

REMINISCENCES OF A SOLDIER.

NO. 1. IN THE COUNTRY, UNDER A TREE. ... Mr. Editor:—While in the service, we took note of some little oddities and quiddities peculiar to camp life.

We strolled to the country to-day, and for amusement, related the following introductory "reminiscence," which is at your disposal.

Tom, Dick, Harry, Sam, their parents might have christened them—only they didn't. ... The author, who subscribes himself Mike, constituted "our mess."

There is more in these pipes of ours than one at first is aware of. For receipts with figures they are—metaphorical allusions, similes, and other personsifications, at every step.

Look what a beautiful "sugar castle" there, you blew your breath and it was washed away. ... There it goes—look what a beautiful "sugar castle" there, you blew your breath and it was washed away.

Yes, and if there were no epidemics, no wars, or more of them, they would be the death, man would live his allotted period, and die.

Look how sleekly he is cut down. I think "He" is a little like a snake, would be an improvement.

See, how our duty she always stood up for. ... By boiling one's pipe in some strong liquid composition, its porosity is destroyed.

THE ALTAR. ... MARRIED.—On the 30th ult., at the United Brethren Parsonage, by the Rev. J. C. Smith, Mr. David Todd to Miss Agnes Davis.

On the 26th inst., by the Rev. Mr. John A. Houck, to Miss Mary A. Stealy, both of Mendenhall Twp., Adams County, Pa.

CLERK OF THE COURTS. ... I offer myself to your consideration, as a candidate for the office of Clerk of the Courts.

REGISTER AND RECORDER. ... HENRY STRICKLER, of Antrim township, is a candidate for REGISTER AND RECORDER.

Report of Solon Robinson, OF THE NEW YORK TRIBUNE, UPON THE VIENLAND SETTLEMENT.

The following is an extract from the report of Solon Robinson, Esq., published in the New York Tribune, in reference to Viennland. All persons can read it with interest.

It is certainly one of the most extensive fertile tracts in an almost level position, and suitable condition for pleasant farming that we know of in this side of the western prairie.

The geologist would soon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calcareous substances, generally in the form of indurated calcareous marl, showing many distinct forms of ancient shells, of the tertiary formation;
