PROSPECTUS.—"Of making many books there is no end," and the multiplication of newspapers is the popular source of educating the people. We are aware that the idea is quite prevalent that Bradford County has too many papers, but with the large number not one is wholly devoted to the interest of the great producing class—the agriculturists—and at the urgent solicitation of some of the best practical farmers in the county, we have decided to commence about the first of the new year, a local agricultural weekly, especially adapted to the wants of the farmers of this section. The contributors to the paper will embrace the best practical farmers in the county, and we shall aim to make it of real value to every tiller of the soil, dairyman and stock raiser in the county, by giving the results of experiments by those in whom the classes interested have confidence, and whose success in business is an evidence of thorough practical knowledge.

The paper will contain a condensation of the general news and the fullest local notes. Fuller particulars hereafter.

Elmirans of both sexes frequently visit the bright city of Wilkes-Barre Pa., and it would be well for them to know the price of articles down there. The *Union Leader* relates that on Tuesday evening, Mayor BRODERICK fixed the price of kisses there. A very pleasant faced lady made complaint that a worthy citizen kissed her three times against her wishes. The worthy citizen denied the soft impeachment. The party of the other side, however, testified under oath that he had done what she charged, whereupon the mayor fined him \$4.50 in gross, thus fixing the price of stolen kisses at one dollar and a half apiece.—*Free Press*.

The latest new dances, adopted by the society of Professors of New York, and taught by all first class teachers, are: the "Ripple," "Five Step Waltz," the "New Post," and the "Lawn Tennis Quadrille"; all pretty dances, and popular among high toned people.

Captain Jacob Schmidt, of Tompkinsville, Staten Island, New York, suffered with severe rheumatism for many years. He used St. Jacobs Oil with splendid effect, and adopted it as a family medicine.

MICE THIS WINTER.—Mice are very prolific; a single pair will often multiply to fifty or more during a single season, as the earlier broods reproduce one or more generations. Usually a large proportion of each summer's growth is killed off in winter, if autumn rains saturate the soil. At this writing, the ground is still dry, deep down, in several States. If at any point the soil freezes solid before copious rains, extra caution should be taken to protect fruit trees and shrubs against mice. The methods we have often described, such as banking earth around the trees; tramping the snow hard about the trunks as it falls; putting tarred paper 4 to six inches above ground and a little below, etc.—*American Agriculturist* for December.

JAMES H. WEBB, Esq., of Bradford county, who for many years represented that county in the Legislature, was elected Register and Recorder of his county, at the recent election. He gained an enviable reputation throughout the State while serving in the House, for the ability, integrity and industry with which he discharged his duty as a Representative. He was Chairman of the Committee of Ways and Means, Speaker of the House, and filled other important positions with credit to himself and the Commonwealth. He was a strictly honest man, and did not, like many others, make money out of his position, for which the Republicans of his county have rewarded him by electing him to a paying office.—*Beaver Argus and Radical*.

The next Social under the auspices of the ladies of the Episcopal Church will be held at the residence of W. M. MALORY, on Houston street, Monday evening. Everybody is invited.
