A. AND P. TELEGRAPH COMPANY .-The Pacific and Atlantic Telegraph Company of the United States has, we notice, declared a dividend at the rate of 10 per cent, apon the stock of the Monongahela Division of its line. This line is being built and operated in divisions, by which the earnings of such sections as are completed, are divided among the stockh lders whose money have been expended in the construction, and so fast as each additional section is completed, its stock is added to that entitled to receive dividends. The At. lantic Division, reaching to the scaboard. has been lately fimshed and put in operation The next dividend will be consequently upon al the stock represen ting the money used in the construction of both the Monongahela and the Atlantic Divisions. The next section. which is now under construction, is the division from Pittsburgh to Cincinnati, and it comes into the dividend drawing line so soon as completed. By this process, the money of stockholders is anade to draw dividends with the least possible delay, without having to wait until the completion of the whole stretch of line. It is proper to say that the present dividend is the sixth consecutive one upon the Monongahela Division .-We learn that the business of the com pany over its newly opened section from lot operations have been of rare occurrence.
