(REAT DISCOVERY!

KUNKEL'S

Bitter Wine of Iron. For the cure of weak stomachs, general debility, in digestion, diseases of the nervous system, constipation, acidi y of the stomach, and for all cases re-

This wine includes the most agreeable and efficient Salt of Iron we possess; Gitrate of Magnetic Oxide combined, with the most energetic of vegetable tonics. Yellow Peruvian Bark. The effect in many cases of debility, loss of appetite, and general pros-tration of an efficient Salt of Iron, combined with our raluable Nerve Tonic, is most happy. It augments the appetite raises the pulse, takes off muscular flabbiness, removes the palor of debility, and gives a florid vigor to the countenance.

Do you want something to strengthen you? Do you want a good appetite?
Do you want to build up your constitution?
Do you want to feel well?

Do you want to get rid of nervousness?

Do you want energy? Do you want to leep well?

Do you want a brisk and vigorous feeling? If you do, try

Kunkel's Bitter Wine of Iron! This truly valuable Tonic has been so thoroughly tested by all classes of the community that it is now deemed indispensable as a tonic medicine. It costs but little, purifies the blood, and gives tone to the stomach, renovates the system, and prolongs life now only ask a trial of this valuable tonic. COUNTERFEITS.

BEWARE OF COUNTERFEITS. -- AS KUNKEL'S BITTER Wise or IRON is the only sure and effectual remedy in the known world for Dyspersia and Debility, and as there are a number of initiations offered to the public, we would caution the community to purchase none but the genuine article, manufactured by S. A. KUNKEL, and has his stamp on the top of the cork of every bottle. The very fact that others are attempting to imitate this valuable remedy proves its worth and speaks volumes in its favor. The BITTER WINE OF IRON is put up in 75 cen

and \$1 buttles, and sold by all respectable druggists throughout the country. Be particular that every bottle bears the fac simile of the proprietor's signa-

General Depot, 118 Market st., Harrisburg, Pa. For sale in Greencastle, by J. H HOSTETTER and all respectable dealers throughout the county Prepared and sold. Wholesale and Retail, by KUNKEL & BORTHER,

All persons knowing themselves in debted to the above firm, are requested to make immediate settlement. The books are at the shop of the late firm, where settlement can be made by either.

JAS. A. HAUS, G. BRADLEY.

The firm most respectfully return their thanks to the public for past patronage, and solicit for the present proprietor a continuance of the same.

Greencastle, Oct 13, 1868.

\$100 REWARD! for a medicine that

Coughs, Influenza, Tickling in the Throat, Whooping Cough, or relieve Consumptive Cough as quick as

COE'S COUGH BALSAM.

Over Five Thousand Bottles have been sold in its native town, and not a single instance of its failure

We have, in our possession, any quantity of certificates, some of them from EMINENT PHYSICI-ANS, who have used it in their practice, and given it the preeminence over any other compound.

It does not Dry up a Cough, but loosens it, so as to enable the patient to expec torate freely. Two or three doses will invariably cure Tickling in the Throat. A half bottle has of ten completely cured the most stubborn cough, and yet, though it is so sure and speedy in its operation. it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age. In cases of CROUP we will guarantee a cure, if taken in season.

No family should be without It.

It is within the reach of all, the price being only money will be refunded. We say this knowing its merits, and feel confident that one trial will secure for it a home in every household.

Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable Druggist in town, who will furnish bas made. C. G. CLARK & CO.,

Proprietors. New Haven, Ct.

The Great AMERICAN TEA COMPANY.

51 Versey Street, New York; Since its organization, has created a new era in the

history of Wholesaling Teas in this Country.

They have introduced their selections of Teas, and are selling them at not over Two Cents (.02 Cents) per pound above Cost, never deviating from the ONE PRICE asked.

Another peculiarity of the company is that their TEA TASTER not only devotes his time to the selec tion of their Teas as to quality, value, and particular styles for particular localities of country, but he helps the Tea buyer to choose out of their enormous stock such TEAS as are best adapted to his peculiar wonts, and not only this, but points out to him the hest bargains. It is easy to see the incalculable adapted on The Baryon her in this control of the contro intage a Tha Buyer has in this establishment over all others. If he is no judge of Tea, or the Market, if his time is valuable, he has all the benefits of a well organized system of doing husiness of an immense applied, of the judgment of a professional Tea Taster,

ind the knowledge of superior salesmen.

This enables all Tea buyers—no matter if they are thousands of miles from this market-to purchase on as good terms here as the New York mer-

Parties can order Teas and will be served by us as well as though they came themselves, being sure to get original packages, true weights and tares; and the Teas are warranted as represented.

We issue a Price List of the Company's Teas.

which will be sent to all who order it : comprising Hyson, Young Hyson, Imperial, Gunpowder, Twankay and Skin.

Oolong, Souchong, Orange and Hyson Pekoe Japan Tea of every description, colored and uncolored. This list has each kind of Tea divided into Four Classes. namely: CARGO, high CARGO. FINE, FINEST, that every one may understand from description and the prices annexed that the Company are determined to undersell the whole Tea trade. We guarantee to sell all our Teas at not over TWO CENTS (.O2 Cents) per pound above cost, believing this to be attractive to the many who have heretofore been paying Enormous Profits.

VINELAND. TO ALL WANTING FARMS. New Settlement of Vineland.

EMEDY FOR HARD TIMES. A Rare Opportunity in the Best Market, and Most De-

lightful and Healthful Climate in the Union. Only hightful and Healthful Climate in the Union. Only thirty miles South of Philadelphia, on a Railroad; being a Rich, Heavy Soil, and Highly Productive Wheat Land; Amongst the Best in the Garden State

of New Jersey.
It consists of 20,000 acres of GOOD land, divided into Farms of different sizes to suit the purchaser-FROM 20 ACRES AND UPWARDS-and is sold at the rate of from \$15 to \$20 per acre for the farm land, payable one-fourth cash, and the balance by quarteryearly installments, with legal interest, within the

term of four years. The Soil is, in great part, a Rich Clay Loam, suitable for Wheat, Grass and Potatoes—also a dark and rich sandy loam, suitable for corn, sweet potatoes. tobacco, all kinds of vegetables and root crops, and the finest varieties of fruit, such as Grapes, Pears, Peaches, Apricots, Nectarines, Blackberries, Meleus and other fruits, best adapted to the Philadelphia and New York Markets. In respect to the soil and crops there can be no mistake, as visitors can examine both, and none are expected to buy before so doing, and finding these statements correct-under these circumstances, unless these statements were correct, there would be no use in their being made. It is considered the best Fruit soil in the Union.

[See Reports of Solon Robinson, Esq., of the New York Tribune, and the well-known agriculturist, william Parry, of Cinnaminson, New Jersey, which will be furnished inquirers.]

The Market.--By looking over a map the reader will perceive that it enjoys the best market in the Un-

ion, and has direct communication with New York and Philadelphia twice a day, being only thirty-two miles from the latter. Produce: this market brings double the price that it does in locations distant from the cities. In this location it can be put into market the same morning it is gathered, and for what the farmer sells he gets the highest price: whilst groceries and other articles he purchases he gets at the lowest price. In the West, what he sells brings him a pittance, but for what he buys he pays two prices. In locating here the settler has many other advantages. He is within a few hours, by railroad, of all the great cities of New England and the Middle States. He is near his old friends and associations. He has school for his children, divine service, and all the advantages of civilization. and he is near a large city.

The Climate is delightful; the winters being sa-

lubrious and open, whilst the summers are no warmer than in the North. The location is upon the line of latitude with northern Virginia.

Persons Wanting a change of Climate for Health, would be much benefitted in Vineland. The mildness of the climate and its bracing influence, makes it excellent for all pulmonary affections, dyspepsia or general debility. Visitors will notice a difference in a few days. Chills and fevers are unknown.

Conveniences at Hand.—Building material is plenty. Fish and oysters are plenty and cheap.

Visitors must expect, however, to see a new place.

Why the Property has not been Settled Reform?

Why the Property has not been Settled Before?— This question the reader naturally asks. It is besause it has been held in large tracts by families not disposed to sell, and being without railroad facilities they had few inducements. The Railroad has just been opened through the property this season, for

the first time. Visitors are shown over the land in a carriage, free of expense, and afforded time and opportunity for thorough investigation. Those who come with a view to settle, should bring money to secure their purchases, as locations are not held upon refusal. The Safest thing in Hard Times, where people have been thrown out of employment or business, and possess some little means or small incomes, is to start themselves a home. They can buy a piece of land at a sntall price, and earn more than wases in

improving it, and when it is done it is a certain in-

dependence and no loss. A few acres in fruit trees will insure a comfortable living. The land is put down to hard times, and all improvements can be made at a cheaper rate than most any other time.

The whole tract, with six miles front on the railroad, is being laid out with fine and spacious avenues, with town in the centre-five acre lots in the town sell at from \$150 to \$200; two and a-half acre lots, at from \$80 to \$120, and town lots 50 feet front Infant Bodies, Dimities, &c., &c., &c. by 150 feet deep, at \$100-payable one-half cash and the balance within a year. It is only upon farms of twenty acres, or more, that four years'

time is given. To Manufacturers, the town affords a fine opening ticles, being near Philadelphia, and the surrounding country has a large population, which affords a

good market. This settlement, in the course of several years. will be one of the most beautiful places in the coun-

try. and most agreeable for a residence.
It is intended to make it a Vine and Fruit grow ing country, as this culture is the most profitable and the best adapted to the market. Every advantage and convenience for settlers will be introduced which will insure the prosperty of the place. The hard times throughout the country will be an advantage to the settlement, as it compels people to resort

to agriculture for a living.

Large numbers of people are purchasing, and the people who desire the best location should visit the

place at once.
Improved Land is also for sale. TIMBER.-Land can be bought with or without Timber. The Timber at market valuation.

The title is indisputable. Warrantee Deeds given

clear of all incumbrance, when the money is paid. Boarding conveniences at hand. Letters promptly answered, and Reports of Solon Robinson and Wm. Parry sent, together with the

Vineland Rural."

Report of Solon Robinson, OF THE NEW YORK TRIBUSE, COON THE

VINELAND SETTLEMENT The following is an extract from the report of Solon Robinson. Esq., published in the New York Tribune, in reference to Vineland. All persons can

re d this report with interest. Advantages of Farming near Home—Vineland—Remarks upon Mari—Soil, its great Fertility—The Cause of Fertility—Amount of Crops Produced—

Practical Evidence. Principal Evidence.
It is certainly one of the most extensine fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this sale of the western prairies. We found some of the addest farms apparently just as profitable productive as when first eleared found fifth on a hundred name one.

of forest fifty or a hundred years ago. The geologist would soon discover the cause of this continued tertility. The whole country is a marine deposit, and all through the soil we found evidences of calcareous substances, generally in the form of indurated calcareous mark showing many distinct forms of ancient shells, of the tertiary formation; and this marly substance is scattered all through the soil, in a very comminuted form, and in the condition most easily assimilated by such plasants the farmer desires to cultivate.

Marl. in all its forms, has been used to fertilize

rops in England, from the time it was occupied by the Romans; and in France and Germany a mart bed is counted on as a valuable bed of manure, that can be dug and carted and spread over the field How much more valuable then it must be, when found already mixed through the soil, where new particles will be turned up and exposed, and transformed to the owner's use every time he stirs the earth,

Having then satisfied our minds of the cause, they will not be excited with wonder at seeing indubitable evidence of fertility in a soil which in other situa-tions, having the same general characteristics or at least appearances, is entirely unrenumerative except as its productiveness is promoted by artificial fertil-

A few words about the quality and value of this land for cultivation, of which we have some strong

Our first visit was to William D. Wilson, Franklin township, Gloucester county, who purchased some eight miles north of Millville, about three years ago, for the purpose of establishing a steam mill, to work up the timber into lumber, to send off by the new railroad, as well as the firewood and coal, for which he built a branch track a mile and a balf long. He also furnished sixteen miles of the road with ties, and has no doubt made the mill prefitable, though his main object was to open a farm, having become convinced that the soil was valuable for cultivation. In this he has not been disappointed, as some of his crops prove. For instance, last year, the second time of cropping, 306 bushels of putatoes on one acre, worth 60 cents a bushel in the field. This year seven acres, without manure, produced 356 bushels of onts. In one field, the first crop was potatoer, planted strong the roots, and yielded 75 bushels.—
The potatoes were dug, and wheat sown, and yielded 16 bushels; and the stubble turned under and sown to buckwheat, which yielded 33% bushels; and then the ground was sown to clover and timothy.

which gave as a first crop 21 tons per acre.

The fertilizers applied to these crops were first, ashes from clearings: second, 225 pounds of super-phosphate of lime; third, 200 pounds Peravian guano; then 50 bushels of slaked lime has been spread upon the clover since it was mowed, and turned in

Mr. Wilson's growing crops, and the wheat stub-ble of the present season, all indicate his land as

productive as any part of the State. At Mary Barrow's, an old style Jersey woman farmer, several miles south of Mr. Wilson's, we were so particularly struck with the fine appearance of u field of corn, that we stopped to inquire of the hirea man how it was produced. We found that the land had been the year but one before in wheat, sown with clover, and this cut one season, and last spring plowed once, with one "poor old nag," and planted

"Yes, but you manured high, we suppose?" we said interrogatively, and got this reply: "Waal, you see, we couldn't a done that; 'cause we hadn t but forty one-horse loads altogether, for

23 acres, and we wanted the most on't for the it ick.

The truck consisted of beets, carrots, cabbage, cucumbers, melons, &c., and a very productive patch of Lima beans, grown for marketing. So we by clover, which had fed the corn, because the "truck patch" had not been in cultivation long enough to obliterate all signs of the forest.

Our next visit was to the large farm of Andrew Sharp, five miles north of Milville, from half to a mile east of the railroad, and just about in the centre of Vineland. Mr. Sharp commenced work her; in December, 1858, upon 270 acres. In less than three years, he has got 234 acres cleared and in crops this season, as well inclosed and divided into several fields, with cedar rail or pole fence; has built a two-story dwelling, about 36 by 40 feet, and a smaller house for farm laborers, and a stable and granary and some other out buildings.

Considerable part of the land was cleared for the plow at S9 an acre, and on some of it the first crop was buckwheat, limed with 50 bushels in powder per acre. This crop may be put in July 4th to 20th, and yields 20 to 30 bushels per acre, harvested 12 November; when the land being sowed with 150th 2 of Peruvian guano and seeded with rye, rielded 12 to 15 bushels per acre and \$10 worth of straw. The rye stubble turned, after knocking off a large growth of oak sprouts, and dressed again with guane and seeded to wheat, gave 15 or 10 bushels. which he was threshing while we were there promi ses more, of a very plump grain, and the straw is

very heavy.

We went over the stubble, and found the clover and timothy, from seed sowed last spring, on the wheat without harrowing, looking as well as we ever saw it upon any old cultivated farm, and with a little work done in the winter to clear off some roots and rotten stumps, and setting stakes to mark per-manent ones, he will be able to cut the crop the next year with a mowing machine, and we will two tons per acre, if he will give the overplus if it overruns the estimate.

Part of the land was planted with potatoes for a first crop, which yielded 120 bushels per acre. It was then limed with 50 bushels per acre, and seeded with wheat and clover, yielded and average of over 15 bushels per acre, and the clover now looks beau-

Other portions have been planted with corn as a first crop, which yielded 30 bushels of yellow fint corn, and the second crop 40 bushels, and the third crop, treated to 150ths, of guano, we are sure no one would estimate below 40 busheis per sere.

The reader will recollect that the writer is now speaking of land perfectly new, and which can scarcely be considered in good arable condition -

In other cases, the corn crop of last year was followed with oats this season, not yet threshed, but will average probably 40 to 50, bushels. Sweet potatoes, beans, melons, and, in fact, all garden veg-etables, as well as young peach and other fruit trees planted this year show very plainly that this ong neglected tract of land should remain so no onger, and there is now a strong probability that t, will not; for under the auspices of Mr Landis, t will be divided into small lots, with roads located to accommodate all—the surveyor is now husy at this work—and all purchasers will be required to build nest comfortable houses, and either fence their lots in uniformity, or agree to live without fence, which would be preferable, by which means good population will be secured, who will estab. lish churches, schools, stores, mills, mechanic shops and homes-homes of American farmers, surrounded by gardens, orchards, fields and comforts of civ-

If may one, from any derangement of business. is desirous of changing his pursuits of life, or who is from any cause desirous to and a new location and cleap home in the country, and who may read and believe what we have truly stated, he will do well to go and see for himself what may be seen

within a two hours' cide out of Philadelphia SOLON ROBINSON.
