HIGHWAY ROBBERY.—Thursday a man named BRENNAN, whose home is in Overton, passed through Waverly on his way home from Bath, N. Y., where he had been working on the new railroad. While in Waverly he met and drank with two young men, and proceeded towards this place. About 7 o'clock when he had reached a point just the other side of Hemlock Run, the two men passed him in a buggy. After driving a short distance they got out, hitched their horse in the woods, and providing themselves with two stout cudgles, they laid in wait till BRIN-

AN came up when they approached him from behind and beat him several blows over the head, rendering him unconscious, and then robbed him of \$75 in money. The unfortunate man was soon discovered by ELLIAH GRANGER, and taken into the house where he was kept over night and his team taken care of.

Yesterday morning BRENNAN came to this place and Doctor NEWTON dressed his wounds. The robbers drove this way and were seen by a number of parties, but no trace of them has been discovered after crossing the Sugar Creek Bridge. They drove a small black horse attached to a covered buggy; one of them wore a straw hat and the other had a black mustache.

JOHN DECKER is now canvassing this place for an article which ought to find a ready sale in every household, as it will commend itself on examination. It is an Ironing Board so constructed that while it is durable it is readily folded up and put out of the way when not in use. We ask for Mr. DECKER a cordial reception; we believe the introduction of the article he is offering will prove a great benefit to all who have ironing to do.

This evening the pulse is 104; temperature, 99.2; respiration, 18.

We are constantly receiving orders for "Lum Smith's Imitation Stained Glass," and are ready to give our patrons the full benefit of an inexpensive and handsome decoration by placing it on any glass, whether door or window, large size or small glass, green or white, round or square, in fact any position, shape or kind of frame or glass that needs shading from the rays of the sun, or from the gaze of inquisitive eyes. Thankful for the very liberal patronage bestowed since we have received the agency of this Imitation, we shall by a strict attention to business, hoping to merit a continuance of the same. To those who have heard of the "Imitation Glass," and have not seen it, we extend a cordial invitation to examine into its real merits, and ask the prices for which it can be obtained, we are prepared to contract with churches, halls, or other public buildings, and warrant all of our work to surpass in beauty the genuine stained glass and our prices are less than one-fourth the cost of the same.
