The New Second Assistant Postmaster General.

While the appointment of Mr. R. ALLISON ELMER, of Waverly to the responsible and honorable position of Second Assistant Postmaster General, is one of the very best that could have been made, his selection is a refutation of the newspaper allegation that there is bitter enmity between the New York Senators and President GARFIELD. Mr. ELMER is one of the most intimate friends and ardent supporters of Senator PLATT and without doubt his appointment was made at the instance of that Senator. Mr. PLATT possesses the rare quality among politicians at least, of remembering and rewarding his friends. In this respect as in many others he resembles Gen. CAMERON of this State. Such men are deservedly popular. We confidently predict that THOMAS C. PLATT will make one of the very best Senators the Empire State has ever had, and that his ability and usefulness will give him a national reputation, while the many noble traits of head and heart will always find for him a warm place in the hearts of those who have the honor to know him personally.

The Elmira Advertiser gives Mr. ELMER this enthusiastic endorsement:

Hon. Richard Allison Elmer, of Waverly, was yesterday nominated for Second Assistant Postmaster General by the President. While Mr. Elmer has ever been foremost in the advancement of his party, this is the first political position with which he has been honored, though frequently named for official stations. He was very prominently urged, for which the Advertiser heartily sustained him, for State Treasurer, and only gave way to the demand of other sections. Mr. Elmer was born in Orange county in this State in 1842, and in 1850, with his parents removed to Waverly. In 1860 he entered Hamilton College and graduated in 1864. Since that time he has been actively engaged in business at Waverly, and is cashier of the First National Bank. Later he has been interested in the large railway enterprises centering in Waverly and in the extensive real estate operations in and about the new village of Sayre. He is a hard working Republican in the ranks, and has never sought office. The present appointment was entirely unsolicited and unexpected. He enjoys a very large circle of acquaintances throughout this section of the State. No better nomination could be made for the place.

A great Polar watering place is among the possibilities of the future. The Canadians are about building a railroad, the Hyperborean Pacific, from Lake Winnipeg to Fort Churchill on Hudson's Bay, a distance of three hundred and fifty miles. The route was explored last summer and pronounced feasible. The cost is estimated at \$12,000 per mile. It could not be operated more than five months of a year, but in that period, great quantities of grain could be taken from the Red River country to a port on the Hudson's Bay, thence to be taken in steamships direct to Great Britain without breaking bulk, thus saving largely in transportation charges. This consideration will influence the building of the railroad more than the fact that it might be a conveyance to a summer watering place of the coolest possible conditions.

Gladstone has written the following note to Rowton: "I learned of the decease of Beaconsfield with sad surprise and shall be prepared to give directions for a public funeral." Sir Nathaniel Rothchild, on behalf of his executors replied, thanking Gladstone, stating that Beaconsfield's will directed that he be buried at Hughenden, by the side of his wife.

The President has nominated Harrison Adreen for Postmaster of Baltimore.

The schooner, Leslie, from the South Seas, reports that Captain Schwartz landed on the Solomon Group to trade, was surrounded by natives and tomahawked, The savages rushed for the boat but the crew reached it first and pushed off. They also report that the captain of the Black Hawk was murdered by natives.

It is doubtful if over twenty millions of the outstanding sixes will be presented to the Treasury for redemption. Ten millions of the new stamped 3's were issued Wednesday.
