

This music is furnished through the kindness of J. A. MANVILLE, manufacturer of the MANVILLE ORGANS, Main street, Towanda, Pa. The Manville Organs have been manufactured for the past fifteen years in New York State, until now they are manufactured in Towanda, Pa. We have references of *first-class* musicians in this country who have used our organs in preference to those of more advertised reputation. Every organ is fully warranted; those wishing to buy a fine organ will do well to see our organs before buying elsewhere. We have the sole agency of the matchless Burdett Organs, and Schomacher Pianos. Sheet music, books, stools, and all kinds of musical merchandise in great variety. Ware rooms and Factory in Means Block, Main street, Towanda, Pa.
