"Is there any pure ice cream? Well," a New York confectioner said, "I claim to make ice cream of pure material, but I cannot afford to sell it at the price laid down by the large manufacturers. They charge a dollar a gallon. I charge \$1.50, and, although I give my customers a pure article for their money, I don't suppose that I make nearly as much profit out of a gallon as the large firms make who sell it fifty cents cheaper."

"Why?"

"The reason is plain enough. If you will read this postal card it will give you the key to the whole mystery."

New York, May 14, 1881.

DEAR SIR: We herewith send sample; please give it a fair trial. Price 50 cents per pound. Respectfully yours,

"This sample packet contained two ounces of what was called gelatine, and is said to make one and a half quarts of crystalline jelly. In reality," the confectioner continued, "it is nothing more nor less than a fair quantity of glue, which can be bought at any drug store. The cost is estimated at from 25 to 30 cents a pound. It is not even gelatine, for gelatine is usually sold in sheets. These two ounces are sufficient to make two gallons of ice cream. It is first melted in luke warm milk and then poured into the freezer to give the cream body. Nearly all the large manufacturers use it, and in proportion to the amount of glue they put in, the less cream they require. It is quite easy to tell when ice cream is adulterated. It has a puffy appearance somewhat like Charlotte Russe and if you plunge a spoon into it you will almost feel the air rush out. After eating it a peculiar sensation is felt in the throat. This arises from two causes: First from the gelatine, so called; and secondly, from the adulterated flavoring that is used. For instance, the Lemon flavor is obtained from oil of lemons; the strawberry flavor from concentrated strawberry, which in turn is made from ether; the vanilla extract from alcohol, as it does not pay to make it from the beans which cost \$10 per pound. That is how some manufacturers get their flavoring. Since this refined glue has been introduced, corn starch is used less extensively. It is not uncommon for big dealers to put bone dust in their sugar, so that you see there is another item of adulteration."

"What does a quart of pure ice cream cost?"

"A quart of pure cream costs 20 cents. I can buy cream for 15 cents but it ain't pure. Four fresh eggs cost eight cents, a half pound white standard sugar five cents, flavoring three cents. Total, 30 cents. This will give a little over a quart and I generally put the actual cost of a quart at 30 cents, or \$1.20 per gallon, leaving a margin of 30 cents profit. The fact is, no wholesale manufacturer can produce pure ice cream at \$1 a gallon, and therefore they have to put glue into it in order to make a big profit on their sales. No honest confectioner will object to let his customers know what he puts into his ice cream, and when he does you can always make up your mind that there is something wrong."

Mrs. Mary E. Nash, in refusing the nomination of the Greenback party for State Superintendent of Schools in Iowa, makes some very sensible and practical remarks. She says: "I am a wife and mother, and have a home to take care of which occupies my entire time, and forbids all thought of neglecting it for political honor, especially when the chance of securing honor is as questionable as it is in Iowa outside the Republican party. I

have never appeared in public, and never sought notoriety in any direction, believing that if I make my home what it should be my mission as a true woman will be filled. This being so, while I do not question the kind intentions of the gentlemen, they certainly had no right to take my name from my home and hold it up for the State to read, and put me in the role of an office-seeker, and which by no means belongs to me, and which under no circumstances would consent to accept."

"What everybody wants is the best organ for the least amount of money: Therefore everybody wants the Burdett; and when you've said that, you've told the whole story."

So say the brightest and busiest organ dealers throughout the land, who are furnishing this matchless instrument to a musical public, which is rapidly learning to distinguish its marvellously pure and beautiful voice from that which is not music. For sale by J. A. Manville, No. 3 Bridge St., Towanda.

The finest building lot in Towanda borough corner of Poplar and Second streets, between the residence of Hon. E. O. Goodrich and E. Walker, will be sold cheap. Apply to O. D. Kinney

FARM FOR SALE.—I offer for sale on reasonable terms a valuable farm, located in the valley of the Towanda creek, about 2 1-2 miles from Towanda, containing 75 acres, under a good state of cultivation, well watered, a young orchard of choice trees, good framed dwelling house, and fine large barn—with underground stabling. I will sell this farm on long time, or exchange it in part for property in Towanda borough.
