Felcy, 67-19.

NEW EXCITEMENT:

THE PROPOSED IMPEACHMENT loss of relations and friends. loss of money, and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the finangent—the nealist stars we see in the finangent—the nealist stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the fature destiny of man. Fall not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation for, with likeness and all desired information, \$1. Parties living at a distance can consult the Madame by mall with equal salety and satisfaction to themselves, as if in person. A full and exthemselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likenesses enclosed, sent by mail on receipt of price above monitoned.— The strictest s cresy will be maintained, and all correspondence returned or destroyed-References of the highest order turnished those desiring them. Write plainly the day of the month and year in which you were born, enclosing a small lock of halz.

Address, Madami H. A. PERRIGO, P. O. Drawer 293, Buffalo, N. Y.

REPARATOR CAPILLI.

Throw away your false frizzes, your switches, Destructive dicomitors, and not worth a fig: Come aged, come youthail, come vely and fair And rejoice in your own luxuriant hair.

REPARATOR CAPILLI. REPARATOR CAPILLI.

For restoring hair upon build heads (from whatever cause it may have fallen out) and foreing a groth of hair upon the face, it has no equal. It still force the heard to grow upon the smoothest face in from five to eight weeks, or hair upon baid heads in from two to three months. A few is program tracellioners have or hair upon hald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or heard.—Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certainly is difficult, as nine-tentls of the different Preparations advertised for the hair

It certainly is dilicult, as an extended in the hair and beard are entirely worthless; and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli, it will cost you nother ing unless it fully comes up to our represen-tations. If your drugglat does not keep it, send us one dollar and we will forward it. postpaid, together with a receipt for the mo-ney, which will be returned you on applica-tion, providing entire satisfaction is not given. April is pre-eminently the vernal seed time, although in certain localities. south of our latitude, most of the seeding has been attended to, and the young plants are begining to appear.

In some instances, ground is coldheavy, and unfit to be plowed, or spaded, ecedingly negligent on this point; and on account of an excess of moisture. Manure of any kind, cannot be expected to fertilize sols that are naturally wet, until relieved of the surplus moisture .-While the subsoil is yet soft, let ditches be cut, and stones, tiles, or wood laid in the bottom, before the plow is started. Extensive tricts of country are plowed and sowed annually, which do not yield half a cop, simply because there is a superabandance of water in the soil

Clover seel and grass seed should be sowed as som as practicable, after the trost has dispressed from the ground .-Before the fields or gardens are sufficiently dry to be plowed, a good job may be performed along the beaten track of the highway, by grading the rough and uneven bordes, smothing the surface, collecting the stones in hunns, and sowing grass seed. Grass seed that is sow. that they are not over-worked thating ed early in the serson, is worked into the first few days. When horses have the soil by feezing, thawing and rain, performed but little labor, during the which insures its early germination and winter, they should not be required to growth. When seed is sowed late, say plow more than half a day's work, each several week after the growing season day, for several days, until they have has commerced, the roots meet with become accustomed to the steady and more resistance when entering the soil; fatiguing exertion of drawing a plow and should here be much dry weather, When horses have worked but little the young grass will soon wither and during the winter their muscles require
