The finest confections in the market at C. S. FITCH'S.

Mrs. H. W. JONES of Towanda, Pa., and Miss CARRIE HANKINS, of Elmira, have been spending a few days at the residence of Mr. GEORGE SMITH, "Maplewood," Tioga. —Owego Gazette.

The ladies of the Baptist Church will hold an oyster supper in the McCabe store, Mercur block, Wednesday evening Nov. 16, commencing at 5 o'clock and continuing during the evening. A cordial invitation is extended to all to call and get supper.

By order of Committee.

We call special attention to the following cure for one of the most fatal diseases to which this climate is subject—diphtheria. Don't fail to preserve it.

A correspondent of a Victoria paper says, "Should any of your family be attacked with diphtheria, do not be alarmed, as it is usually speedily cured without a doctor.

When it was raging in England a few years ago, I accompanied Dr. FIELD on his round, to witness the so-called wonderful cures he performed, while the patients of others dropped off on all sides. The remedy to be so rapid must be simple. All he took with him was powdered sulphur and a quill, and with these he cured every patient, without exception. He put a teaspoonful of flour of brimstone into a wineglass of water, and mixed it with his finger instead of a spoon, as the sulphur does not readily amalgamate with water. When the sulphur was well mixed he gave it as a gargle, and in ten minutes the patient was out of danger. Brimstone kills every fungus in a man, beast and plant, in a very few minutes. Instead of spitting out the gargle he recommends the swallowing of it. In extreme cases in which he had been called just in the nick of time, when the fungus was too nearly closing to allow the gargling, he blew the sulphur through a quill into the throat, and after the fungus had shrunk to allow of it, then the gargling.

If the patient cannot gargle, take a live coal, put it on a shovel and sprinkle a spoonful or two of the flour of brimstone at a time on it; let the sufferer inhale it, holding his head over it, and the fungus will die. If plentifully used, the whole room may be filled almost to suffocation, and the patient may be able to walk around in it, inhaling the fumes, with the doors and windows closed. The mode of fumigating a room with sulphur has often cured most violent attacks of colds in the head, chest, etc., and is also recommended in cases of consumption and asthma."

## Council Proceedings.

A special meeting of the Town Council was held Friday evening Nov. 11, 1881, at which the following members were present. Burgess Alger in the chair; Frost, Gordon, Holcomb, Keeler, Parsells and Spalding, Councilman Jordan submitted the following:

Whereas,—There are cases of small pox prevailing at Pittston, and other places along the Lehigh Valley Railroad, rendering the spread of the disease possible to other places communicating by rail with such places—Therefore,

Resolved, That the citizens of Towanda be publicly warned of the impending danger, and as a safeguard against the spread of the deadly pestilence here, we recommend that all residents of the borough call at once upon their Physician and be vaccinated.

The resolution was unanimously adopted, and on motion of Councilman Holcomb, the resolution adopted at a former meeting relating to vaccination was repealed.

On motion of Councilman Spalding the Sanitary Committee was directed to have two thousand copies of the foregoing resolutions printed and employ a suitable person to distribute and leave a copy at every house in the borough, and with every resident, in the vicinity of the Nail Works in Towanda township.

On motion the Council adjourned.

W. G. ALGER, J. H. KINGSBURY, Sec'y. Burgess.
