CHICKERING & SON'S

THE instruments now manufactured by this well known, long established firm, are the results of nearly half a century of study, ex-

eriment and improvements.

Possessing greater advantages than all other makers throughout this long period of increas ing experience, two generations of active, en rgetic mind have been assiducusly employed a perfecting their productions.

THE CHICKERING PIANOS

Are now at the head of all the instruments manufactured in this country. For purity and sonority of tone, elegance of finish, thoroughness and durability of structure, they rank

oremost of all. With the merely mechanical excellence which results largely from the ingenious inventions of Messrs Chickering themselves, they combine a beauty, delicary, and poetry of tone which is a rare charm, and seems to depend as much on the intelligence as on the handiwork of U e maker.

Among the leading artists who have visited this country and well-known Planists of Boston and New York who use the "Chuckering Plano" in preference to those of other makers in the country, a sy be mentioned,

Thalberg, Got schalk, Webli, Jacil. Hoffman. Muzio, Pychowski, Sanderson, Rakeman, Le nhard, Scarfenberg, Lang. Benedict, Bassini, Parker, Warren, Strakosch, Bristow, Gilder
