America is the only nation in the world that is rapidly and systematically paying what it owes. None of the European countries have done anything in the last ten years towards decreasing their national indebtedness except England and the Netherlands, and their efforts have been insignificant compared to ours, while all the other powers have been loading themselves with debt and piling increased burdens upon the taxpayers and producing classes. In this we can see the reason of the increased immigration to our shores which during the past year has been unprecedented, for although the financial achievements of our government have become such common occurrences that they no longer excite surprise at home, they have awoken interests abroad. This is seen in every incoming steamer. The reduction in the public debt for May, according to the statement which has just been issued from the Treasury department, is \$11,150,721 and if this month's record be as good, the total reductions for the fiscal year will be the enormous sum of \$100,000,000 in round numbers. If any of the great financiers of foreign potentates could report such a surplus as our Secretary of the Treasury finds at his disposal on the last day of every month, it would turn the heads of the ablest financiers and upset all the fine-spun theories of the economists in the old world.

A suit in equity has been begun by Peter Herdic against ex-Judge Williams, D. Kelly, the Herdie Personal Transportation Company of Philadelphia, and others, to restrain proceedings upon the execution and levy upon the property of the company. The bill sets forth the facts of the organization of the company and the plaintiff's interest therein. He avers that during his absence an agreement for an amicable action and confession of judgment between Kelly and the Transportation Company was signed, the judgment confessed being \$45,475. The same day a judgment was entered, execution issued and a levy made upon the horses, coaches and other chattels of the company. The confession of the judgment purports to be for the amount found due Kelly for money advanced by him and the company and for money paid for the company's accounts. This action was taken without the knowledge of the plaintiff. Kelly informed plaintiff that the company owed him \$16,000, and all over that sum plaintiff claims to be fictitious and made up on a pretended debt. The plaintiff avers that the judgment was entered by fraud and collusion between Kelly, the officers of the company and the former President. An injunction restraining the proceedings for five days was granted.

Senator Edmunds and other counsel for the French Cable Company, appeared in the United States Circuit Court in New York Friday, to ask for an injunction on behalf of the French company restraining the American Union Telegraph Company from closing their offices. The argument will be heard in a few days.

Commissioner Raum has sent out a circular to the banks informing them that the collections made this year will be in accordance with his decision recently rendered in the case of the International Bank of Chicago. In pursuance of this plan, he will have an examination made of all the banks in the leading cities.

About two thousand pensioners of the late war were paid off in New York on Saturday.

**A FEW FACTS**

in regard to the  
**White Sewing Machine.**

It is an acknowledged fact that the White Sewing Machine now stands pre-eminent among first-class machines, for its simplicity and light-running qualities. It is a mechanical fact that the White Sewing Machine is made from the best material and of excellent workmanship, and all its wearing parts are adjustable, so that lost motion can be "taken up" in an instant. It is an undisputed fact that the durability of the White Sewing Machine is sustained by a written warranty for five years. It is a progressive fact that the White embodies the most practical and useful improvements of other sewing machines, together with advantages peculiarly its own. It is a money-making fact that the White is the easiest-selling selling machine in the market, and therefore all wide-awake dealers make it their specialty. It is a gratifying fact that the White gives universal satisfaction, and that it is steadily and rapidly increasing in public favor.

**CAUTION.**

Do not be imposed upon by agents and parties who are interested in the purchase and sale of other machines. It has become a common trick for unscrupulous competitors to get a White machine and put it in bad order so that they might prejudice purchasers against it and in favor of their own machines. To guard against such contemptible trickery, we advise all intending purchasers to correspond with us direct, and we will take pleasure in giving them the address of a regular authorized dealer for the "White" in their county, or we will offer to sell them a machine direct at special prices, and guarantee satisfaction in every respect.
