**What the Press think of it.**

The following comments of the press of the country on the inaugural of President Garfield are highly gratifying:

The Columbia, S. C., *News and Courier* says Garfield's treatment of the Southern question in his inaugural is broad and on the whole, statesman like. We thank the President for an admission so rare in these days that the responsibility for slavery did not rest upon the South alone.

The Boston *Advertiser* says Garfield's inaugural is a weighty, solemn declaration unexceptionable in thought and style, based upon undeniable and impregnable principles and solid in argument. The remarks on finance it would not be possible to improve upon. The *Journal* also cordially endorses the President's address.

The *Herald* thinks Mr. Garfield in his address met a great opportunity like a man sure of his ground, resolute in purpose full of high faith in the people. The *Post* says the general tone and point of the address is patriotic. Little can be found in it but what will commend itself to the favor of men of all parties.

The New York *Staats Zeitung* says: Garfield's moderation in discussing the Southern question and the tone of all his remarks in reference to the duties of the National Government and the relation to the States must give general satisfaction outside circles of extreme Republicans. His treatment of the financial question is thoroughly satisfactory perhaps with the exception that he is too one sided in linking together the funding and banking question.

The New York *Tribune* says: The address is admirable. It justifies the high confidence which the people felt in Garfield's patriotism, uprightness, and in his ability to propose a wise policy for the government of the Nation. It still remains for him to show whether he possesses the rare tact of patience and practical statesmanship to get things done. If so the Nation will manifest its gratitude four years hence as heartily as it now manifests its good will and confidence.

The consumption of malt liquor in this country has increased over one hundred per cent, in ten years. "During 1880" says the *Retailer*, the organ of the brewers, "taxes were paid on 13,374,000 barrels, or 414,000,000 gallons. This is equivalent to 150 mugs for every man, woman and child in this country. Leaving out the females, and childred, this vast quantity represents 600 glasses a year for each male over twenty-one years old in the United States. When we consider the very large number of adult males who drink no beer at all, and the other host who partake of it only in the most moderate manner, and at more or less protracted intervals, it is evident that some Americans must drink a great deal. At five cents a glass this beer manufacture of 1880 brought \$375,000,000, \$7.50 per capita for each man, woman and child. This is a quarter more than the total expense of running the United States Government.

The Democrats are yelling that the Republicans are responsible for an extra session of Congress. In the same manner they said the Republicans were responsible for the war. But that is not all the Republican party is responsible for. It is responsible for the perpetuation of the Union, and for preventing a panic that would have been almost as disastrous to business as another war. Whatever the Republican party has accomplished it has accomplished by defeating the Democrats.

**A FEW FACTS**

in regard to the

**White Sewing Machine.**

It is an acknowledged fact that the White Sewing Machine now stands pre-eminent among first-class machines, for its simplicity and light-running qualities.

It is a mechanical fact that the White Sewing Machine is made from the best material and of excellent workmanship, and all its wearing parts are adjustable, so that lost motion can be "taken up" in an instant.

It is an undisputed fact that the durability of the White Sewing Machine is sustained by a written warranty for five years.

It is a progressive fact that the White embodies the most practical and useful improvements of other sewing machines, together with advantages peculiarly its own.

It is a money-making fact that the White is the easiest-selling selling machine in the market, and therefore all wide-awake dealers make it their specialty.

It is a gratifying fact that the White gives universal satisfaction, and that it is steadily and rapidly increasing in public favor.

**CAUTION.**

Do not be imposed upon by agents and parties who are interested in the purchase and sale of other machines. It has become a common trick for unscrupulous competitors to get a White machine and put it in bad order so that they might prejudice purchasers against it and in favor of their own machines.

To guard against such contemptible trickery, we advise all intending purchasers to correspond with us direct, and we will take pleasure in giving them the address of a regular authorized dealer for the "White" in their county, or we will offer to sell them a machine direct at special prices, and guarantee satisfaction in every respect.
