"The troupe taken as a whole is a good one and will no doubt meet with success."

The Middletown *Press* says:

"There are not many companies that venture a second night in towns the size of Middletown unless they expect their first performance to do them credit. This company runs no risk in this respect."

Astronomers now claim that the Star of Bethlehem is due, and are on the look out for it. Its first appearance is said to have been about the time of the birth of Christ; hence its name. It is said that this wonderful star was seen in 945, 1464, and again in 1572, upon which occasion it was visible at noonday, and then faded away resuming various hues until it disappeared. It is now expected up-

on the theory that it appears at intervals of about three hundred years.

Thursday will be Thanksgiving and the ladies of the Benevolent Association hope to receive contributions sufficient to enable them to throw a little sunshine into the homes of the poor and unfortunate; those who from sickness or other unavoidable circumstances are unable to help themselves. "The poor ye have always with you and may do them good whensoever ye will." Let the collection to be taken at the union service in the Presbyterian church Thursday morning be a generous one.

Prof. DANIELLE, organized his classes of Thursday, with flattering encouragement and will give the first lesson of the course on Wednesday next, (*Thursday being Thanksgiving*) and after next week the lesson will be on Thursday until a change can be made with Elmira for Friday. Parents of pupils admitted free to the assemblies.

The Mutual Life Insurance Company, of New York, one of the oldest and best companies extant, gives insurance upon Life and Endowment plans, at less cost than any other. Upon its Semi-Endowment plan, it furnishes insurance in event of death within twenty years, and pays one-half the policy in cash at end of the time if living. At age 40 the rate is \$31 23 per \$1000. In twenty years, the premiums amount to \$624 60, less the \$500 then paid, leaves the net cost (without taking dividends and interest into account,) of \$124. 60 in twenty years, or only \$6 23 per year, while co-operative companies usually admit probable assessments of \$10 per year to carry every \$1000 payable at death. On these policies the annual dividends will probably return even this \$6 23 of annual net cost. They furnish protection during the working years, and provide for later life. The agent of the Company, Mr. J. E. LAME, is at the Ward House.

Mrs. KEEGAN, a poor, aged and afflicted Irish lady, who has resided in Arcade block for some time past, has, through the kind assistance of some of our benevolent ladies, been provided with means to go to Colorado, where she has friends who will care for her. Mrs. M. C. MERCUR interested herself in the matter with great success, as the following note will more fully explain:

TOWANDA, Nov. 21, 1881.

EDS. REVIEW—I am requested by Mrs. Keegan to express through the REVIEW her heartfelt thanks to all who have so kindly contributed to the fund to pay her expenses to Colorado. The thoughtfulness of Mr. W. B. Dodge and the generosity of the County Commissioners deserve special recognition. The whole amount raised for the really worthy old lady, who has seen better days, is \$50, by the aid of which she will be enabled to reach the "haven where she would be," and thus be provided with a comfortable home. The names of all the contributors have been handed to Mrs. Keegan and she prays they may all realize that it is "more blessed to give than receive." A. H. M.

FIVE CHILDREN AT ONE TIME!—A *Lady in New England* had five children sick with Chills at one time. Her pastor recommended Thermanine. She bought a family box and cured the whole lot. Children won't take quinine; its bitter taste turns their stomachs. Thermanine is put up in sugar-coated capsules, like small flat beans. Only costs 25 cents a box. It has never been known to fail, and is now prescribed by physicians instead of quinine.
