The Republican.

J. E. SAYERS, Editor and Publisher. WAYNESBURG: WEDNESDAY, OCTOBER 17, 1866. THE VERDICT. Disgrace falsehood, chicanery, fraud, disregard of law, colonization, bribery, corruption of all kinds the blotches ever impressed by human agency, the citizens of the "Old Keystone" have highly resolved "that the dead shall not have died in vain; that the nation shall, under God, have a new birth of freedom, and that a government for the people and by the people shall not perish from the earth!" This is their verdict and with it we are highly satisfied. The struggle has been a herculean one, the more so from the ultra means resorted to by our opponents, and the great and vital issues at stake. Never was party creed so belied as that of the Republican, and yet we firmly believe because it espoused the right, it conquered. None can be so fool hardy, or foolish, as to attempt, or to think, the stand taken by the freeman of the North will cause, or bring about, another national distraction of the states. The decision, is emphatically against the President and although we believe him fond of distinction, ambitions to the extent of crime, almost, he would be bold, indeed, to attempt this work of supererogation. The same tide that flooded the country in '61, and bore our shattered, shivered vessel over the quicksands and shoals of treason still claims the right of bearing upon its bosom the old bark, now that peace has stilled the troubled waters. The terms dictated to the South will be accepted else they will have to bear the relation of provinces subject to the government.—No other alternative presenting itself they must see the wisdom of the adoption of the amendment. Other than this cannot be, the decree has gone forth—the exasperated must submit to the terms. WHERE IS THE "NIGGER?" We have some curiosity to know what has become of "Sambo." The last heard of him he was stamping this State for Clymer; since the defeat of that worthy we hear nothing concerning him. Ah! we think of a clue to his whereabouts—the lady has mentioned him, gape! "clean gone!" They have elected nearly every one of his "worshippers" and there will be "reign of terror" as a consequence! "What a terrible condition our country's in!" Say, you of the *Examiner*, *Genius*, or *Messenger*, can you relieve our doubts in this crisis? DEMOCRATIC CONSISTENCY. Some four weeks previous to the election, we published the proclamation of the Sheriff, beginning somewhat in this style: "I HEATH JOHNS, High Sheriff of the Co." In this proclamation were certain laws governing the Elections in this Commonwealth, certified by the Sheriff to be the law of the State, and warning all persons from violating it.—Among these is the one disqualifying deserters, naming the penalty of its violation with sufficient instruction to guard against it. We have another proclamation, not public, having an entirely different signification and bearing the unmistakable imprint of *Messenger* type, Hears it is, verbatim: WAYNESBURG, PA. VICE LEWIS—Days Store—Sir—We are appointed, as a vigilance committee and empowered to appoint similar committees in the several townships. We have selected you to operate with us, and inform you of the duties DEVOLVED UPON YOU. The first and most important duty is TO GET OUT A FULL VOTE. To this end let all your energies be directed. Go to each Democratic voter, one, two or three days before the election and OBTAIN THE PLEDGES of the voters to attend the polls in the morning. Inspire and encourage all your friends. Show them the importance of the debate of the 'Negro Suffrage' and 'Negro Equality' party. Converse with leading men around you, and see to it that every Democratic voter is at the polls early. Examine your tickets and have men appointed to attend to making out full hands for the voters. In a word do everything in your power to increase your vote in your town ship. See to it particularly, that no man shall be deprived of a vote under allegation of DESEDITION OR ANY OTIL-ER CHARGE. Yours Respectfully, JAS. S. JENNINGS, J. F. TEMPLE, HEATH JOHNS, Committee. It was not for publication, as the reader will judge, but we publish for the benefit of those accustomed to hear two sermons from the same text and who are yet willing to gulp both, "Vince," by the way, is a case in point. Is there not a question of Law in such counseling and subterfuge? And is there not back bone enough in the Republican Bar to punish such flaming inconsistency? ALL kinds of Trimmings are to be found at Hedge & Son's.

THE COUNTY ELECTION. The Pittsburg *Republic* and other democratic papers complain bitterly of the deception practiced upon them by their politicians in this county. We noticed that their early dispatches from this place spoke glowingly of the majority in Greene, placing it at 2000, sometimes 2500. The cause of complaint was good, it dwindled down so much that they couldn't help berating such falsifiers. And why is this so? We can see no other reason unless it may be the infamous means employed to stimulate and raise their vote, disgusted some and thus lowered it. "Tis unnecessary to speak of the various uses made of 'poor Sambo' all to no avail. The law was placed at defiance, we hear from every quarter of its violation—men were voted in two townships—minors were voted—deserters, a case under our own observation, notoriously known as such, voted in every instance, we have not heard of a single exception—and yet, after all this, to be defeated!

"OLD CUMBERLAND" She is indeed, our banner township. THIRTY-TWO of a gun! They have school-houses down there. So, it is throughout the county. We have large gains; in some instances there is a falling off but they are few. There is a new day-dawn yet for little Greene! ANY body wishing certificates of the truth concerning GEO. V. LAWRENCE'S vote on "Nigger Suffrage" can procure them by calling on J. Leazer, J. F. Temple, Jno. Phelan, Jas. S. Jennings, or, "Mike" Connor.

PENNSYLVANIA!! HOW DO YOU LIKE IT? Two Congressmen Gained! A STERN REDUX FOR A. J.

It is with the most intense gratification we are enabled to announce the grand and complete overthrow of the allied powers of treason in the Old Keystone State. Ready as she always was to meet the foe face to face, a victory, none the less brilliant because bloodless, has been won, second only to the result of armed traitors from the blazing mouths of her muskets on the plains of Gettysburg.—His and murder have run rampant long enough; it has been said, "reason must be made odious," and the voice of this people in thunder tones proclaim their assent! With what discord and harshness it grates upon the ears of the opposition? Baffled in their every effort since the year '61, to destroy the government, they cannot but see in this disastrous *fluct* to all their schemes. Their party has been one of deepest infamy, their acts such that "the memory of men can have no forgetfulness." Let us hope it is doomed to that oblivion "where the wicked cease from troubling, and the weary are at rest." The official and, estimated majority for Geary in the State is 16,587—in about twelve Counties the majorities being estimated. The official returns confirm our Congressional gains. Messrs. Calk, in the Tenth, Koonz, in the Sixteenth, and Covode, in the Twenty first Districts are elected by handsome majorities. The Pennsylvania delegation in the Fortieth Congress will stand—Republicans, eight; Democrats, six. In the Legislature we lose a Senator in the First District, but are recompensed by the gain of another in the Twenty-sixth District, Mr. Taylor, Unionist, succeeding Wm. Hopkins, Democrat. Both Houses stand as follows:— Senate—Republicans..... 21 Democrats..... 13 House—Republicans..... 62 Democrats..... 38 Majority on joint ballot..... 32 This is a handsome majority in each House and will result in the expulsion of the renegade Cowan from the United States Senate. In our own District the result is exhilarating. Beaver gives 855 majority for Lawrence; Lawrence 2124, Washington (not official) about 300. Greene gives 1621 for Montgomery. Lawrence's whole majority, 1688! Covode's majority over Wier in the 21st District was 358.

NEBRASKA. The Territorial and State election went Republican by good majorities.

INDIANA.

UNION MAJORITY 15,000. LEGISLATURE LARGELY UNION. EIGHT UNION, THREE DEMOCRATIC CONGRESSMEN. INDIANAPOLIS, October 11, 1866. Further returns from the State election give the Unionists increase gains. The majority will surely reach fifteen thousand. The Legislature has the largest majority for the Unionists ever given to any party. The Senate only lacks two Senators of a two-thirds majority, there being thirty-two out of fifty. We have gained six Senators and probably seven. The lower House stands sixty-three to thirty-seven, a Union gain of three over the last special Legislature. INDIANAPOLIS, Ind., October 12.—Official returns are coming in slowly, but show nothing to indicate a change in the general result given in last night's report. The Legislature, from returns received up to this time, stands—Senate, Union, 32; Democrats, 18. House, Union, 61; Democrats, 36. The Unionists will certainly have forty majority on joint ballot. Congress, eight Unionists and three Democrats, Washburne and Orth, Unionists, in the Seventh and Eighth Districts, are conceded by both parties.

OHIO. UNION MAJORITY 45,000. CINCINNATI, October 11.—Returns from forty-five counties give a Union majority of thirty five thousand seven hundred. The remaining forty-three counties will probably increase the majority to forty-five thousand.

IOWA. 30,000 UNION MAJORITY. IOWA swells the chorus with an unusually large majority. We make a clean sweep of Governor and Congressmen—six in number. Good for Iowa!

MEXICO. New York, October 12.—The *Herald's* City of Mexico correspondence, dated September 29th, says: Maximilian's new ministry was very active and industrious, but had done nothing to restore public confidence. The compact between the Emperor and the Church party is virtually to turn over the power into their hands, on the receipt of twenty-five million dollars. Maximilian is to be merely an Executive. An order was issued on the 29th inst., to send 2,000 troops to move towards Durango and San Luis Potosi, in order to re-possess the northern departments. The Church party have commenced operations by declaring that the abuses of the press should be suppressed. Maximilian remarked in conversation that the hisses received by President Johnson on his tour, might be considered as good news for his empire. THE NEXT CONGRESS—ITS CHARACTER ALREADY FIXED. The Boston *Tribune*, referring to the October elections, says:—"Complete returns from those States may, possibly show that they have made some small gains there, but in the best case for them the change will fall far short of the requirements of their position. Supporting them to have gained two or three members, to what States can they look for the other twenty-three of twenty-four members they must gain, or confess themselves vanquished in a fair, constitutional contest? Can they gain any in Massachusetts, New Hampshire and Rhode Island? Not one. Can they gain any in Connecticut? Possibly, one, but probably not one. In New Jersey? Not one. They are more likely to lose than to gain among the Jersey Blues.—In Illinois? Not one. In Wisconsin? Not one. In Michigan, or Minnesota, or Nevada? Not one. At the utmost, the Johnsonian vote in the House of Representatives cannot be raised beyond fifty-eight and to that number only through resort to violence in the Border States. Our weak point now is those States, just as it was during the war.—There the Johnsonians, by illegal proceedings, may secure several new members, and swell their number up to fifty-eight Representatives in the next House of Representatives. Against that small force there will be one hundred and thirty-three Union men, a body strong enough to keep matters right, backed as it would be by a popular majority of not less than half a million. Thanks to what was done in New England in September, and to what was done yesterday in Pennsylvania and the Northwest, all danger to the contrary may be considered at an end—no danger, we mean, from irregular action. For it is not within the bounds of possibility that the President could do anything in the face of opposition such as would have daunted even Andrew Jackson. Mr. Johnson is a very obstinate man, and is very fond of having his own way; but he is not a fool, even though he has done some very foolish things—and he will never attempt to drive his pickaxe where it never can be made to go. Yesterday's verdicts will influence all his to-mor-

WOMEN OF INDIA. Dr. Butler, a missionary from India, lately said that he came from a land where the sun shone brightly and contentedly, where everything was fair and just to the eye; but amidst all the cultivated loveliness he did not remember a single flower, except the rose, that was fragrant; and though the birds were very splendid, there was not one that sang. It was a sad thought—but might also be applied to the people.—He had never heard a hearty, happy laugh from a woman outside the pale of Christianity. With every opportunity for observation, he had never seen a young woman a happy female face.

This is a valuable portion of the war that has been written into the regular histories, but the only one of its kind, which is a very real part of it, and will, if preserved, convey to succeeding generations a truer idea of the spirit of the conflict than many dry reports of careful narrators of events, and this may be called the "real" history, the history of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pinck of our heroes, the romance and heroisms of the general.

THE MASON & HAMLIN

CABINET ORGANS. In cases of Rosewood, Curried Rosewood, Ebony, engraved and gilt; Plain Black Walnut, Dappled Walnut, Carved Black Walnut, Dappled Walnut, Plain Oak, Carved Oak, &c. These instruments are evidently destined to become as fashionable for private use, and even more extensively used, than the Piano Forte. Their capacity for both secular and sacred music, the purity and richness of their tones, the great variety of style, to which they are capable, and their elegance as pieces of furniture, are securing their rapid introduction in the drawing rooms of the best musical circles, while in low places at which some of the styles in this class are afforded, adapt them to the widest use. The Cabinet Organ bears the same relation to the Harmonium or Melodeon, which the modern Piano Forte bears to the system of older times. Its volume is of any tone, and the artistic effects of which it is capable, have attracted to it an amount and degree of attention and favor from musical connoisseurs which have not before been given to any instrument of this class. Among those who have publicly recognized the sterling qualities of the MASON & HAMLIN CABINET ORGANS, and who prominently feature them in every other instrument of their class in the most eminent, large portion of the most eminent organs, pianos and musicians in the country. "It is the universal opinion of the musical profession," says the *New York Tribune*, "that Messrs. Mason & Hamlin have succeeded in making a better solid instrument than any other of the organ kind, that no such mechanical work of the kind can be found in Europe." "These instruments represent the highest accomplishments of industry in this department," says the *London Advertiser*, adding, "this is not our own opinion, but the unanimous verdict of our countrymen, who have frequently written of them as 'the best of the New York Organ,' 'a glorious instrument for the temple service, so readily secured as to be available for any congregation, and so effective as to give the desired effect of the most refined and tasteful music.'"
The undersigned respectfully invite musical professors and amateurs to examine these instruments, and form their own judgment respecting them. Teachers who are not cognizant of the progress of modern music, and who recently made in the class of instruments cannot but be interested in such an examination, especially of the larger styles of Cabinet Organ; and those who have been prejudiced against all such instruments, will be likely to have such prejudices removed. Among those who have kindly expressed their appreciation of the Mason & Hamlin Cabinet Organ, and publicly declared them to be the best instruments of this class in the world, are such well-known organists and artists of London and New York as Berge, Braun, Barnard, Burns, Butler, Cutler, Davis, Eschbach, Eshling, Erard, Fries, Goldbeck, Gottlieb, Gröndler, Heller, Hill, Krieger, Lang, Leubardt, Magrat, William Mason, Morozek, Müll, Mosenthal, Morgan, Meisel, Pinn, Parker, Ryan, Sanderson, Smith, Stump, Strakosky, Schultz, Thomas, Timm, Tuckermann, Walling, Waring, Waring, Waring, Webb, Zedler, Zarinin, together with hundreds of others in other principal cities, including a large portion of the most distinguished musicians of the whole country. Catalogues with full particulars, and lists of styles and prices (which vary from \$110 to \$1200) sent free. CHAS. C.
