Republican County Convention.

Pursuant to a resolution passed by the Republican County Committee in session Friday June 24, 1881, the Convention of the Republican party for 1881 will convene at the COURT HOUSE in TOWANDA BOROUGH on TUESDAY, SEPTEMBER 6, at ONE O'CLOCK, P. M., to make the following nominations for county officers, to wit:

- One person for Sheriff.
- One person for Prothonotary, &c.
- One person for Register and Recorder, &c.
- One person for Treasurer.
- Two persons for County Commissioners.
- Two persons for County Auditors.

And for the transaction of any other business that may come before the convention.

The Committees of Vigilance of the several election districts will call primary meetings at the usual places of holding Delegate elections for their respective districts, for SATURDAY, SEPTEMBER 3D., 1881, to elect by BALLOT two delegates to represent each district in said county convention.

The delegate elections in the BOROUGHs will be organized at SIX O'CLOCK, P. M., and be kept open continuously, to close at 8 o'clock, p. m. In the districts of Barclay, North Towanda and Athens District No. 3, from FIVE O'CLOCK, P. M., continuously until 7 o'clock p. m., at which time they shall close. And in all other townships from THREE o'clock, p. m., continuously until FIVE o'clock, p. m., at which time they shall close. The votes shall then be counted and the result certified by the proper officers of said meetings to the Chairman of said Convention and a copy delivered at once to the delegates elect.

The Committees of Vigilance are particularly requested to give at least three weeks' written or printed notice of the said primary elections, and to carefully observe the above rules in conducting the said primary meetings.

Only Republicans can participate in said meetings.

E. J. ANGLE, Chairman
J. M. ELY, Republican County Committee, Secretary.

Speaking of the President the New York Post's Washington special under date of Monday says: The non-recurrence of chills is a gratifying fact, as their continuance would be a difficult complication. The absence of any indications of new abscesses is another welcome feature. Yesterday's operation, though very successful, was another fresh call on his already exhausted nature. The fever attending the retention of the pus weakened the President considerably, so he has now very little strength to endure the future. It is evident that the results of the surgeons' operation are satisfactory. The discharge now comes both from the old and new opening, but is most profuse from the latter.

Dr. Agnew is very anxious to locate the bullet, and thinks it important that it should be removed from the body if it can be possibly done with safety. He experimented yesterday upon an old soldier from the Soldiers' Home, who had a bullet in his body, but was not satisfied with the electrical apparatus. The electricians thought they had finally located the bullet in the soldier's body, but Dr Agnew did not agree with them. Some physicians are beginning to think that the bullet after all may not have touched the liver, and that it is lodged in the lower part of the back, or in the spine, as are the indications. Dr. Agnew was of that opinion. He has never yet expressed his belief that the bullet did pass through the liver.

The Telegram's Washington special says; Dr. Bliss said to-night that pyæmia had not shown itself and in his opinion it never would. The patient's system was a healthy one to begin with and he has never become dangerously reduced. He has taken and assimilated nourishment enough to prevent that. His surroundings as to ventilation and temperature are the best possible and his treatment has been the reverse of irritating. Not until death and dissection should allow us to explore the whole

course of the ball and show us all the damage it had wrought, would we be able positively to know the exact condition of the wound. We can say however that we certainly know more about it than any newspaper editor. If we had cut and probed as writers say we ought to have done, there would have been columns printed calling us butchers, and asserting that the President was killed by the probe instead of the bullet. "The President is on the right track again is he not?" was asked. "Yes, I am sure he is," replied the Doctor. "Of course he is a very sick man, and is not out of danger, but I believe we shall have him back in a very few days to where he was before the latest trouble began."

The President remarked at noon that he was surprised to be so well. The surgeons have decided to make no midday examination.

By direction of the Governor, the Division of the National Guard of Pennsylvania will encamp by brigades as follows:

First Brigade, from July 30 to August 6, at Pottstown.

Second Brigade, from August 10 to August 16, at Saltsburg.

Third Brigade, from August 23 to August 29, at Wilkesbarre.

The Artillery will encamp at such places as shall be hereafter designated.

Lieut. Col. E. W. Matthews, ordnance officer, is announced as acting Chief of the Artillery of the Division.

The Mayor of Philadelphia is taking vigorous measures to enforce the law against carrying concealed weapons, and has issued a proclamation calling attention to the matter. This is a good move and a worthy example to be followed elsewhere than in Philadelphia. The practice of going armed is becoming altogether too general, and boys hardly in their teens, to say nothing of those older, but not yet out of them, are no exception to the rule.

Professor Henry M. Parkhurst, of Brooklyn, declares with great positiveness that the reported new comet is not the comet of 1812. The new comet, he believes is approaching the sun at such a rate as to make its perihelion passage in August. Its perihelion distance will be less than that of Gould's comet, now disappearing, and the professor expects a display as brilliant as that of Donati's in 1858.

The syndicate of New York bankers who have agreed to relieve the necessities of some of the clerks in Washington by advancing a portion of their salaries and retaining the balance as security, would have shown more patriotism if they had made the rate of interest six instead of ten per cent. But there isn't much patriotism in syndicates of any sort. It is "shent per shent" with most of them, the world over.

An open war has been declared between the Jersey City authorities and the various railroad companies centering there. This resulted in the arrest of thirty men in the service of the Pennsylvania Railroad on Saturday. The cause of the trouble was the tearing up of the pavement.

Col. W. Milner Roberts, who occupied many important positions as civil engineer in this country and has lately been Chief Engineer of Public Works of Brazil, died of typhus fever at Rio Janeiro.

The valuation of the real property of Iowa shows an increase since 1879 of over \$10,000,000, and the increase of personal property is correspondingly large.

The bad weather has killed nearly all the peach orchards at St. Joseph, Mich. This has been the principal source of supply for Chicago and Milwaukee.

Collector Robertson will assume the duties of his office Monday next.

BUSINESS LOCALS.

Go to G. S. ACKLEY & Co's for cheap Cow Hay. 96.

The finest building lot in Towanda borough corner of Poplar and Second streets, between the residence of Hon. E. O. Goodrich and E. Walker, will be sold cheap. Apply to O. D. Kinney
