ARTHUR T. WELLES left for Chicago, on Tuesday, to take a position in the office of the Western Electric Manufacturing Company.

IRA MORLEY met with quite a painful, but we hope not serious accident at the fire last evening. He was struck by the engine and knocked down, but the physician decided no bones were broken.

HORACE POMEROY, of Troy, broke his leg in jumping from a buggy in Elmira yesterday. The limb was promptly set and the patient made as comfortable as possible at the residence of his son-in-law, banker SMITH.

ULIE and CLARA TRACY entertained a large party of their young friends last evening.—Tables were spread under the trees in the yard, and the forty or fifty little girls arrayed in white, with happy faces, presented an interesting picture.

D. V. STEDGE, who now holds a chair in one of the largest barber shops in Elmira, was visiting his family in this place on Tuesday. Like a sensible man that he is, he has ordered the REVIEW sent to him that he may keep posted in home matters.

A small party of Towandians will picnic at Mountain Lake to-day.

Make your arrangements to go to Watkins Glen with the Germania Band on the 26th.

Rev. Mr. CONDEE writes us that he intends to run another Excursion to New York early next month. Train to start from Sayre. Particulars will be furnished in a few days.

We extend our hearty congratulations to Mr. and Mrs. J. R. BEEBE, of Montrose, on the safe arrival of their first-born. It's a boy and we suppose "weighs just nine pounds."

The excursion to New York, and probably Boston, under direction of the Tunkhannock Presbyterian Church, will be run on the 6th of September. Fare will be the same as last year.

FIRE.—The alarm of fire was given about 8 o'clock last evening. It was soon ascertained that W. H. DECKER'S barn, on an alley between Chestnut and Houston streets, was burning. The firemen responded with their usual promptness, but before they could reach the scene the flames had spread with such rapidity that it was found impossible to save the building. Two other barns, one on the M. C. MERCUR place, and C. T. MCKINNEY'S, were also burned. Through the efforts of the Naads, who were first on the ground, Mr. MCKINNEY'S new house was saved, but the south side was badly scorched. Mr. MCK had no insurance. His barn contained one ton of hay, 25 bushels of oats, some corn, etc. His loss must be \$250. We did not learn the

amount of insurance, if any, on the other barns. The origin of the fire is not known.

The Water Works have not yet tendered the hydrants in that section to the borough, but as soon as it was ascertained where the fire was water was let into the line and kindly offered to the firemen. A powerful stream was thrown with force enough to have carried it over the highest building. The experiment was highly satisfactory to the Company and all who witnessed it. It demonstrated the fact that ample protection from fire will be afforded that neighborhood when the Water Works are completed.

The President's Condition.

The latest news from Washington affords a faint ray of hope that the President is rallying again. Let us hope and pray that He with whom are the issues of life and death, may mercifully raise him up.

OFFICIAL BULLETINS.

AUGUST 17, 8:30 A. M.

The President passed a tranquil night sleeping most of the time. No vomiting since last bulletin. His general condition appears more hopeful than at this time yesterday. His pulse is 110, temperature 99.3, respiration 18.

12:30 P. M.

The President's condition has not materially changed since last bulletin. He has been tranquil and slept some. Has not vomited. The nutritive enemata still retained. Pulse, 112; temperature, 98.7; respiration, 18.

AUGUST 17, 6:30 P. M.

The President's condition is even better than it was this morning. There has been no vomiting during the day and the enemata continues to be retained. Moreover a teaspoonful of beef extract has been twice administered by mouth and not rejected, and small quantities of water were swallowed from time to time to excite nausea. The wound continues to do well. At present his pulse is 112; temperature, 98.8; respiration, 18.

Yesterday morning Gitteau procured a knife and tried to kill his keeper. The jailer drew his revolver and overpowered his would be assassin. It is supposed that he had heard that the President was in a critical condition and made the assault to make people believe he was insane.
