Some of the dairymen are making 265 lbs. of butter per cow, and think they can go 300 in another year. The Fultz wheat has the preference generally.

The question of using lime as a fertilizer was discussed by A. B. Cass and others who report good results from its use.

Many of our farmers are troubled with the white grubs in their meadows and pastures, and their potato fields, which was discussed at some length by Brothers A. B. Cass, John Vought, James Brown.

Some of the members have been sowing the white Russian oats on quite poor land with good results, oats grow well, strong strawed and about ten days later than the common oats, and good yielders.

It has been reported that Brother R. W. Darlinz of Wappesening Grange is sick and in distress.

Mr. GEO. H. WOOD: My Dear Sir—The picture arrived this morning, and was paid for and taken in less than two seconds after it was opened. It is without doubt the finest picture of any kind in town; in fact, the finest I ever saw at any price.

I cannot compliment you sufficiently for your talent, and assure you that you will never regret the labor bestowed on this piece of work; it will be productive of other similar work from this section and to no small amount. I have compared it with former one of same subject made by you at \$15 I think, and this is very much finer.
