Coincident. - Democracy held a rati fication meeting in the Court House on Friday evening last in honor of the Democratic victory (?) in Connecticut -Six years ago, near the same time, the civil war was inaugurated by the assault on Sampter, two years ago, the capitula tion of Lee was effected. Why we recall this is to show that the furn affairs took on each occasion was the opposite of what they anticipated. Over the first their rejoicing was turned to sorrow, the second change wrought joy from grief, and we imagine this last outbarst of enthusiasm will die away into wailings for disappointed hopes.

From what we can learn it was as much as the "faithful" could do to drum up a quorum, the rank and file not feels ing as sanguine as the captain-generals that the occasion was one one calling for much ostentation. A friend informs us that Messrs, Purman and Crawford don't improve in oratory, declaring positively that has heard them speak their pieces much better on former ocbasions. There was not the gusto that moved them as heretofore-a certain bads upon the shrabbery are swelling, "downtrodden South,"

THE EDUCATION OF THE HOUSE -Prot Rockwell exhibited his magnificently trained horses in our street, on Friday last. Our citizens were out in force to admire the beauty and marvelous sagacity of the animals. They seemed endowed with human intelligence, so readily did they understand, and so precisely execute the will of their master. The Professor delivered a short explanation of his theory, stating facts and reasoning well. He obtained quite a class and succeeded, we believe, in convincing them to the amount of five dollars each.
