Mr. Grow's conduct with regard to the late Senatorial contest has been criticised even by some of his friends; but the following card from that gentleman ought to set him right before the public; It was addressed to the Harrisburg Telegraph.

Will you allow me space in your columns to correct a misapprehension, which I see by the newspaper press of the State is somewhat widely extended. That is, that my withdrawal as a candidate for United States Senator was influenced by the expectation of being a candidate for Governor two years hence. Under no circumstance would I become a candidate for Governor then or at any other time. At the conference referred to with Mr. Oliver, Senator Cameron and Col. Quay, to which I was invited, a few hours before it took place, nothing was then said, or at any other time by either or any of them about Governor, and no assurance, pledge or promise of any kind, was made by either, except that if a candidate for U. S. Senator was elected by agreement of both divisions of the Republicans in the Legislature, that in that case such division and the individuals composing it, were to be regarded and treated alike in all respects as members of the Republican party. By-gones to be by-gones.

Each of us, i. e., Senator Cameron, Col. Quay, Mr. Oliver and myself were to use all our influence with whoever should be elected to secure from him such recognition and treatment of all who had participated in the Senatorial conflict on either side.

This was the clearly expressed understanding of us all before any reference was made as to any probable candidate that might be agreed on by the Respective divisions. It was not understood that we were to settle on a candidate in case Mr. Oliver and I both withdrew, but names talked over were to be presented merely as suggestions to the caucus of each division for their action and if either did not like one of the names presented they would agree on some other.

My judgment had been clear for weeks that if Mr. Oliver should propose to withdraw as a candidate, in the interest of harmony for the party, that there would be no proper course for me but to do the same thing, and that was the expressed opinion of a large number of my sincere friends. GALUSHA A. GROW.
Glenwood, Susq'a Co., Feb. 18, 1881.

In concluding an article on the change of administrations yesterday, the Elmira Advertiser says: "Of the incoming administration we have nothing to fear and everything to hope. General Garfield is a man of deeper and broader statesmanship than his predecessor, and his long experience in Congress has made him familiar with the needs of the government and the people. We confidently look for a speedy and satisfactory solution of the Southern problem, and believe the time is not far distant when the rights of all classes of citizens in that section will be as firmly asserted and fully recognized and protected as those of the North. There will be an end to bull-dozing, violence, intimidation and wholesale fraud, and every voter "can cast one ballot, and have that ballot "counted precisely as it is cast." There is a master-mind and a strong hand at the helm, now; and, under the blessing of Divine Providence, we believe "that all things may be so ordered and settled upon the best and surest foundations that peace and happiness, truth and justice, religion and piety, may be established among us for all generations." Farewell to President Hayes! A hearty welcome to President Garfield."

A FEW FACTS

in regard to the

White Sewing Machine.

It is an acknowledged fact that the White Sewing Machine now stands pre-eminent among first-class machines, for its simplicity and light-running qualities.

It is a mechanical fact that the White Sewing Machine is made from the best material and of excellent workmanship, and all its wearing parts are adjustable, so that lost motion can be "taken up" in an instant.

It is an undisputed fact that the durability of the White Sewing Machine is sustained by a written warranty for five years.

It is a progressive fact that the White embodies the most practical and useful improvements of other sewing machines, together with advantages peculiarly its own.

It is a money-making fact that the White is the easiest-selling selling machine in the market, and therefore all wide-awake dealers make it their specialty.

It is a gratifying fact that the White gives universal satisfaction, and that it is steadily and rapidly increasing in public favor.

CAUTION.

Do not be imposed upon by agents and parties who are interested in the purchase and sale of other machines. It has become a common trick for unscrupulous competitors to get a White machine and put it in bad order so that they might prejudice purchasers against it and in favor of their own machines.

To guard against such contemptible trickery, we advise all intending purchasers to correspond with us direct, and we will take pleasure in giving them the address of a regular authorized dealer for the "White" in their county, or we will offer to sell them a machine direct at special prices, and guarantee satisfaction in every respect.
