Mrs. ROSEN MULLER, of Sayre, with her baby, is spending a week with her parents in this place, while the Rector is rusticiating at Thousand Islands.

Miss MAY WATKINS is filling Miss MASON'S place as teacher in the Institute, for a few weeks, until the latter returns from her visit in Wyoming territory.

Dr. EAKINS is negotiating for the purchase of some property in this place with a view to making our enterprising town his future home. We hope he may decide to do so.

Mr. M. A. SHAW, wife and daughter EDITH leave for New York to-day and expect to take passage in the Catalonia, a new steamer, for Europe on Saturday. We wish them bon voyage and a safe return.

JESSE, the eight years old son of Mr. F. J. VANDERPOOL of this place, caught a black bass last evening weighing two pounds, three and a-half ounces. The little fellow carried his big fish home with a good deal of pardonable pride, and received many compliments on his success as a fisherman.

The Waverly Free Press in referring to the gentleman who is to assist the Germania Band in their Park Concert to-morrow evening says: "The xylophone selections of C. F. LANTRY, rendered at the Park concert on Friday evening of last week, were very charming, to say the least, and fascinated all who heard them, and elicited loud applause from the surrounding multitude. We hope to hear him again very soon."

The "Iron Hall" meets this evening.

Capt. A. JUDSON, a prominent Odd Fellow and citizen of Wells township is dead.

Survivors of the 11th P. V. are talking of a re-union here shortly. Should the meeting occur it will prove a grand affair.

The notice of a "boy wanted," at Bridge St. Furniture Store in the REVIEW yesterday morning brought a dozen applicants. Some of them from a distance out of town—an evi-

dence that the REVIEW is read by all classes, and is therefore an excellent advertising medium.

JOHN M. GREENLEAF, an old and prominent citizen of Owego, died yesterday morning. Funeral to-morrow. T. P. PATCH, Esq., and E. T. FOX, President of Citizens National Bank, who were formerly residents of Owego and friends of the deceased will attend the funeral.

The attendance at the Institute at the beginning of the present term affords gratifying evidence that Prof. QUINLAN'S efforts to make the school meet the wants of the community by employing a full and competent corps of teachers, are appreciated by the public. The number of students entered on Monday was far in excess of Mr. Q'S. expectations, and we believe exceeds any previous term of his administration.

MONROE'S WELCOME VISITORS.—J. M. Patton, Esq., and wife from Macon City, Missouri, with Miss Belle, sister of Mr. Patton are visiting! E. B. Young Esq., and their grandmother, Mrs. Emily Young, at the residence of the former. A genial party, indeed. Mr. Patton takes in the Thousand Islands, and Miss Patton is enroute to friends in Western Virginia. Mrs. Patton is a daughter of the late Hiram Fowler of this place. Their many friends of early days are right glad to welcome her smiling countenance once again, with her friends from just this side of sun down. N. D. P.

#### The President's Condition.

At 2 o'clock this morning the President was sleeping calmly. His symptoms have not materially changed since yesterday.

#### OFFICIAL BULLETINS.

8:30 A. M.

The President slept the greater part of the night but awoke at frequent intervals and has taken since last evening a greater amount of liquid food by the mouth than in the corresponding hours of any day during the past week. The use of enemata continued at longer intervals. The parotid swelling is unchanged. Pulse 100; temperature, 100.4; respiration, 18.

12:30 P. M.

The President continues to take by mouth and retain an increased amount of liquid food. At the morning dressing the wound looked well and the pus healthy. The mucous accumulation in the back of the mouth is less rigid and now gives but little trouble. Pulse, 104; temperature, 98.9; respiration, 18.

6:30, P. M.

The President has continued to take liquid food by the mouth at regular intervals during the day, and has had no recurrence of gastric disorders. The parotid swelling remains unchanged. In other respects the symptoms show some improvement over his condition yesterday afternoon. Pulse, 104; temperature, 99.2; respiration, 19.

Blaine sent the following cablegram to Lowell at 11 p. m.: The President's condition is more encouraging than it was at this time last night. During the last twenty-four hours he has swallowed ten ounces of beef extract, and eighteen ounces of milk, retaining and digesting both. He has twice asked for food, which he has not done before for several days. His pulse and temperature are both somewhat lower. The swelling of the parotid gland has not specially changed. Its long continuance at the present stage incases the fear of suppuration. The President has rested quietly all the evening.

We are constantly receiving orders for "Lum Smith's Imitation Stained Glass," and are ready to give our patrons the full benefit of an inexpensive

and handsome decoration by placing it on any glass whether door or window, large size or small glass, green or white, round or square, in fact any position, shape or kind of frame or glass that needs shading from the rays of the sun, or from the gaze of inquisitive eyes. Thankful for the very liberal patronage bestowed since we have received the agency of this Imitation, we shall by a strict attention to business, hoping to merit a continuance of the same. To those who have heard of the "Imitation Glass," and have not seen it, we extend a cordial invitation to examine into its real merits, and ask the prices for which it can be obtained, we are prepared to contract with churches, halls, or other public buildings, and warrant all of our work to surpass in beauty the genuine stained glass and our prices are less than one-fourth the cost of the same. Those in need of anything of this kind or who are lovers of art, whether they wish to purchase or not, are respectfully invited to examine the same at CHAS. F. CROSS' Book Store.
