Hon. B. S. BENTLY of Williamsport is in town. The Judge is deeply interested in the projected Binghamton and Canton railroad and will address the meeting to be held in the Court House this afternoon. The enterprise is one of transcending interest to the people of Towanda and we hope they may give it substantial encouragement.

L. F. GARDNER has been tendered a Professorship in Eastman's Commercial College, Poughkeepsie, N. Y. We understand he has accepted the position but will not leave the Eureka Works for some time yet. Mr. GARDNER is an accomplished book-keeper, a valuable citizen and a genial gentleman. The Eureka Company will not be the only people in Towanda who will regret to part with him, but he will go with the best wishes of all who have been so fortunate as to make his acquaintance here.

The venerable Judge HIRAM GRAY of Elmira, was in town yesterday. The Judge has outlived man's allotted days, but his form is still erect, his step elastic and his mental vision unclouded. He is one of the oldest as he is one of the most highly esteemed citizens of the Queen City. The Judge was here on business connected with the N. Y. D. L. & W. R. R. Co. Not many octogenarian members of the bar are still in active practice. He received the hearty congratulations of many friends during his brief sojourn.

The junior of the REVIEW has agricultural tastes and enjoys perusing the reports annually published by the Commissioner of Agriculture. For the pleasure of gratifying his desire in that direction we are indebted to our new Senator, Hon. JOHN I. MITCHELL, who has just forwarded us copies of the Agricultural Report for 1879 and the Report on Diseases of Swine and Other Domestic Animals. The Senator's promptness in complying with a request for the documents, is a gratifying evidence that constituents are not forgotten after success is attained.

We notice by the Wyoming county papers that M. A. DEWITT, Esq., is an aspirant for the office of School Superintendent for that county. We agree with Doctor WICKERSHAM that the very best men should be selected for the position, therefore we unqualifiedly endorse his candidacy. We have the

honor of a personal acquaintance with Mr. D., he having spent considerable time in this County introducing school books. Being a school director we met him in a business way and also socially. In business we found him prompt, faithful and honorable; in company cheerful, pleasant and courteous. We like him. We want him to succeed. We recommend him because we think he should succeed. To use a Mississippi river expression we say "he'll do to tie to." We understand he has had large and very successful experience as a teacher; that he has taught school to get money to go to school and in this way has fitted himself well for the position he now seeks. Is this true? If so he is the man for the Superintendency. We hope the Directors of Wyoming will do themselves honor and the schools benefit by making him Superintendent.
