GRAND DISCOVERY KUNKEL'S Bitter Wine of Iron.

For the cure of weak stomachs, general debility, indigestion, diseases of the nervous system, constipation, acidity of the stomach, and for all cases requiring a tonic.

This wine includes the most agreeable and efficient Malt of Iron we possess; Citrate of Magnesia Oxide combined with the most energetic of vegetable tonics, Yellow Peruvian Bark. The effect in many cases of debility, loss of appetite, and general prostration of an efficient Sait of Iron, combined with our valuable Nerve Tonic, is most happy.

This truly valuable Tonic has been so thoroughly tested by all classes of the community that it is now deemed indispensable as a tonic medicine. It costs but little, purifies the blood, and gives tone to the stomach, renovates the system, and prolongs life.

BEWARE OF COUNTERFEITS.—As KUNKEL'S BITTER WINE OF IRON is the only sure and effectual remedy in the known world for Dyspepsia and Debility, and as there are a number of imitations offered to the public, we would caution the community to purchase none but the genuine article, manufactured by S. A. KUNKEL, and has his stamp on the top of the cork of every bottle.

General Depot, 118 Market St., Harrisburg, Pa. For sale in Greencastle, by J. H. HOSTETTER, and all respectable dealers throughout the county.

TO THE LADIES.

NEW MILLINERY GOODS.

MRS. KATE WUNDERLICH informs the Ladies of Greencastle and vicinity, that she has just received from the city a full assortment of the latest style Bonnets, Hats and Bonnet Trimmings, and all other articles usually kept by Milliners.

DISSOLUTION.—The partnership heretofore existing between the undersigned, doing business under the name and title of Haus & Bradley, was dissolved by mutual consent on the 1st day of October, 1863.

The firm most respectfully return their thanks to the public for past patronage, and solicit for the present proprietor a continuance of the same.

\$100 REWARD!

Coughs, Influenza, Tickling in the Throat, Whooping Cough, or relieve Consumptive Cough, as quick as COE'S COUGH BALSAM.

It does not Dry up a Cough, but loosens it, so as to enable the patient to expectorate freely. Two or three doses will invariably cure Tickling in the Throat. A half bottle has often completely cured the most stubborn cough, and yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable.

It is within the reach of all, the price being only 25 Cents. And if an investment and thorough trial does not "back up" the above statement, the money will be refunded.

At Wholesale, by Johnston, Holloway & Cowden, 23 North Sixth Street, Philadelphia, Pa.

GREENCASTLE SEMINARY.

MALE AND FEMALE. THE subscriber will open a Male and Female Seminary at Greencastle, on the first Monday of October next. Instruction will be given in all the Branches usually taught in a first class school.

J. W. BARR'S Mammoth Store and Tinware Store Room, A few doors South of the Diamond, Greencastle, Pa.

COOK, PARLOR AND NINE-PLATE Stoves. Among them are the Continental, Noble Cook, Commonwealth and Charm which he will sell cheap for cash.

SPOOTING of the best material, for houses, &c., manufactured and put up at the shortest notice.

DISSOLVED.—The firm of Schaffhirt, Wunderlich & Co., of Greencastle and Wunderlich, Nead & Co., of Chambersburg, were dissolved by mutual consent on Sept. 1st, 1863.

Hereafter the business will be conducted at Greencastle by A. F. Schaffhirt, and at Chambersburg by Wunderlich & Nead.

The Great AMERICAN TEA COMPANY, 51 Vesey Street, New York.

Wholesaling Teas in this Country. They have introduced their selections of Teas, and are selling them at not over Two Cents (.02 Cents) per pound above Cost, never departing from the ONE PRICE asked.

Another peculiarity of the company is that their TEA TASTER not only devotes his time to the selection of their Teas as to quality, value, and particular styles for particular localities of country, but he helps the TEA BUYER to choose out of their enormous stock such TEAS as are best adapted to his peculiar wants, and not only this, but points out to him the best bargains.

Parties can order Teas and will be served by us as well as though they came themselves, being sure to get original packages, true weights and tares; and the Teas are warranted as represented.

Great American Tea Company, Importers and Jobbers, Sept. 15, 1863-3m.] No. 51 Vesey St., N. Y.

SPRING AND SUMMER GOODS!

Special attention is directed to their stock of HOOP SKIRTS, which is the largest ever brought to this place, and has never been surpassed by any house in the county; and will be sold at prices which DEFY COMPETITION.

Among the latest styles are the Unique, Trail, Extra Wide Fape, &c.,—selling from 50 cents to \$2.50. 25 bars, \$1; 30 do., \$1.25; 35 do., \$1.50; 40 do., \$2.00.

They have an excellent assortment of Goods for Men's and Boy's wear, embracing CLOTHS, CASSIMERES, (plain and fancy) Linen Coating, Linen and Cotton Pant Stuffs.

DOMESTIC GOODS, BOOTS & SHOES, FLOOR OIL CLOTH, WALL PAPER, &c., can be bought here as low as elsewhere.

DISSOLUTION.—The Co-partnership heretofore existing between the undersigned, doing business under the name and title of J. W. BARR & Co., was dissolved by mutual consent, on the 14th day of August, 1863.

COVERLY & HUTCHISON Have become the Proprietors of the UNITED STATES HOTEL, near the Railroad Depot at HARRISBURG, Pa.

COVERTLY & HUTCHISON. THE undersigned, having purchased Mr. Nead's entire interest in the Tinning business, wishes to inform the public at large, that he has on hand, at his extensive Store, COOK, PARLOR AND NINE-PLATE Stoves.

PORTRAITS OF OUR HEROES.—The Franklin Repository of the 23rd July contains an excellent Portrait of Maj.-Gen. Geo. G. Meade, the Hero of Gettysburg, and the number for August 6th contained an admirable Portrait of Maj. Gen. U. S. Grant, the Hero of Vicksburg.

PURCHASERS OF DRY GOODS!!

WE are receiving goods every day from the east—our cities, and have ready for sale, the following list of articles, which we can sell cheaper than sold elsewhere:

Particular attention is paid to each different branch of our business: and we hope by strict attention and reasonable profits, to merit our heretofore liberal patronage, and greatly enlarge our business.

DISSOLUTION OF PARTNERSHIP.—Notice is hereby given that the co-partnership subsisting since April 1, 1861, between A. L. IRWIN and JAMES M. IRWIN, of Greencastle, Franklin county, Pa., under the firm and style of A. L. IRWIN & SON, has been this day dissolved by mutual consent.

THE undersigned has this day (May 7, 1863), formed a copartnership, under the name and style of IRWIN & RHODES, and having purchased the whole stock of goods, lately belonging to A. L. IRWIN & SON, respectively inform the people of Greencastle and surrounding country, that they will continue the business on the South-east corner of the Public Square, where they invite all persons needing Hardware, Oils and Paints to give them a call and examine their stock.

ESTRAY.—Was taken up by the subscriber, residing on the Williamsport turnpike road near the Maryland Line, about four miles south of Greencastle, on the 13th of August, a DUN HORSE, about twelve or thirteen years old, having three White Feet—no other particular marks. The horse is supposed to have been stolen.

TO BUSINESS MEN.—The Franklin Repository has the Largest Circulation of any paper in the State out of the cities, and is the best Advertising Medium in Southern Pennsylvania.

THE FRANKLIN REPOSITORY is published a large Double Sheet of Forty-Eight Columns, Price \$2 per annum; \$1 for six months.

VINELAND. TO ALL WANTING FARMS. A New Settlement of Vineland. A REMEDY FOR HARD TIMES.

A Rare Opportunity in the Best Market, and Most Delightful and Healthful Climate in the Union. Only thirty miles South of Philadelphia, on a Railroad; being a Rich, Heavy Soil, and Highly Productive Wheat Land; Almost the Best in the Garden State of New Jersey.

It consists of 20,000 acres of GOOD land, divided into Farms of different sizes to suit the purchaser—from 20 acres and upwards—and is sold at the rate of from \$15 to \$20 per acre for the farm land, payable one-fourth cash, and the balance by quarterly instalments, with legal interest, within the term of four years.

The Soil is, in great part, a Rich Clay Loam, suitable for Wheat, Grass and Potatoes—also a dark and rich sandy loam, suitable for corn, sweet-potatoes, tobacco, all kinds of vegetables and root crops, and the finest varieties of fruit, such as Grapes, Peaches, Apples, Nectarines, Blackberries, Melons and other fruits, best adapted to the Philadelphia and New York Markets. In respect to the soil and crops there can be no mistake, as visitors can examine both, and none are expected to buy before so doing, and finding these statements correct—under these circumstances, unless these statements were correct, there would be no use in their being made.

The Market.—By looking over a map the reader will perceive that it enjoys the best market in the Union, and has direct communication with New York and Philadelphia twice a day, being only thirty-two miles from the latter. Produce, this market brings double the price that it does in locations distant from the cities. In this location it can be put into market the same morning it is gathered, and for what the farmer sells he gets the highest price; whilst groceries and other articles he purchases he gets at the lowest price.

The Climate is delightful: the winters being salubrious and open, whilst the summers are no warmer than in the North. The location is upon the line of latitude with northern Virginia. Persons Wanting a change of Climate for Health, would be much benefited in Vineland. The mildness of the climate and its bracing influence, makes it excellent for all pulmonary affections, dyspepsia or general debility. Visitors will notice a difference in a few days. Chills and fevers are unknown.

Conveniences at Hand.—Building material is plenty. Fish and oysters are plenty and cheap. Visitors must expect, however, to see a new place. Why the Property has not been Settled Before?—This question the reader naturally asks. It is because it has been held in large tracts by families not disposed to sell, and being without railroad facilities they had few inducements. The Railroad has just been opened through the property this season, for the first time.

Visitors are shown over the land in a carriage, free of expense, and afforded time and opportunity for thorough investigation. Those who come with a view to settle, should bring money to secure their purchases, as locations are not held upon refusal. The Safest thing in Hard Times, where people have been thrown out of employment or business, and possess some little means or small incomes, is to start themselves a home. They can buy a piece of land at a small price, and earn more than wages in improving it, and when it is done it is a certain independence and no loss. A few acres in fruit trees will insure a comfortable living. The land is put down to hard times, and all improvements can be made at a cheap rate than most any other time.

The whole tract, with six miles front on the railroad, is being laid out with fine and spacious avenues, with a town in the centre—five acre lots in the town sell at from \$150 to \$200; two and a-half acre lots, at from \$80 to \$120, and town lots 50 feet front by 150 feet deep, at \$100—payable one-half cash and one balance within a year. It is only upon farms of twenty acres, or more, that four years' time is given.

To Manufacturers, the town affords a fine opening for the Shoe manufacturing business, and other articles, being near Philadelphia, and the surrounding country has a large population, which affords a good market. This settlement, in the course of several years, will be one of the most beautiful places in the country, and most agreeable for a residence. It is intended to make it a Vine and Fruit growing country, as this culture is the most profitable and the best adapted to the market. Every advantage and convenience for settlers will be introduced which will insure the prosperity of the place. The hard times throughout the country will be an advantage to the settlement, as it compels people to resort to agriculture for a living.

Large numbers of people are purchasing, and the people who desire the best location should visit the place at once. Improved Land is also for sale. TIMBER.—Land can be bought with or without Timber. The Timber at market valuation. The title is indisputable. Warranted Deeds given clear of all incumbrance, when the money is paid. Boarding conveniences at hand. Letters promptly answered, and Reports of Solon Robinson and Wm. Parry sent, together with the "Vineland Rural."

Route to the Land.—Leave Walnut street wharf, Philadelphia, at 9 o'clock, A. M., and 4 P. M. (unless there should be a change of hour.) for Vineland, on the Glassboro' and Millville Railroad. When you leave the cars at Vineland Station, just opened, inquire for CHAS. K. LANDIS, Postmaster, Vineland P. O., Cumberland Co., N. J.

MAN HOOD! How Restored! Just Published in a Sealed Envelope. Price six cents. A Lecture on the Nature, Treatment and Radical Cure of Spermatorrhoea or Seminal Weakness, Involuntary Emissions, Sexual Debility, and Impediments to Marriage, generally, Nervousness, Consumption, Epilepsy and Fits; Mental and Physical Incapacity, resulting from Self-Abuse, &c.—By ROBT. J. CULVERWELL, M. D., Author of the Green Book, &c.

WALL PAPER!—We have just received a large stock of Wall Paper. We have plain, fancy, white, dark, glazed and unglazed paper, in styles to suit everybody. Bordered of all kinds and in any quantity. Sold at the lowest cash prices, by S. H. PRATHER & CO. Greencastle, May 6, 1863.

Report of Solon Robinson, OF THE NEW YORK TRIBUNE, UPON THE VINELAND SETTLEMENT.

The following is an extract from the Report of Solon Robinson, Esq., published in the New York Tribune, in reference to Vineland. All persons read this report with interest. Advantages of Farming near Home—Vineland—Remarks upon Marl—Soil, its great Fertility—Cause of Fertility—Amount of Crops Produced—Practical Evidence.

It is certainly one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the western prairies. We found some of the oldest farms apparently just as profitable productive as when first cleared of forest fifty or a hundred years ago.

The geologist would soon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calcareous substances, generally in the form of indurated calcareous marl, showing many distinct forms of ancient shells, of the tertiary formation; and this marly substance is scattered all through the soil, in a very comminuted form, and in its exact condition most easily assimilated by such plants as the farmer desires to cultivate.

Marl in all its forms, has been used to fertilize crops in England, from the time it was occupied by the Romans; and in France and Germany a marl bed is counted on as a valuable bed of manure, that can be dug and carted and spread over the field—How much more valuable then it must be, when found already mixed through the soil, where new particles will be turned up and exposed, and transformed to the owner's use every time he stirs the earth.

Having then satisfied our minds of the cause, they will not be excited with wonder at seeing undoubted evidence of fertility in a soil which in other situations, having the same general characteristics or at least appearances, is entirely unproductive except as its productiveness is promoted by artificial fertilization.

A few words about the quality and value of this land for cultivation, of which we have some strong proof. Our first visit was to William D. Wilson, Franklin township, Gloucester county, who purchased some eight miles north of Millville, about three years ago, for the purpose of establishing a steam mill, to work up the timber into lumber, to send off by the new railroad, as well as the firewood and coal, for which he built a branch track a mile and a half long. He also furnished sixteen miles of the road with ties, and has no doubt made the mill profitable, though his main object was to open a farm, having become convinced that the soil was valuable for cultivation. In this he has not been disappointed, as some of his crops prove.

For instance, last year, the second time of cropping, 300 bushels of potatoes on one acre, worth 60 cents a bushel, in the field. This year seven acres, without manure, produced 356 bushels of oats. In one field, the first crop was potatoes, planted among the roots, and yielded 75 bushels. The potatoes were dug, and wheat sown, and yielded 16 bushels; and the stubble turned under and sown to buckwheat, which yielded 23 1/2 bushels; and then the ground was sown to clover and timothy, which gave as a first crop 2 1/2 tons per acre.

The fertilizers applied to these crops were first, ashes from clearings; second, 225 pounds of superphosphate of lime; third, 200 pounds of Peruvian guano; then 50 bushels of slaked lime has been spread upon the clover since it was mowed, and turned in for wheat.

Mr. Wilson's growing crops, and the wheat stubble of the present season, all indicate his land as productive as any part of the State. Mary Barrow's, an old style, very famous farm, several miles south of Mr. Wilson's, was so particularly struck with the fine appearance of a field of corn, that she stopped to inquire of the husbandman how it was produced. We found that the land had been the year but one before in wheat, sown with clover, and this one season, and last spring plowed once, with one "poor old nag," and planted with corn.

"Yes, but you manured high, we suppose!" we said interrogatively, and got this reply:—"Waal, you see, we couldn't a done tant; 'cause we hadn't but forty one-horse loads altogether, for 23 acres, and we wanted the most on't for the truck. The truck consisted of beets, carrots, cabbage, cucumbers, melons, &c., and a very productive piece of Lima beans, grown for marketing. So we were satisfied that the soil was not fertile, even unaided by clover, which had fed the corn, because the truck patch had not been in cultivation long enough to obliterate all signs of the former year's manure."

Our next visit was to the large farm of Andrew Sharp, five miles north of Millville, from half to a mile east of the railroad, and just about in the centre of Vineland. Mr. Sharp commenced work here in December, 1858, upon 270 acres. In less than three years, he has got 234 acres cleared and in crops this season, as well included and divided into several fields, with cedar rail or pole fence; has built a two-story dwelling, about 30 by 40 feet, and a smaller house for farm laborers, and a stable and granary and some other outbuildings.

Considerable part of the land was cleared for the plow at \$9 an acre, and on some of it the first crop was buckwheat, limed with 50 bushels in powder per acre. This crop may be put in July 4th to 20th, and yields 20 to 30 bushels per acre, harvested in November; when the land being sowed with 150 lbs. of Peruvian guano and seeded with rye, yielded 12 to 15 bushels per acre and 100 worth of straw. The rye stubble turned, after knocking off a large growth of oak sprouts, and dressed again with guano and seeded to wheat, gave 15 or 16 bushels. The crop which he was threshing while we were there promises more of a very plump grain; and the straw is very heavy.

We went over the stubble, and found the clover and timothy, from seed sowed last spring, on the wheat without harrowing, looking as well as we ever saw it upon any old cultivated farm, and with a little work done in the winter to clear off some rotten and rotten stumps, and setting stakes to mark permanent ones, he will be able to cut the crop the next year with a mowing machine, and we will guarantee two tons per acre, if he will give the surplus if it exceeds the estimate.

Part of the land was planted with potatoes for a first crop, which yielded 120 bushels per acre. It was then limed with 50 bushels per acre, and sowed with wheat and clover, yielding an average of over 15 bushels per acre, and the clover now looks beautiful. Other portions have been planted with corn as a first crop, which yielded 30 bushels of yellow and 20 of red, and the second crop 40 bushels, and the third crop, treated to 150 lbs. of guano, we are sure no one would estimate below 40 bushels per acre.

[The reader will recollect that the writer is now speaking of land perfectly new, and which can scarcely be considered in good arable condition—Ed.] In other cases, the corn crop of last year was followed with oats this season, not yet threshed, but will average probably 40 to 50 bushels. Sweet potatoes, beans, melons, and, in fact, all garden vegetables, as well as young peach and other fruit trees planted this year show very plainly that so neglected tract of land should remain in that state; and there is now a strong probability that it will not be for under the auspices of Mr. Landis, it will be divided into small lots, with roads located to accommodate all the surveyors will be now busy at this work—and all purchasers will be required to build neat comfortable houses, and either fence their lots in conformity, or agree to live without fences, which would be preferable, by which means a good population will be secured, who will establish churches, schools, stores, mills, mechanic shops and homes—homes of American farmers, surrounded by gardens, orchards, fields and comforts of civilized life.

If any one, from any derangement of business, is desirous of changing his paraisit of life, or what is from any cause desirous to find a new location and strap home in the country, and who may read and believe what we have truly stated, he will do well to go and see for himself what may be seen within a two hours' ride out of Philadelphia.
