Sixteen of those known as experts have pronounced Guiteau sane.

It is generally believed that the verdict in the case of Cadet Whittaker is unfavorable to that young man.

A great revival in mining interests is reported in Northern Mexico. Much American capital is flowing in, and the authorities are encouraging American emigration.

The Governor of Cuba has discovered a number of false certificates, by which 170 negroes, who ought to be free, are held in bondage. An investigation has been ordered.

Regan, the last Secretary of the Treasury under the Confederate Government, states that the contents of the Treasury at the evacuation of Richmond amounted to only about \$150,000. One hundred thousand dollars was paid to soldiers and the rest captured by the Federals.

A letter from Reading, Pa., states that arrangements have been made with several mutual associations to secure an insurance not exceeding \$100,000 on the life of Guiteau, and requesting his signature to an inclosed application to be procured. The application is for \$10,000 assistance in the Reading Mutual Aid Association, and the beneficiary is Arthur J. Boder.

So rapidly are the new railroads being built across the continent that in a short time there will not be less than five separate roads to the Pacific coast. Let us hope that they will not all be controlled by one company, or else we would be much better off than we are now. To the old road, the Union Pacific, will be added the Northern Pacific, the Central Pacific, the Atlantic and Pacific, and the Texas and Southern Pacific, the latter being already finished.

Dr. and Mrs. W. S. Webb are not expected to return from their wedding journey before the middle of January. In the private car which Mr. Vanderbilt placed at his son-in-law's disposal they will travel wherever inclination prompts them, and will not return until Mr. Vanderbilt moves into his new house. They will be guests of Mr. Vanderbilt for some time, while the bride's house is being refitted. The bride will give her first reception in the new house, and Mrs. Vanderbilt will also give three receptions on her account.

The fact that this Christmas fell on Sunday gives occasion to exercise oneself in some curious calculations. Some one who has a taste for such matters presents the following statements that are not generally known: The falling of Christmas on Sunday takes place four times in every 28 years, after the expiration of every 5, 6, 11 and 5 years respectively. Take, for instance, the year 1859 as a starting point. In that year Christmas came on Sunday. The succeeding twenty-eight years during which Christmas has and will come upon Sunday are 1864, '70, '81 and '87. Since we last celebrated a Christmas Sabbath before the present 11 years have elapsed. In six years we will have another, and there will not again be an eleven year skip until that between 1910 and 1921. Owing to 1900 not being an actual leap year, though divisible by the figure 4, from 1892 to 1910 Christmas (and, of course, New Year also) falls on Sunday regularly every six years. This calculation makes an interesting centre-table amusement.

A statement of the anthracite coal trade shows the production for the year to be about twenty-eight million and five hundred thousand tons. There may be a week's suspension in January, but after that, it is thought, that the demand will be such as to make work imperative. Thirty million tons is calculated as the production of 1882, and with this view preparations are being actively pursued in all the anthracite regions.

There are now three hundred and fifty prominent Irishmen in jail, but the tale of agrarian outrages in Ireland does not decrease, although there are now fifty thousand armed men in the country.

Game must be scarce in the vicinity of Towanda. A celebrated landlord and a vigilant police officer went out hunting one day last week. After traveling all day, without success, so some of the knowing friends of the parties say, they went into a farmer's pigeon-roost and knocked down a half dozen of the birds with a club and departed for home. Go to the Elwell House, or ask DIMMOCK, if you want to get further information on the subject. Here the brave hunters have a way of going to one of the meat markets and buying game to take home with them when they fail to bag any. They don't propose to run any chances with indignant farmers since the time the boys shot that peacock for a wild turkey.—Athens Gaz.

## DR. A. E. BURR'S

### HOMOEOPATHIC LUNG SYRUP.

This remedy is something new, both as to name and composition. This is one of the wonders of the world. This Syrup, I claim, is better and more effective than any other ever offered to the people of America or any other country, and what I say of this I can prove. This Syrup, like the Pills, is harmless and safe. It contains no opium or other narcotic poison, like the most Syrup, and is not disagreeable to take. Any child will take it. And it will cure any and all inflammations arising from Cold. It is superior to all others in every respect and especially for the following reasons:

- 1st. It will cure Croup every time.
- 2d. It will cure Inflammation of the Lungs.
- 3d. It will cure Quinsy.
- 4th It will cure Whooping Cough.
- 5th It will cure Bronchitis.
- 6th It will cure Hoarseness.
- 7th It will cure Sore Throat.
- 8th It will cure any Cold.
- 9th It will cure Congestion of the Lungs.
- 10th It will cure any Cough.
- 11th It will cure Scarlet Fever.
- 12th. It is the best "remedy" that any one can take for Consumption, and if taken in the first stage I will guarantee a cure.
- 13th. It is perfectly safe for all ages as there is nothing in its composition that can harm a child.
