Governor Neil, of Idaho, represents that the Mormon polygamists are making rapid strides to the attainment of power on the Pacific coast. Not content with the complete control of Utah, they are invading Colorado, Nevada, Arizona, Idaho New Mexico and Wyoming, and unless the Government is willing that these nefarious practices should be thus extended and made prevalent through all that Western region, it is high time steps were taken to prevent it. The best protection of polygamy thus far has been its weakness. It has been suffered to remain undisturbed under the impression that if let alone it would sooner or later die a natural death. Nothing would more surely tend to end its career than the impression that the Mormons were becoming any way formidable. It is certainly impolitic, even under the let-alone theory to allow them to extend their power to other Territories than Utah, and Governor Neil does well in calling attention to their encroachment on Idaho.

Barnes Greeley, a brother of Horace, relates this incident: "When Lincoln was elected I took a notion that I would like to have the appointment of mail agent on one of our local roads. The salary was \$1,000 a year, which was a big thing for me. I know Horace could get me the appointment. I spent some money traveling around and getting recommendations, and I succeeded in getting what I thought was sufficient. I had letters from a number of leading business men along the route, as well as from the party men, and those I forwarded to Horace, with a letter asking him to help me. What do you suppose he did? He wrote back, returning my recommendations, with the information, penned in his own hand, that he could get the appointment for me without the slightest trouble but that he didn't want to do it. He wanted me to stick to the farm. He said I was the only boy at home, and he thought it best that I should stay there. I wrote back and explained to him that I could be at home quite frequently; that at that time the salary of \$1,000 a year would help me out very considerably; that another party had offered to take the position for \$500 a year. I wound up by urging him to help me to the appointment. His reply was this: 'If another man offers to do this service for \$500, and you expect \$1,000, that is an excellent reason why you should not have it. If you had it the Government would be

losing \$500 a year. In the same letter he made me this proposition: 'Stay on the old farm, and if I do not raise more corn this year on two acres than you do on ten acres I will give you \$100.' Not being in a position to better myself, I staid on the farm and accepted his proposition. I picked out ten acres of as good ground as I had and planted it to corn. He planted two acres. When we measured up in the fall I had beaten him just twenty-five bushels of ears, and he sent me his check for \$100."

**Only Twenty-Five Cents a Month!**

**A FEW FACTS**  
In regard to the  
**White Sewing Machine.**

It is an acknowledged fact that the White Sewing Machine now stands pre-eminent among first-class machines, for its simplicity and light-running qualities. It is a mechanical fact that the White Sewing Machine is made from the best material and of excellent workmanship, and all its wearing parts are adjustable, so that lost motion can be "taken up" in an instant.  
It is an undisputed fact that the durability of the White Sewing Machine is sustained by a written warranty for five years.  
It is a progressive fact that the White embodies the most practical and useful improvements of other sewing machines, together with advantages peculiarly its own.  
It is a money-making fact that the White is the easiest-selling selling machine in the market, and therefore all wide-awake dealers make it their specialty.  
It is a gratifying fact that the White gives universal satisfaction, and that it is steadily and rapidly increasing in public favor.

**CAUTION.**  
Do not be imposed upon by agents and parties who are interested in the purchase and sale of other machines. It has become a common trick for unscrupulous competitors to get a White machine and put it in bad order so that they might prejudice purchasers against it and in favor of their own machines. To guard against such contemptible trickery, we advise all intending purchasers to correspond with us direct, and we will take pleasure in giving them the address of a regular authorized dealer for the "White" in their county, or we will offer to sell them a machine direct at special prices, and guarantee satisfaction in every respect.
