A FEW FACTS

in regard to the

White Sewing Machine.

It is an acknowledged fact that the White Sewing Machine now stands pre-eminent among first-class machines, for its simplicity and light-running qualities.

It is a mechanical fact that the White Sewing Machine is made from the best material and of excellent workmanship, and all its wearing parts are adjustable, so that lost motion can be "taken up" in an instant.

It is an undisputed fact that the durability of the White Sewing Machine is sustained by a written warranty for five years.

It is a progressive fact that the White embodies the most practical and useful improvements of other sewing machines, together with advantages peculiarly its own.

It is a money-making fact that the White is the easiest-selling selling machine in the market, and therefore all wide-awake dealers make it their specialty.

It is a gratifying fact that the White gives universal satisfaction, and that it is steadily and rapidly increasing in public favor.

CAUTION.

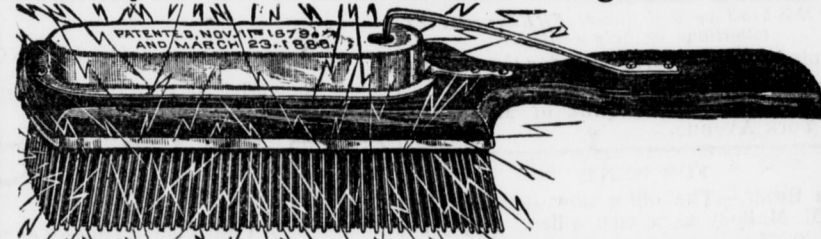

Do not be imposed upon by agents and parties who are interested in the purchase and sale of other machines. It has become a common trick for unscrupulous competitors to get a White machine and put it in bad order so that they might prejudice purchasers against it and in favor of their own machines. To guard against such contemptible trickery, we advise all intending purchasers to correspond with us direct, and we will take pleasure in giving them the address of a regular authorized dealer for the "White" in their county, or we will offer to sell them a machine direct at special prices, and guarantee satisfaction in every respect.

TOWANDA, PA.

This Brush is made of Metal Bristles, which are far superior to Hair Bristles. It is a law of Electro-Physics that electricity can not be communicated through hair bristles.

THE ELECTRO-MAGNETIC BRUSH
A SCIENTIFIC CURIOSITY.

Endorsed by prominent scientists of Europe and America, contains a complete GALVANIC BATTERY in the back, which produces a current of great intensity, which is communicated to the system and blood through the METAL BRISTLES.

The popular idea that Metal Bristles are harsh, or scrape and scratch the skin, or are in any manner unpleasant to the flesh is erroneous. They are soft and flexible, being set in a bed of soft rubber, and while feeling like velvet to the skin, yet produce a gentle, healthy friction, beneficial to the surface of the body, and at the same time opening the pores of the skin, permitting the unobstructed passage of the current to the blood, thence permeating the entire system.

DR. MORITZ MEYER, Royal Counselor of Health, Berlin, Prussia, says:

"It is successful in all nervous disorders, Neuralgia, Spasms, Paralysis, Rheumatism, Rheumatic Paralysis of the Eye, Disorders of the Sexual Organs, Impotency (which is cured by continued employment of the Brush), Deafness, Constipation, Dyspepsia, Kidney troubles."

DR. FREDERIC FIEBER, Instructor at the University, and Chief of the Special Division of Electro-Therapeutics, at Vienna, Austria, says:

"There is scarcely a single remedy by means of which hyperic conditions, from simple irritability of every degree to the most violent neuralgia, can be removed with so much certainty as by electricity."

CINCINNATI, Nov. 15, 1880.

Mr. J. W. WEAKLEY, City:

"Dear Sir,—I have carefully examined and tested the Electric Brush sold by you, and find that it well justifies the claims for it as a safe and reliable means of applying the Electric current. The mode of application with your Brush is of greater value than the ordinary battery treatment in the great majority of nervous and chronic ailments. Yours respectfully C. E. JONES, of C. E. Jones & Bro.

Messrs. C. E. Jones & Bro. are the most extensive and skilled electricians in the country. We beg to call especial attention to the fact that they do not say ours are good hair brushes, but that they are just what we claim—Electro-Magnetic Brushes, generating a current of electricity.
