DANIEL RIED, a Scotch miner, was instantly killed in Barclay yesterday by the falling of slate. He was one of the oldest and most highly esteemed miners on the Mountain.

We understand the test of a number of hydrants erected by the Water Works, yesterday, under the direction of Chief Engineer PORTER, proved entirely satisfactory.

SETH WEEKS, of the State fish hatchery at Corry, brought 25,000 Kennebeck Salmon to this place yesterday and put them in the river at the mouth of Towanda creek. Mr. W. says the effort to propagate this excellent variety of food fish in the Susquehanna is an experiment which he fears will not be successful as the salmon naturally gravitate toward salt water, but some of them may return. The fish put in here were very small, being only one month old.

T. E. QUICK, a highly esteemed citizen of Sugar Run died at his home Tuesday morning after an illness of some weeks. The deceased belonged to one of the oldest families of that section. He had held the office of Town Commissioner and Constable and was engaged in the mercantile business with his brother at the time of his death, they having recently opened a drug and grocery store. He served in the army and has had poor health for some years. He left a wife and several children to mourn his departure from this world. He was about forty years of age.

The Railroad meeting on Wednesday afternoon was not largely attended but a deep interest was manifested in the enterprise by those present. The subject was quite fully discussed and it was plainly demonstrated that the construction of the Bradford railroad is only a question of time, and that when built it will shorten the distance by rail between Boston and St. Louis more than sixty miles. JAMES MACFARLANE, Esq., Col. J. F. MEANS, Hon. JOS. POWELL, Judge BENTLEY, N. N. BETTS and President MADDEN were constituted a committee to bring the enterprise to the attention of railroad men and capitalists.

JOSH the king gipsy and one of his young men had a quarrel yesterday growing out of a horse trade. As they rode through Main street in a buggy the contention waxed so hot that they came to blows and literally "fell out by the way." Officer MOFFIT spoiled their fun by marching them both off to the "cooler," from whence they were taken before Police Justice CODDING and fined. They paid the bill, but JOSH thinking the young man had not been sufficiently chastised, proceeded to complete the job; whereupon the young man returned to the justice's office and procured a warrant for his Chief. JOSH spent the night in jail and is undoubtedly a soberer if not a wiser man this morning. It is hardly necessary to add, both were drunk, hence the trouble.

FIRE.—About 4 o'clock this morning the residence of CHAS. T. M'KINNEY, on Third street, between Chestnut and Houston sts., took fire and was entirely consumed. The alarm was not given down town for some time and it was nearly an hour before any firemen made their appearance. Hose was attached to the hydrant corner York avenue and Houston st., and a powerful stream of water thrown, but it was too late to accomplish any good, except perhaps to aid in saving the adjacent buildings. The explosion of a kerosene lamp in the kitchen caused the conflagration. Most of the furniture was removed. We learn that there was an insurance nearly sufficient to cover the loss. Mr. MCK. is a hard-working industrious man and will have the sympathy of the community in his great misfortune.

John Holdren, who has taken Dodge's shop comes from Corning highly recommended as a practical Blacksmith. He gives special attention to Horse Shoeing.

He is also a practical Wagon Ironer. Wagons ironed promptly, neatly and cheaply.
