"Daily Review" only 25 cents per month. Try it.

The Denver Tribune gives a statement respecting the losses of cattle on the Colorado ranches, caused by lack of water and food: Where the grass is plentiful the streams are frozen to their bottoms, and there is no water. In places where there is water the grass is scarce; but even with a sufficiency of grass and water to sustain life, so emaciated and enfeebled are they by famine and cold during the past six weeks, that their strength may not be equal to the severe cold that may be in store for them. In Southern Colorado the bodies of dead cattle could be seen by hundreds dotting the plains along the lines of travel. Along the railroads are also to be seen numbers of living cattle lying down in the snow and almost buried from sight. These cattle will surely die, for when they become so weak that they must lie down, unable to rise, nothing can save them but the attentions of a herder and the providing of shelter and food. None of these things can be furnished to the cattle on the plains.

The Philadelphia Times has discovered a new political philosopher, one Blossom Brick, from whose political doctrines it gives the following choice examples:

Give the people plenty of taffy and the newspapers plenty of advertising—then help yourself to anything that's lying around loose.

It matters less how many votes you have than how many you poll; it matters less how many you poll than how many you can get counted.

One election officer well in hand is worth a score of voters on the half shell.

In politics the people are blind asses who think they can see through brick walls; they are only dangerous when they kick.

The Government means not those who vote, but those who receive, count, and return the votes.

If you want office, young man, kneel to the Boss first, then to the leaders, then to the people, and afterwards to the Lord, if you have any spare time left.

The Hon. Galusha A. Grow reached this city last evening on his return from his memorable contest with the Cameron dynasty at Harrisburg. Mr. Grow is one of the ablest and most brilliant men who ever appeared in public life; and his many friends in Northern Pennsylvania and Southern New York will earnestly regret his defeat.—Binghamton Republican.

Monday night thousands of people in Denver were watching a very unusual phenomena connected with the moon. When the moon rose there were streaks of light reflected from the sides, and in a short time the streaks disappeared and four lunar dogs appeared and soon four beautiful lunar bows which later become simply a halo. The weather was intensely cold.

The committee agreed to a favorable report upon the bill to admit free of duty, copies of the revised translation of the Holy Scriptures transmitted from the University presses of England to the American Committee on Bible Revision for their use.

A man, aged fifty-five, died in Brooklyn the other day, of small-pox. He would not tell his name or residence, and was buried in the potter's field. It is now discovered that he was Rev. Geo. H. Pool, an able Presbyterian preacher from N. J.

The Senate Military Committee authorized a favorable report upon all the pending nominations for army appointments

and promotions, including the nomination of Major Swaine to be Judge Advocate-General.

The commanding officer of the Department of Arizona states that the report of Indian atrocities on the San Francisco river, and of the inactivity of the military in southwestern Arizona, is sensational and false.

The report that General Grant intends to resign the Presidency of the World's Fair, is denied.

THE DAILY REVIEW
Only Twenty-Five Cents a Month!

A FEW FACTS
In regard to the
White Sewing Machine.

It is an acknowledged fact that the White Sewing Machine now stands pre-eminent among first-class machines, for its simplicity and light-running qualities. It is a mechanical fact that the White Sewing Machine is made from the best material and of excellent workmanship, and all its wearing parts are adjustable, so that lost motion can be "taken up" in an instant.

It is an undisputed fact that the durability of the White Sewing Machine is sustained by a written warranty for five years.

It is a progressive fact that the White embodies the most practical and useful improvements of other sewing machines, together with advantages peculiarly its own.

It is a money-making fact that the White is the easiest-selling selling machine in the market, and therefore all wide-awake dealers make it their specialty.

It is a gratifying fact that the White gives universal satisfaction, and that it is steadily and rapidly increasing in public favor.

CAUTION.
Do not be imposed upon by agents and parties who are interested in the purchase and sale of other machines. It has become a common trick for unscrupulous competitors to get a White machine and put it in bad order so that they might prejudice purchasers against it and in favor of their own machines. To guard against such contemptible trickery, we advise all intending purchasers to correspond with us direct, and we will take pleasure in giving them the address of a regular authorized dealer for the "White" in their county, or we will offer to sell them a machine direct at special prices, and guarantee satisfaction in every respect.
