

WAR IN EUROPE.

On another page of this morning's paper the record of the chief events of the first week of the European war. The result thus far is a success of Prussian arms, which meets, if it does not surpass, the boldest expectations of the friends of Prussia.

On the 14th of June, the middle States of Germany, by voting for the Austrian motion in Frankfurt, had declared their readiness to join in a war against Prussia. On the 15th, Prussian troops had entered two of those States, Saxony and Hanover. One week later, on the 23d, the larger portion of both Kingdoms, including the capitals of each, were in the hands of the victor.

The rapid and brilliant movements of the Prussians have thus far met with no opposition. The Austrians, who, on the first outbreak of hostilities, were expected to displace the possession of Dresden, have not only advanced into Saxony, but have even allowed the Prussians to advance from Saxony and Silesia, unopposed, into Bohemia.

THE FOURTH. The nineteenth anniversary of our nation's independence has been celebrated and throughout the wide extent of a free country its coming was hailed by the joyous acclamations of loyal millions.

The fires of patriotism burned anew in their hearts, finding vent in songs of praise and thanksgiving, the roid night sky gashed by the red glare of the rocket and the deep toned music of artillery. As the nation moves on in its steady march of progress it is ment that its birth-day should be welcomed with renewed enthusiasm as it was on July the 4th, 1855.

WORK FOR THE BOYS IN BLUE. The Pennsylvania "Boys in Blue" should understand that a concerted effort to be made by the combination of Copperheads and Copperjohns against the Union candidates in that State in the coming elections. The word has gone forth that a dead set is to be made upon Pennsylvania, and for this reason what is called the National Union Convention is to be held in Philadelphia on the 14th day of August next, for the purpose of unconditionally admitting the representatives of the late seceded States, without reference either to the crime of treason or without the slightest recognition of the brave men who defeated that treason on the field of battle.

MARK! THE TOCINS. "Such forbearance, however, cannot always be depended on!" - Messenger. The warning note! With what startling force it unshadows the doom that awaits those "unprincipled citizens and rosy soldiers" who dared to usurp the power of a Clymer's Soldiers' Convention. You that "came prepared for such an event, unlike them, unprepared!" You that came with your bosoms full of "Bowies" and your boots with Colt's revolvers, beware! You are tottering over a yawning gulf, sleeping on hidden volcanic fires!

THE BIRDS OF A FEATHER. During the war everything which the rebels believed, was believed by that portion of the Northern Democrats called Copperheads; and now that the war is over, there is a perfect accord in the sentiments of the conquered rebels and their Northern friends, who comprise the Democratic party of the present campaign. It is morally impossible for loyal people to coincide in doctrine with those whom they were so recently compelled to conquer by force of arms; and the fact that there is a party in the loyal States whose platform and objects are the same as those of the late rebels, shows that the epuliet between the friends and the enemies of the country is yet to go on throughout the whole land.

THE CASE OF THE SCIENCE. Washington, Monday, July 2.—Jim Lane died of Andy Johnson. He went from here to Kansas, impressed with the decision that his support of the President was so acceptable to the people of that State, that he could carry it for Johnson's policy by 5,000 majority. His first appearance upon the streets of Lawrence shocked him with a sense of his terrible error. In the town where he had once walked a monarch, he now spoke to him as an old friend without recognition on the sidewalk. On horseback, in the principal streets, he rode unrecognized and rejected. He went to his house and sat for many of his old friends to come and see him. They returned answer that they wished to have no intercourse with him. Two days after his arrival Representative Clark came from Washington. What a contrast and what a lesson! A vast crowd met and welcomed him with music and flags. A public meeting applauded his votes. Humiliated, smit with remorse, and utterly desperate, Lane terminated at once his life and his career in Johnson politics.

THE COMMITTEE'S INVESTIGATION OF THE AFFAIR BETWEEN MESSRS. GRINNELL AND ROUSSEAU has been careful and thorough, and on the part of the majority argues at length a demand for the expulsion of Gen. Rousseau. Three other members, who attended Gen. Rousseau, with arms on their persons, and watched the assault on Mr. Grinnell, will be required to appear before the bar of the House. The minority report favors only a public reprimand, and is signed by Messrs. Raymond and Hogan.

FROM MEXICO. New York, July 7.—The Herald's Mexican correspondence written from the City of Mexico, under date of the 23d and Vera Cruz, of the 20th, and Tampico, 20th ult., goes to show that the Mexican people are becoming more and more united in the cause of the independence of their country.

THE IMPERIAL FORCE. French and natives, have sustained a number of defeats of greater or less severity in the field, and the cause of Maximilian was still more gloomy in consequence. Santa Anna still engrosses a large share of the public attention. The Mexican Liberals proclaim the theory that an understanding has been come to between Mr. Seward, the Emperor Napoleon and the Ex-President, by which Maximilian would be let down gracefully and Santa Anna restored and elected President, the United States cabinet holding itself ready to approve of the eventualities arising from the change of government. The Liberals who were imbued with this idea, did not entertain such an implicit confidence in Mr. Seward's friendship as they did some months ago. Santa Anna, it is said, will remain unpopular with them, no matter in what official form he may be presented.

THE CITY OF TAMPICO was clearly besieged by the Liberal forces who had made a dash for it, riding into the very streets of the place at one time. Desertions from the Imperial to the Liberal army were frequent. The idea of annexation to the United States was widely fostered in the Liberal ranks.

Why do the Copperheads receive with joy, and the Republicans with disapproval, the decision of the Supreme Court declaring that all deserters must be tried before they can be disfranchised? Will our Democratic friends answer this question. It is not because that decision will make votes for Geary. It is not because it will enfranchise Republicans. It is because deserters will be able to vote—and their votes will go for Clymer. In view of this fact we are right in the charge that four-fifths of the deserters and bounty jumpers are Democrats.

WENDELL PHILLIPS ON THE RAMPAGE. At Farmington, Mass., on the Fourth of July, there was an Anti-Slavery meeting at which Mr. Wendell Phillips was the principal speaker. His speech belonged to the heated term of order, and its general character can be inferred from the following: "Our leaders in Congress know that the amendment will be rejected. Of course it will be. The President has put his foot down against it, and has warned the Southern States not to endorse it. He has told them in so many words that they will have his support in refusing to ratify it. It is not possible, therefore, that the amendment will be accepted. The Republican party does not want that amendment accepted. The worst possible news that Thad. Stevens could hear would be the ratification of the amendment. I do not disgrace the whole proceedings when I say it is a party trick."

REAL ESTATE FOR SALE. As Assignee of Wm. A. Porter, under voluntary assignment for benefit of creditors, I will expose to sale at public vendue or outcry, in front of the Court House, in Waynesburg on the 4th DAY OF AUGUST, 1866, the following real estate, to wit: All the right, title and interest of said Wm. A. Porter, &c., in and to that part of lots No. 166, 167, and 168, in plan of the Borough of Waynesburg, as laid out by said Porter from H. W. Doney, Esq., being all of said acre (except that portion of lot No. 166, owned by Daniel Owens, to wit: two-thirds of said lot). This property has erected thereon a new and good brick dwelling house and other outbuildings, besides a number of young and thrifty fruit trees.

REWARD. Stolen from the premises of the subscriber near Carmichaels, Pa., on Monday night, July 2d, 1866, a bay horse, three years old, with two small white spots behind the right ear, and a certain tract of land in the township of Morris, Greenv. Co., Pa., adjoining lands of Silas Jennings, land of Joseph Clutter, by lands of James Dunn and Stephen Day's heirs, and by lands of John Matt's heirs containing two hundred and eighty acres, more or less, about one hundred and sixty acres are cleared; has erected thereon one frame dwelling house, a frame barn and other outbuildings, an apple orchard and other fruit trees, with other necessary improvements.

PIANO FORTES. THE instruments now manufactured by this well known, long established firm, are the result of nearly half a century of study, experiment and improvement. Possessing greater advantages than all other makers throughout this long period of increasing experience, two generations of active, energetic and industrious men have been employed in perfecting their productions.

THE CHICKERING PIANO. Are now at the head of all the instruments manufactured in the country. For purity and simplicity of tone, durability of structure, thoroughness and durability of structure, they rank foremost of all. With the moody, mechanical excellence which results largely from the long and varied experience of Messrs. Chickering themselves, they combine a beauty, delicacy, and poetry of tone which is a rare charm, and seems to depend as much on the intelligence as on the handwork of the maker.
