This Brush is made of Metal Bristles, which are far superior to Hair Bristles. It is a law of Electro-Physics that

electricity can not be communicated through hair bristles.

THE ELECTRO - MAGNETIC BRUSH

A SCIENTIFIC CURIOSITY.

Endorsed by prominent scientists of Europe and America, contains a complete GALVANIC BATTERY in the back, which produces a current of great intensity, which is communicated to the system and blood through the METAL BRISTLES.

The popular idea that Metal Bristles are harsh, or scrape and scratch the skin, or are in any manner unpleasant to the fiesh is erroneous. They are soft and flexible, being set in a bed of soft rubber, and while feeling like velvet to the skin, yet produce a gentle, healthy friction, beneficial to the surface of the body, and at the same time opening the porces of the skin, permitting the unobstructed passage of the current to the blood, thence permeating the entire system.

MR. J. W. WEARLEY, City:

Dear Sir,—I have carefully examined and tested the Electric Brush sold by you, and find that it well justifies the claims for it as a sale and reliable means of applying the Electric current. The mode of application with your Brush is of greater value than the ordinary battery treatment in the great majority of nervous and chronic ailments.

Yours respectfully

C. E. JONES, of C. E. Jones & Bro.

Messrs. C. E. Jones & Bro. are the most extensive and skilled electricians in the country.

We beg to call especial attention to the fact that they do not say ours are good hair brushes, but that they are just what we claim—Electro-Magnetic Brushes, generating a current of electricity.

PALPITATION OF THE HEART CURED.—"GRAYS: I hereby certify that I have used the Electro-Magnetic Brush in my family, and it has relieved me of Palpitation of the Heart and cured Soreness of Hip in my son, which had troubled him for six weeks. Yours, REBECCA SLACK, Foster, Ky."
