,440,000,000 a month, \$48,400,000 a day and \$2,000,000 an hour.

He believes the economic powers of Great Britain, France and Russia can support the strain much more easily than their opponents.

KUEPFERLE, ALLEGED GERMAN SPY, WAS AMERICAN CITIZEN. New York, May 22.—Records which were regarded as tending to substantiate the claim of Anton Kuepferle, who committed suicide in London while on trial as a German spy, was a United States citizen have been found in Brooklyn, it was learned to-day.

The papers on file there show that he swore allegiance to the American flag in Brooklyn in 1912.

Turns Down Large Shrapnel Order. Battle Creek, Mich., May 22.—C. E. Kolb, president of a local manufacturing concern, has refused an order from a European government for shrapnel shells. The order, if accepted, would have amounted to \$3,000 a day for an indefinite period.

SUFFRAGISTS ARE AFTER SCALPS OF LAW-MAKERS

Association's President Calls on Constituents of Representatives Who Voted Against Women Watchers' Bills, to Punish Them at the Polls. Mrs. Frank M. Roessing, as president of the Pennsylvania Women Suffrage Association, sent out last night an open letter to the constituents of all the Representatives whose votes helped to defeat the bill in the House which would have permitted women watchers to be at the polls in November when the suffrage question will be voted on. In this county the letter was addressed to the constituents of Representative John C. Nisley and Representative Walter S. Young. The letter says in part: "Of course, if your representatives merely carried out your personal wishes when they voted against a measure framed to minimize the chances of fraud at the polls, we have no criticism to make. But we do not believe that such is the case. We are convinced that deep in the heart of every real man is a love of fair play. The representatives do not truly represent you when they voted against this measure, and we would appreciate it if you would let the public know that no man who betrays the principles you stand for can expect your vote as a candidate for re-election to the Legislature."

The letter also says: "Inasmuch as members of the same well-organized lobby that defeated the local option bill lobbied against the watchers bill, we are curious to know if their activities influenced your representatives' votes, or if they voted against our measure merely on the assumption that you, their constituents, were averse to giving womenfolk a square deal."

Braxter says he got the chickens up in Fishing Creek Valley, but as yet no complaint has been sent the police. Following an investigation of the matter he will be given another hearing.

FOOD SHORT IN MEXICO CITY. 250 People Faint in Rush to Get Supplies. Washington, May 22.—Mexico City continues to suffer from shortage of food, especially corn. State department dispatches to-day said that when an attempt was made yesterday to distribute corn to 8,000 people, there was not a sufficient supply and about 250 people fainted during the rush. Several demonstrations have taken place, the official dispatch say and in one such yesterday a crowd invaded the Chamber of Deputies where a convention was in session and cried: "We are hungry."

Carranza agency dispatches to-day refer to the situation in Mexico City and the food situation in general. The authorities are encouraging planting of crops and in places are distributing supplies to the people, but a serious situation is expected before the next harvest.

Carranza troops under General Gonzales marching on Mexico City reported near Otumba.
