Washington, D. C. May 16 '66. Sin :- In view of the long delay in the lower House of Congress, in agreeing upon a plan for the reorganization the matter to you officially, and to ask the attention of Congress to it, believing that when they have the matter fairly It is customary to go to Guinan's for cheap before them, they will do what should be done speedily. At the present time settlements are springing up with unusuand to the gold fields of the Rocky This makes a much greater force west of the Mississippi necessar; than was ever heretefore required. engendered by the great war which has

raged for four years, will make the pres-

For many of them a small company is just as effecient as one with more men would be. The bill before Congress, or the one that has passed the Senate, gives an increased number of companies, by diminishing the number of the rank and file of each company .-It is an exceedingly appropriate measure in this particular, for it provides for the increase when occasion requires more of organization that can be used, with-
