If one travels much in the country in the neighborhood of Towanda, he cannot help but observe that TOM GORMAN's man made a mistake in remaining in Elmira. He should have gone to Towanda. CHAFFEE of Rome and save thereby from eight to ten dollars!"—*Elmira Free Press.*

Mr. SIMPSON, agent for Becker's Washing Machine, is in town, and will be happy to explain the working of the new invention to any who desire to witness the operation of washing clothing by a process which combines comparative ease with thoroughness. PATTON's residence,) on Second street. The machine can be seen in operation this morning, or he will cheerfully experiment with any articles that may be brought to him. We have seen it work and can bear witness to its excellence. Mr. SIMPSON desires to secure a live man for agent in this place.

He will give a practical exhibition of what the machine can do to-morrow morning between the hours of 8 and 10 and invites the ladies to call and witness it.
