Mrs. VANDERCOOK died at her residence, near the Episcopal Church, this morning. She had been in feeble health for some time.

The Knights of Honor meet this evening. If you are not already a member send in your application.

The man JONES who shot himself last week owned a lot in East Towanda, and had nearly material enough collected and paid for to build himself a house.

CHAS. SMITH, the Elmira temperance lecturer, will commence a series of temperance meetings in the Baptist Church to-morrow evening, to be continued during the week. Everybody is invited to be present.

Last Wednesday was an unlucky day on the Erie road. One brakeman was killed at Port Jarvis, and another at Buffalo. A little child was also run over and killed at Susquehanna Depot.

The Philomathean Society will hold a Sociable at the Institute next Friday evening, 30th inst. The proceeds will be added to the library fund and devoted to the purchase of books. The object is a most commendable one and should enlist the sympathy and command the liberal patronage of all our people.

The following note from Mr. ACKLEY, will explain itself:

SPRING HILL, Jan. 24, 1880.

Dear Sirs.—Please say in Monday's REVIEW that the Singing School will be held on Tuesday evening.

Truly yours,

S. F. ACKLEY.

"Cast the beam out of thine own eye." The Mercury criticizes the REVIEW on account of a typographical error, the substitution of u for a, and in the same issue the hypercritical editor indites and prints this sentence:

"Rev. E. P. Browne of Troy, held services in Christ Church Sunday. And preached two excellent sermons, both morning and evening."

We have heard that when people are in a certain condition they have double vision, but this is the first instance recorded of the singular phenomenon of the same condition of the organs of hearing.

We were shown at JEFF CAREY'S shop this morning a very unique and original piece of kitchen furniture, which the builder styles a "Cooking Table." It is constructed of thoroughly seasoned chestnut and ash; contains a large kneading-board, which fits in like a drawer when not in use, places for soda, sugar, spices and the various implements used in making bread, biscuit, cake, etc. At one end is a compartment large enough to contain two sacks of flour. As the top is perfectly tight the table may be utilized for almost any purpose in the kitchen when not occupied by the kneading-board.

This ingenious piece of furniture was made for Mrs. J. F. SANDERSON, and we have no doubt Mr. CAREY will have orders for many more of them as the ladies become familiar with the convenience and labor-saving utility of the invention. Every tidy house-keeper should call and examine it.

The revival of business boom may be said to have fairly struck this section. The Eureka Mower Co. are established on a firm foundation, and doing a prosperous business. The Nail Works will soon be in full blast, and now the good news reaches us that a new Coal Company is to be organized and commence operations at no distant day; and what makes the last item more interesting to Towandians is the fact that our townsman, JAMES MACFARLANE, is to have the management of the company, and that he will be assisted by his two sons, EDWARD and GRAHAM. The following notice of the enterprise, which we have no doubt is official and authentic, we take from Saturday's Elmira Advertiser:

"The Barclay Coal Company, in addition to their mines and railroad in Bradford county, Pa., which are operated by the N. Y. L. E. & W. RR., under a lease to the Towanda Coal Company, have for several years owned another large coal tract, nearer Towanda, which formerly belonged to Elisha A. Packer. These lands are held under a charter in the name of the Long Valley Coal Company.

"During the last summer some explorations were made on them by Mr. F. F. Lyon, the engineer of the Towanda Coal Company, which have proved the existence of an excellent field of coal, with a bed of five feet of good coal. The owners have concluded that the time has come to open a colliery at Long Valley. For this purpose they have secured the services of James Macfarlane, Esq., and his two sons, Edward O. and Graham Macfarlane, and have placed a large sum of money at their disposal, to be expended immediately in the requisite works for a first-class colliery, with coke-ovens for the manufacture of coke. A short branch of the Barclay railroad, a short tram-road from the mines, with an inclined plane for the mine cars, will bring the coal to the railroad at Lamoka station, ten miles from Towanda.

"On the completion of the works, which will require several months, they are to be operated permanently by Mr. Macfarlane and his sons, under a highly advantageous lease to another company, which will probably be called the Lamoka Coal Company. The mining village, which will soon be erected at the new mines, will be called Long Valley. The office of the Coal and Coke Company will be at Towanda, where Mr. Macfarlane has always resided.

"It is well known that he was the first General Manager of the Barclay Railroad and Coal Company for eight years, during the trying times when the semi-bituminous coal trade was in its infancy. He afterwards organized the Towanda Coal Company, and conducted it two years, and since then he has been for thirteen years the general sales agent of the Bloomsburg Coal Association for the State of New York, and for the last year for the western states. His son Edward, now living in Rochester, has had several years experience in the coal business as salesman, both of Bituminous and Anthracite coal, and Mr. Graham Macfarlane, who is a civil and mining engineer by profession, was employed by General Magee during the construction of the coal works at Antrim, and of those of the Buffalo Coal Company at Clearmont, in McKean county, of whose mining operations at the latter place he has had general charge since their commencement."

A young woman named ELLA HAGGERTY and a young man named DANIEL SHEEHAN were arrested Saturday night, in a place at the corner of Main and Water streets, by Chief KNAPP and Captain DEISTER. There seems to be something very wrong in a law that will only hold a man as a witness, to be then released, while the woman is punished. The young woman is not more than fifteen, and is from the neighborhood of Towanda.—Elmira Advertiser.

The February number of Scribner contains an admirable article on the alcoholic question. The editor takes a bold and advanced position on the temperance discussion, aiming well directed blows at the very root of the evil of intemperance, by demanding that children in the public schools shall be taught that alcohol is simply a poison, and destructive to the constitution; producing misery, pauperism and crime. The paper ought to be carefully read by thoughtful parents.
