Frost's Sons very temptingly display those handsome verandah chairs. The bright color in which they are decorated makes them very attractive and ornamental.

The directors have awarded S. H. BEAN the contract for repainting the interior wood work of the graded school building. He proposes to do a first-class job, and has gone to WilkesBarre to engage workmen.

These are jolly times for the children who are wise enough to attend Sunday School.—Two pic nics this week. The scholars of the respective schools will be treated to excursions and a dinner in the woods.

A former resident of this place now engaged in business in the west writes to a relative here that his daughter had made herself a hammock, but had no trees under which to suspend it, and adds, "if you ever conclude to come west and grow up with the country, don't locate in a treeless prairie town."

The Third Brigade, National Guards of Pennsylvania, to which the Ninth Regiment is attached, will encamp at WilkesBarre from Aug 23d to 29th. The inspection by the Adjutant General will take place during the Encampment. The Ninth Regiment will be inspected on Thursday, Aug. 25, at 3 p. m. The Brigade will be reviewed by the Governor on Saturday, Aug. 27th at 4 p. m. The inspection will be vigorous. The law now requires the attendance of all officers and men unless excused by the Brigade Commander for such reasons only as would prevail in actual service. Since the men are now paid for five days service, the attendance of the Guard will no doubt be very large. Co. A, of this place belongs to the Ninth Regiment.

Monday's Elmira Free Press says: "A young man by the name of CAMPBELL, of Litchfield, Pa., hired a horse and buggy from FITZGERALD & PARKS, liverymen of Athens, yesterday, and took his girl out riding. The horse it would seem, was allowed to go his own gait, as the young man's arms and hands were otherwise engaged than in managing the reins. The horse naturally struck a walk and without any guidance to control him, ran the buggy into the gutter. Frightened at this, he ran away and got beyond all control. The buggy was tipped over and the horse's legs so badly cut and otherwise injured that he is about useless. The buggy was completely demolished, but the chap and his girl were unhurt. It is said that even after the accident he wanted to drive on further.

A SUGGESTION TO BUSY HOUSE WIVES, PIC NICKERS AND OTHERS.—The labor of preparing a dinner these hot days is often dreaded, and pic nickers, excursionists, &c., do not always know where to provide themselves with suitable provisions. We have learned something in this respect which may be of advantage to our readers, and we give the information free, although it looks as though the firm who are to profit by the sales ought to pay for the advertisement. STEVENS & LONG have a large assortment of canned and potted meats, such as boneless turkey, pressed chicken, ham, etc., put up in small packages, and sold very cheap. One of the smallest cans of boneless turkey makes an ample meal for eight or ten and costs only 6) cts. A can of prepared ham will supply meat for several dozen sandwiches. The meats are all of the best quality, prepared with great skill and would do credit to the best cooks.

OPERETTA AT TROY.—The rendering of the beautiful operetta, "Red Riding Hood's Rescue," by Prof. Williams' music class was a highly creditable affair. The costumes were tasty, the parts well supported and the music excellent. The general excellence of the class, for the short time it has been under drill, fully supports Prof. Williams' reputation as an able musician. We understand that he intends organizing a class at Towanda, and we hope he will receive the cordial support which merit as a gentleman and skilled musician demand. TROJANUS.

THE ILLUSTRATED SCIENTIFIC NEWS.—The July issue of the Illustrated Scientific News teems with interesting illustrated articles, a few of which are as follows: The Doble Telephone; Glass Grinding Machine; Ancient Pottery from Cyprus; Mechanical Larynx; Pleasure Car of the Days of Louis XIV; Amateur Mechanics; The remarkable Palmyra Palm; Curious Fishes; Illustrations, explaining the bursting of Fly Wheels; A Velocipede Carriage. In addition to the numerous engravings, there is a large number of interesting, useful and practical papers, relating to various departments of popular science. This is one of the most elegantly printed and valuable periodicals.
