A FEW FACTS in regard to the White Sewing Machine.

It is an acknowledged fact that the White Sewing Machine now stands pre-eminent among first-class machines, for its simplicity and light-running qualities.

It is a mechanical fact that the White Sewing Machine is made from the best material and of excellent workmanship, and all its wearing parts are adjustable, so that lost motion can be "taken up" in an instant.

It is an undisputed fact that the durability of the White Sewing Machine is sustained by a written warranty for five years.

It is a progressive fact that the White embodies the most practical and useful improvements of other sewing machines, together with advantages peculiarly its own.

It is a money-making fact that the White is the easiest-selling selling machine in the market, and therefore all wide-awake dealers make it their specialty.

It is a gratifying fact that the White gives universal satisfaction, and that it is steadily and rapidly increasing in public favor.

CAUTION.

Do not be imposed upon by agents and parties who are interested in the purchase and sale of other machines. It has become a common trick for unscrupulous competitors to get a White machine and put it in bad order so that they might prejudice purchasers against it.
