## President Garfield and the Agriculturists.

The following extract from the inaugural of President Garfield, justifies the confidence reposed in him by the agriculturists of the country, whose interests have not heretofore received that consideration which their importance demand. The emphatic declaration of the new administration that the producing class are not hereafter to be overlooked, will be received with appreciation by the farmers of the country, and is another evidence of the profound wisdom of Gen. Garfield:

"The interests of agriculture deserve more attention from the government than they have yet received. The farms of the United States afford homes and employment for more than half of our people, and furnish much the larger part of all our exports. As the Government lights our coasts for the protection of mariners and the benefit of commerce, so it should give to the tillers of the soil the lights of practical science and experience. Our manufacturers are rapidly making us industrially independent, and are opening to capital and labor new and profitable fields of employment.

"Our facilities for transportation should be promoted by the continued improvement of our harbors and great interior waterways, and by an increase of our tonnage on the ocean. The development of the world's commerce has led to an urgent demand for shortening the great sea voyage around Cape Horn by constructing ship canals or railways across the isthmus which unites the two continents. Various plans to this end have been suggested and will need consideration; but none of them have been sufficiently matured to warrant the United States in extending pecuniary aid. The subject, however, is one which will immediately engage the attention of the Government with a view to the thorough protection of American interest. We will urge no narrow policy nor seek peculiar or exclusive privilege of any commercial route. But in the language of my predecessor, I believe it to be 'the right and duty of the United States to assert and maintain such supervision and authority over any inter-oceanic canal across the isthmus that connects North and South America as will protect our National interests.'

Two quite important public bills have been introduced in the legislature. One relates to boarding house keepers. Its main provisions are "that after the passage of this act, proprietors of hotels, boarding and lodging houses, in addition to the remedies now provided by law, shall have the right to attach wages due or owing to such persons as may be indebted to them for boarding, not exceeding four weeks, and any sum so due may be attached, and shall not be paid to the defendant until the judgment so had for such amount as may be due upon such attachment shall be satisfied, and justices of the peace shall have jurisdiction of attachment in all cases for such purposes." As that act is very likely to become a law the dispensers of hash and cold meat will have due protection against dishonest customers.

The other object of legislation to which we have referred is a bill to repeal the act which authorizes the market commissioner to weigh and seize short weight butter, which has been reported favorably to the House. Under the present law the butter thus confiscated is turned over to the directors of the poor. This certainly is a good law, and is obnoxious only to dishonest farmers who want to victimize the unsophisticated town people with light-weight butter.

## Business Cards.

**ALVORD & SON,**

Office corner Main and Pine Streets Towanda, Pa.  
JAS. WOOD. | JAS. T. HALE.

**A FEW FACTS**  
in regard to the

## White Sewing Machine.

It is an acknowledged fact that the White Sewing Machine now stands pre-eminent among first-class machines, for its simplicity and light-running qualities.

It is a mechanical fact that the White Sewing Machine is made from the best material and of excellent workmanship, and all its wearing parts are adjustable, so that lost motion can be "taken up" in an instant.

It is an undisputed fact that the durability of the White Sewing Machine is sustained by a written warranty for five years.

It is a progressive fact that the White embodies the most practical and useful improvements of other sewing machines, together with advantages peculiarly its own.

It is a money-making fact that the White is the easiest-selling selling machine in the market, and therefore all wide-awake dealers make it their specialty.

It is a gratifying fact that the White gives universal satisfaction, and that it is steadily and rapidly increasing in public favor.

### CAUTION.

Do not be imposed upon by agents and parties who are interested in the purchase and sale of other machines. It has become a common trick for unscrupulous competitors to get a White machine and put it in bad order so that they might prejudice purchasers against it and in favor of their own machines. To guard against such contemptible trickery, we advise all intending purchasers to correspond with us direct, and we will take pleasure in giving them the address of a regular authorized dealer for the "White" in their county, or we will offer to sell them a machine direct at special prices, and guarantee satisfaction in every respect.

**M. C. WELLS, Agent,**

Office at the Music Store,

TOWANDA, PA.

**MRS. D. V. STEDGE,**  
Manufacturer of and dealer in
