Be sure and go to the M. E. Church this evening to see the "Panorama of the World."

Another reminder that spring has made its advent. "Uncle Phil," is around with his horse radish.

JOS. MARSHALL reports finding a live toad on the river bank the other day, as active as in mid-summer.

Dr. MCKNIGHT'S lecture in addition to entertaining and instructing the audience, netted the "Helping Hand Society," something over twelve dollars.

The students of the Graded School will give a public exhibition in Mercier Hall at the close of the present school term. The proceeds will be applied toward the construction of cases for a library and mineral cabinet. The entertainment ought to be well patronized.

A goodly company of young ladies and gentlemen quietly wended their way to the residence of Councilman KINGSBURY, in the Third Ward, on Friday evening last, for the purpose of giving Miss HELEN a "surprise." Although no intimation of the intended visit reached the ears of the young lady, she received and entertained her company with as much grace and dignity as she would have done had they been invited guests. The festivities were kept up to the "wee sma' hours of the morning," and everything "went merrily as a marriage bell." The occasion proved a pleasant one and long to be remembered, by all who had the good fortune to participate.

**A ZINC MINE.**—About four miles from the village of Wellsburgh, in the town of Ridgely, Pa., a zinc mine has been recently discovered. The product has been tested by miners and experts, and pronounced the genuine article. The discovery was made by THOMAS MACCALLUM, who detected the rock bearing metal along the wall of a ravine. The mine is on lands belonging to DICKINSON & BALDWIN. The nearest point to a railroad is at Wellsburgh. The vein fissure is seven feet wide. The side lying beside the wall rock varies from two to eighteen inches in thickness. The discoverer has run two tunnels into the vein, one of a hundred and twenty and another of seventy feet. A shaft has been run down twenty-five or thirty feet. During the prospecting twenty odd tons of ore have been taken out. The ore turns out pretty rich under analysis—about 70 per cent. Major MCDOWELL has taken specimens to the Smelting Works at Bethlehem, Pa., where it is pronounced paying ore. A zinc mine is very valuable, as the metal has not been found to exist in surplus quantities. It is proposed to form a company to work this mine. A specimen of the rock lying before us seems to be well charged with the metal. Should a smelting furnace be erected at the mine a large industry would be created from which Elmira might greatly profit. We hope that the mine may turn out a valuable discovery and profitable.—*Elmira Adv.*

The ladies of the M. E. Church will provide their friends with a New England supper, at the Church Parlors, to-morrow evening. Bear it in mind.

The Dramatic Club will meet at JAS. MAC-FARLANE'S on Tuesday, March 16, instead of Friday, March 12, as announced.

## Personal.

Mrs. Captain MANVILLE is visiting her mother in Penn Yan, N. Y.

M. C. MERCUR has been confined to his room for several days with a painful attack of rheumatism.

Rev. F. D. HOSKINS will lecture on "Modern Atheism," at Christ Church, on Friday evening of this week.

R. A. MERCUR, Esq., went to Philadelphia on Saturday evening. He is attorney in several important cases to come before the Supreme Court this week.

JOHN F. SANDERSON, Esq., is attending Supreme Court in Philadelphia this week. He prepared the plaintiff's "Paper Books" in the Bridge Company cases and in the case of J. O. WARD vs. Lebanon Mutual Insurance Co., and will argue the cases before the Court.

CHARLIE FELTON'S school, in Wysox twp., closed last week. Although CHARLIE is a faithful and successful teacher, he is a regular attendant at Sunday School, and his place in class is never vacant.

Col. G. M. REYNOLDS, of Wilkes-Barre, commanding 9th Regiment N. G. P., Lieut. Col. PECK and Adjutant MOORE, will visit this place on Wednesday, March 10th, to inspect Co. A, of this place. Members of the company who attended the annual inspection of 1879 will also receive their day's pay at the meeting on Wednesday evening.

The children, and old people too, have a rich treat in store this evening. The Wilson & Farlan "Mirror of the World," will be presented at the M. E. Church. The programme embraces a most interesting series of scenes in this country and Europe. Dr. O. W. HOLMES in referring to the performance says:

"To have these visions of strange cities, of stately edifices, of lovely scenery, of noble statues, steal out upon the consciousness and melt away one with another, is like dreaming a long beautiful dream with the eyes wide open. A journey with the 'Mirror' is the Grand Tour, minus the passport and bills of exchange, the voyage and the accidents, the tavern keeper's reckoning, the swoop of the custom house officer, the incubus of the Cleric, the tables a look at which gives the appetite its quietus, and the beds which are cities of refuge to all murderers of sleep. Children in arms are hardly too young to find delight in these exhibitions, while their parents and grand-parents look on with equal pleasure." The admission fee is 25 cents for adults, and 10 cents for children. The proceeds are for the benefit of the M. E. Sunday School. We hope everybody will attend. The entertainment will begin at 7:30.

As there has been considerable discussion of the naphtha question here, the following account of the experience of Owego with the new light, will be of interest to our readers:

"For the past week we have been using naphtha in our street lamps. As yet, neither in quantity or quality does it equal gas. But we are not to judge rashly. It is evident that the parties who have charge of it do not fully understand its operations. This is evident from the fact that lamps in several places burn till ten o'clock in the morning, when it was understood they were to expire, by the statute of limitation, by four. If then the quantity which burned till ten had been all used by four, it is evident that the intensity of light would have been nearly doubled, in other words, made to equal gas. This, of course, is what is desired.

This naphtha is a very light and highly inflammable substance. The method of burning is as follows: A reservoir holding a quart or more is fixed on the outside of the lamp, nearly a foot higher than the burner. A tube extends downward and passes inside the lamp. On this tube is a bulb into which all water passing toward the burner sinks, and is let out as often as required. Between this bulb and the burner is a stop-cock which regulates the flow of the fluid toward the burner. Near the extremity of the burner, and surrounding it, is a small cup, into which the lamp-lighter pours a little alcohol, lights it with a match and turns the stop-cock, letting on the naphtha. The flame of the alcohol heats the burner and the naphtha is thus turned into gas, which burns till all in the reservoir is consumed.

This burner, like a gas burner, can be made small or large. If small, the light will be thin and nearly worthless. If larger, the intensity of the light will be proportionally increased. A little time and experience will probably enable our City Fathers and the lamp-lighters to secure as much light as required.

It is said that one of the lamps exploded. This tendency is more difficult to remedy, because the increased flow of naphtha to the burner increases in like ratio the tendency to explosion.—*Times.*

A snow storm prevailed for several hours yesterday, but the snow melted about as soon as it reached the ground.

A real estate agent residing in Kansas, in a private letter to a friend here, gives this advice on the subject of "going west":

"I judge from what I read that — is inducing a good many families to come to Kansas. If he is urging people to come here with only means enough to get here, he is doing great wrong. Thousands of people in this state are now suffering for the necessities of life because of their spending their last dollar to get here, without considering that it takes time and labor to raise crops, and find wages for labor low and employment hard to find. I believe this is the best country for farmers I ever saw; the land is easily tilled and produces large crops; prices, too, are good; but thousands come here with the idea that land doesn't cost anything and that they can raise a crop in a month. No family should come here without enough to keep them one year. I have talked with a good many farmers in this county who were farmers in the east, and all say it takes hard work and much self-denial to get through the first one or two years, but after that it goes easy. After the land is subdued one man can cultivate as much here as three can in any eastern state."

## WANTS.

Under this head we will insert FREE, notices of situations or help wanted.

A situation by a gentleman with 16 years experience in the dry goods and grocery trade. Well acquainted throughout Burlington, Ulster and Smithfield. Best of references given. Address "Clark," this office.

Please call at GEO. ROSS' 1st Ward Store and get some of the nicest dried beef ever saw, and sliced as thin as tissue paper, 12 cents per pound. He has just purchased a splendid dried beef slicer of the Eastern Manufacturing Company, at Philadelphia.

COAL.—The best and cheapest sold in the market is the Barclay, fresh mined, thoroughly screened and slated. All sizes sold for \$2 75 per ton, at E. B. PIERCE'S Coal Yard.

MYER & DEVOE keep the largest and best assortment of Fruits and Vegetables in town.

If you want the best vegetables, the best oysters, the best cuts of meat, and the best sausage to be found in Towanda, call on MULLOCK, at the old Market, just south of the Ward House.

JACOBS is selling Overcoats all the way from \$2 up to any price you are willing to pay.

Rooms to rent on Main street. Enquire of B. A. PETES.

Simmons, the Fashionable Boot and Shoemaker, has removed his shop from Carroll Block to the rooms over Jacobs store, Patton Block, where he will continue business, and will be pleased to see all in want of anything in his line. Thanking the public for their liberal patronage, I shall endeavor to meet the continuance of the same, by careful attention to business and by using nothing but the best of stock.

J. H. SIMMONS

Boyd's Miniature Galvanic Battery for sale at A. L. NELSON'S jewelry Store, 50 cents.

PATCH BROTHERS are paying the market price, in cash, for good butter.

Rosenfield has not given up the clothing business, but has in addition a large stock of Collars and Cuffs, just a fine assortment of spring clothing and caps.

TO THE PEOPLE OF TOWANDA, as the warm weather sets in, we supply pure milk, twice a day, supplying morning and evening—warm milk, at rates as low as any one.

SMITH BROS.

Dr. LAFE says: "I have cured Neuralgia and Sick Headache Pills give universal satisfaction."

A. A. LAFE, Natick

Yes, it was "Blain" to see that Ross can sell 4 ply Linen Collars cheaper than other men in town.

MYER & DEVOE are receiving Oysters daily, at their market. Bridge Street.

Dr. KNAPP says: "I have cured Neuralgia and Sick Headache Pills and they give universal satisfaction in every way."

A. KNAPP, Pittston

NOW IS YOUR CHANCE.—Ross' clothing, has just purchased a large stock of Linen Collars and Cuffs, and allow him to sell them away down, and see them.

"Don't you forget it," that Rosenfield double discount any other establishment in the country on Linen Collars and Cuffs.

FARM FOR SALE.—I offer for sale on able terms a valuable farm, located in the valley of the Towanda creek, about 10 miles from Towanda, containing under a good state of cultivation, wood, a young orchard of choice trees, a framed dwelling house, and fine land with underground stabling. I will sell on long time, or exchange it for property in Towanda borough.

JOSEPH G. L.

BONDS FOR SALE.—GOOD CHANCE SAFE INVESTMENT.—The School Board of Towanda Borough are desirous of \$10,000 to \$15,000 in Bonds, triennial, at 5 per cent. interest, payable annually. The bonds will be in amounts of \$1000, and upwards.

By order of Board. S. W. ALVORD, Secretary.

PITTSBURY, Feb. 6, 1880.

DR. A. E. BURR—Dear Sir:—My wife had the Neuralgia for ten days, and her physician could give her no relief. I call on Dr. Knapp and got a bottle of your Neuralgia Pills and they relieved her in a few hours.

Yours Resp't,

THOMAS FORD, Agent Dupont Powder Co.

HO! FOR KANSAS.—Excursions to Kinsley, in the Arkansas Valley, in south-western Kansas, at greatly reduced rates, will leave Elmira, N. Y., on the second Tuesday of every month, accompanied by a person of experience, who will give every desired attention to the parties in his charge. For full information apply to C. F. NICHOLS, in person or by letter, at the Delavan House, Elmira, N. Y., or by letter at Towanda, Pa. Parties can procure tickets every Tuesday morning at same rates. Train leaves 5:40 A. M.

M. O. MOODY, the blacksmith, has moved to JOHN BROWN'S Shop, 1st Ward, and will be glad to see all of his old customers, and the public in general. All kinds of work done on short notice.
