A MUCH NEEDED IMPROVEMENT.-We are pleased to learn that part of the "Slater Farm," adjoining our borough, has been purchased by some of our citizens for the purpose of laying out an addition to the borough.

The portion of the farm which it is proposed to devote to this purpose is beautifully situated immediately south of the Court House, and will afford delightful sites for residences. The want of increased facilities for building has long been felt here, and we are glad that there is a hope of its now being supplied. It is true that the number of lots which we understand it is proposed to lay out at present, is not as large as we think it should be, yet it will be a great benefit so far as it goes. demand for the lots being so great, they will, no doubt, be rapidly bought up, and we would advise persons who desire lots to be promp in applying to the owners before they are al disposed of It is also proposed, we learn, to burn a large quantity of brick on the premises, and this, in connection with the Planing Mill, Sash and Door Factory, which is be-ing crected here, will afford an abundance of material for building, at reasonable prices.
