How to Beautify the Hair

A Simple and Inexpensive Home Method

The hair is like a flower—a little care and proper nourishment does wonders. Just as a plant without air and water withers and dies, so will the hair go if not given proper nourishment. The scalp must be perfectly healthy and free from dandruff, as the scalp is to the hair what good soil is to plants and flowers.

If your hair is not pretty; if it is losing color, too dry, matted, falling out, or if the scalp itches and burns, you can easily overcome all of these conditions by using Parisian Sage, which supplies every hair need. It soaks right into the hair roots, stimulating them and furnishing the nourishment that is needed for the hair to grow not only long and heavy, but fluffy, soft, lustrous and gloriously radiant.

You can get a bottle of this inexpensive, yet delightful and helpful hair tonic from H. C. Kennedy or any drug counter. Improvement begins with the very first application. Besides stopping the scalp irritation it removes every bit of dandruff. The use of this unequalled tonic will surely give your hair new life and beauty.—Adv.

HOW TO REDUCE VARICOSE VEINS

Many people have become despondent because they have been led to believe that there is no remedy that will reduce swollen veins and bunches.

If you will get a two-ounce original bottle of Emerald Oil (full strength) at any first-class drug store and apply it at night and morning as directed you will quickly notice an improvement which will continue until the veins and bunches are reduced to normal.

Emerald Oil is extensively used in hospitals and in factories as first aid to the injured. It is a harmless, yet most powerful germicide and two ounces lasts a very long time.

Indeed, so powerful is Emerald Oil that soft bunches, goitre, swollen glands and wens are reduced. It is one of the wonderful discoveries of recent years and anyone who is disappointed with its use can have their money refunded. Any druggist can supply you.—Adv.

'SWEETHEARTS' SPRIGHTLY OPERETTA WITH A PLOT

Music by Victor Herbert Has an American Touch and Is Well Suited to Christie MacDonald and Her Clever Company

The music of the new Victor Herbert operetta, Sweethearts, in which Christie MacDonald appeared in the Majestic last night, is so fresh and bright as to make the piece a positive addition to the musical comedy stage. There is something distinctly American about it.

Strange to say, "Sweethearts" has a plot—not much of a one, but it is understandable—something lacking to more than half the musical comedies or operettas. Plot and music, with the rare singing and acting of an accomplished company, with Christie MacDonald at the head, served to furnish Harrisburg patrons of the stage with a sprightly evening's entertainment.

The coming of Christie MacDonald is always welcomed in Harrisburg. A fair-sized audience greeted her and one that appreciated the fine talent that went to make up the cast. All of the principals were clever and in the past season there has been no company here so wonderfully well supplied with good singers and actors as produced "Sweethearts," from the MacDonald star down, including Maud Beatty, Ralph Narin, Thomas Conkey, Anne Bussett, Edwin Wilson and the three conspirators, Echin Gayer, Frank Belcher and Alonzo Price. At his best Mr. Narin as a comedian reminds one very much of Charlie Bigelow, the bright particular star of the Weber-Fields funny men.

A word as to the chorus. A better one has not been heard at the Majestic this season. It is composed of fresh, young voices full of music and well trained. Miss MacDonald always gives us something bright and effervescent in the way of entertainment, and last night she lived up to her reputation.

There was local interest in one young woman of the chorus, Miss Jessie Nichols, of New York, who has been a visitor in Harrisburg homes on occasions of previous visits here. Miss Nichols has a good voice and is a remarkably clever dancer.

The close of the Majestic season was marked by the fall of the curtain last night.

WANT COURT TO HELP TO GET DETENTION QUARTERS

Advocates of the Plan Point to the Success of the Boys' Home in Berks County as Argument for the Establishment of One Here

Harrisburg civic societies for months, or since the old detention quarters in the almshouse were abandoned, have been seeking to induce the County Commissioners to establish a House of Detention in Dauphin county where juvenile offenders may be kept pending court action. The latest request for that purpose was registered with the Commissioners on Thursday and to-morrow the court judges will be appealed to for co-operation.

Persons interested in this cause today pointed to the annual report of Daniel K. Hoch, controller of Berks county, as an evidence that a "home for boys" is neither a needless luxury nor an item of extravagance, but is a necessary and is proving beneficial to the community. The controller has this to say concerning the home that has been established in Berks county:

"Possibly the institution from which the county receives the best returns is the Boys' Home, 821 Schuylkill avenue. This property came to the county in 1913 as the gift from Mr. and Mrs. W. H. Liden, and 1914 was the first full year of its existence as a county institution. To this home boys are sent by the Juvenile Court. They are cared for, sent to school and assisted in securing employment. The great majority of them are started in the ways of right living, and eventually will become useful citizens. Formerly boys were sent to the Reformatory and in most cases were not benefited in the least.

"The prison is a place of confinement; the county home shelters the aged and the helpless; in the asylums patients receive treatment and quite a number are benefited. The Boys' Home is in every sense a home, where homeless boys or boys over whom their parents have no control receive attention which each boy should have at that period of life. Its benefits cannot be measured in dollars and cents.

"During the last year thirty-seven boys were sheltered and helped. The cost of maintenance was \$3,234.35, including extensive repairs. The boys who work pay board and the receipts from the net cost of maintenance and repairs \$2,832.88. In some cases of extreme vicissitudes boys still are in the reformatories. These cost the county during the past year, \$1,994.52. Formerly when the practitioners sent all youthful offenders to State institutions the average annual cost to the county was \$7,000."

Gettysburg, May 28.—Relatives at last have located the three small children of Mr. and Mrs. Joseph Jacobs, of Adams county, who through the death of the parents became orphans early in the spring and who since that time had been living among strangers. Oddly enough the relatives did not learn of the youngsters' predicament until notice of the fact appeared in newspaper columns. The children were authorized to be published by the trustees of the Children's Home, Washington, D. C.

Boxers Are Body-worshippers

Bombardier Wells, heavy-weight champion of England, says that boxers are body-worshippers, and are accustomed to such a glorious feeling of physical fitness, buoyancy of nerve and muscle, that for them to be out of sorts, from any cause whatever, is a handicap that ordinary people cannot understand. Reporting From Memory

When Note Taking Was Forbidden in the House of Commons

Holeroff's feat in memorizing the whole play of "Figaro" after hearing it ten times could probably have been easily outdone by "Memory" Woodfall, who in the days when note taking was forbidden in the house of commons acquired fame by the extraordinary power of reporting from memory the speeches he heard in that august assembly.

His usual attitude during a debate, says the London "Chronicle," was to close his eyes and lean forward with both hands upon his stick, being so well acquainted with the tone and manner of the several speakers that he seldom changed his attitude save to catch the name of a new member.

The speeches thus memorized he printed in his journal, and so wonderful was his memory that he could recall full recollection of a debate a fortnight after, though having listened to many long nights of speaking in the interval. He used to say he could give any speech away on a corner shelf of his mind for future reference.
